ANNEX

to the
COMMISSION DECISION

concerning the adoption of the 2018 work programme in the field of Communication
serving as financing decision
GENERAL OBJECTIVES

The European Commission’s communication activities fall under its political autonomy as an institution and its institutional prerogatives.

President Jean Claude Juncker's Political Guidelines for the Commission “A New Start for Europe: Agenda for Jobs, Growth, Fairness and Democratic Change” of 2014 describe ways of “bringing the European Union closer to citizens”. Starting from the factual assessment that “in many countries, trust in the European project is at a historic low”, President Jean-Claude Juncker stated as his “key task to rebuild bridges in Europe after the crises. To restore European citizens’ confidence. (...) and to strengthen democratic legitimacy on the basis of the Community method.”

Moreover, the President included in the mission letters to the Members of the Commission the importance of being “in dialogues with citizens, by presenting and communicating the Commission’s common agenda, listening to ideas and engaging with stakeholders.”

This need was re-confirmed in the Bratislava Declaration adopted by the Heads of State or Government of 27 Member States on 16 September 2016 which states: "We need to improve the communication with each other – among Member States, with European Union institutions, but most importantly with our citizens. We should inject more clarity into our decisions. Use clear and honest language. Focus on citizens’ expectations, with strong courage to challenge simplistic solutions of extreme or populist political forces.”

Since 2017, the Directorate-General for Communication has been implementing communication activities around the three strand narratives "EU delivers (#Invest EU) – EU empowers – EU protects". Building on the current momentum, these activities will be complemented by a strong focus on the concrete deliverables as defined in the Roadmap for a More United, Stronger and More Democratic Union. This was also outlined in the State of the Union Speech of the President on 13 September 2017 as well as in the Letter of Intent sent to European Parliament President Tajani and Estonian Prime Minister Ratas on 13 September 2017.

To this end, there is a need to communicate the European Commission’s core messages with more clarity, focussing on concrete actions that are important for European citizens and national Parliaments.

This applies notably to the debate on the future of the European Union at 27 kickstarted in March 2017 by the Commission with its "White Paper on the future of Europe" and the deliverables of the Roadmap. All Members of the Commission will continue to engage across the European Union in dialogue with citizens and listen to their views on and expectations for the future of the Union.

Thus, the 2018 work programme of the Directorate-General for Communication working as executive service for the College, focuses on supporting the main political priorities identified in the Political Guidelines as well as the priorities of the Commission specified in the Commission Work Programme for 2018.

The Directorate-General for Communication will contribute to further coherence of communication activities across the Commission, notably through the corporate campaigns, the centralisation of communication framework contracts and its leading role in the Corporate Communication Steering Committee and in the Communication Network (this will also contribute to the rationalisation of existing communication prizes).
All contracts are service contracts, unless otherwise specified.

1. **BUDGET LINE 16 03 01 02 – INFORMATION FOR THE MEDIA AND AUDIOVISUAL PRODUCTIONS**

1.1. **Operations financed from this budget line**

The activities covered by this budget line are related to Specific Objective 1 and Objective 3 as indicated in the Directorate-General for Communication in its Strategic Plan 2016 to 2020 and respective Management Plans.¹

The Directorate-General for Communication, working as executive service for the College, aims to provide the President, the Commissioners and senior management with tools and products that ensure they are better informed on current European Union affairs, and that increase the visibility of the policies and activities of the Union.

In 2018, these activities will focus on the Commission's priorities as set out in the Political Guidelines and the 2018 Commission Work Programme.

This budget line also covers a possible evaluation(s) and professionalisation of these communication activities.

In 2018 the main activities concern:

1. **Video news**
   - Production of Commission-centred video news (live and recorded coverage, edited news). This is mainly intended for use by the media.
   
   These video news are available on the interinstitutional Europe by Satellite (EbS) distribution platform via a dedicated satellite TV channel, and online.

2. **Photographs**
   - Production of:
     - Commission-centred photo news and thematic photos illustrating the political priorities;
     - Photos about the diplomatic/ceremonial activities of the Commission.
   
   The photos will be distributed both physically and electronically. They are made available to the media and the general public on the Commission's corporate Audiovisual Portal.

