

First Carbon Capture, Utilisation and Storage Forum

Monday, 11 October 2021, 12:30-16:00

On-line

Both **Executive Vice president Frans Timmermans** and **Commissioner for Energy Kadri Simson** will speak at the Forum.

Thematic sessions

Discussion Panel: How to build political momentum for CCUS

The discussion will focus on how to secure and strengthen political backing for CCUS on the way to 2050 involving politicians from European countries and the European institutions.

Discussion Panel: The value of CCUS – decarbonisation and carbon negative

The discussion will focus on what part CCUS could play in getting us to climate neutrality and how much negative emissions it could deliver.

Discussion Panel: Decarbonising industry

The discussion involving CEOs of companies from hard to abate sectors will focus on potential applications of CCUS.

Discussion Panel: CCUS hubs – how do we scale up?

This panel will discuss how we should approach scaling up of CCUS. Industrial and storage hubs are a promising way forward.

Discussion Panel: Second down of CCUS. Do we need anything else than money?

The discussion will focus on what key barriers remain preventing the sector to enter commercial deployment phase.