3. **Audiovisual and multimedia**
   - Intensifying and diversifying audiovisual and multimedia production for the general public.

¹ This refers to the mission statement of the Directorate-General for Communication as broken down in the objectives of its Strategic Plan 2016 to 2020 and respective Management Plans. Specific Objective 1: Providing intelligence to the College, Cabinets and Services. High quality country specific information and analysis are fed into College decision making process. Specific Objective 3: Engaging with Citizens. A simple, clear, understandable message focussed on Commission's 10 political priorities is communicated to citizens, media, multipliers and stakeholders.
• Improving its dissemination through:
  – The Audiovisual Portal;
  – Various technological platforms, including social media.

(4) Journalists

• Organising information events and support for journalists.

(5) Making audiovisual resources accessible to the public

• Consolidating the central repository of the Commission's audiovisual production as part of the 'synergies and efficiencies' initiative;
• Organising the Audiovisual Portal as the single point of distribution;
• Continuing the work on preserving, digitising and documenting the media library.

The aim is to give the public access to the entire audiovisual collection, including photos, videos, films and audio recordings.

1.2. Mobilisation of available appropriations and implementing arrangements

The available appropriations will be distributed among the different activities and in accordance with the various implementing arrangements described in the table below.

2. **BUDGET LINE 16 03 01 03 – INFORMATION OUTLETS**

2.1. **Operations financed from this budget line**

The activities carried out under this heading cover:

(1) The grants for Europe Direct Information Centres (EDICs)

(2) The training and support for all three networks under the umbrella of the Europe Direct Network:

- Europe Direct Information Centres (EDICs);
- European Documentation Centres (EDCs);
- Team Europe (TE).

These activities are related to Specific Objective 1 and Specific Objective 3, as indicated by the Directorate-General for Communication in its Strategic Plan 2016 to 2020 and respective Management Plans.²

This budget line also covers a possible evaluation(s) and professionalisation of these communication activities.

2.1.1. **Grants for Europe Direct Information Centres**

2018-2020 generation

---

² See footnote 1.
The Europe Direct Information Centres contribute to the European Commission’s communication about the European Union, in particular, about the European Commission's political priorities, with the objective of engaging with citizens at local and regional level.

The Europe Direct Information Centres' 2018 communication priorities take into account: (i) communicating on a Europe that protects, empowers and defends ³ and (ii) the European Parliament elections 2019.

The Europe Direct Information Centres mission and objectives are:

(1) To complement and support the work of the European Commission Representations and European Parliament Information Offices (EPIO) in the Member States and to cooperate with other European Union institutions and bodies at local and regional level;

(2) To cooperate with other European Union information and assistance networks;

(3) To build a sustainable networking environment, involving the public in European topics;

(4) To provide basic information on the European Union and its policies to the public;

(5) To organise events and outreach activities using various communication tools to reach and engage citizens at local and regional level either directly or through relevant multipliers and stakeholders;

(6) To actively support Citizens' Dialogues by interacting with local and regional media and providing feedback on citizens’ views and reactions, thereby contributing to the debate on the Future of Europe.⁴

The Representations of the European Commission in the Member States have in 2017 selected and signed a Framework Partnership Agreement for the years 2018 – 2020 with the partners hosting the individual centres⁵. A Specific Agreement for the year 2018 will be signed at the beginning of 2018.

For the years 2019 and 2020, in the fourth quarter of the year n-1, each Representation invites the partners to submit an annual communication plan for the year n. After approving the communication plan, a Specific Agreement is signed for the year n.

The annual action grant per centre, in the form of a lump sum, ranges from a minimum of 20 000 EUR per year to a maximum of 40 000 EUR per year in the countries with 100% coefficient applied to the lump sum⁶.

³ www.europa.eu/rapid/attachment/IP-16-3500/en/CWP%20v14.pdf ⁴ White Paper on the Future of Europe 01 March 2017: https://ec.europa.eu/commission/white-paper-future-europe-reflections-and-scenarios-eu27_en ⁵ The Europe Direct Information Centres' grant implementing procedures, including criteria and rate of co-financing, are stipulated in the Commission Decision C(2016)8443 final of 19.12.2016 concerning the adoption of the 2017 work programme in the field of Communication, serving as financing decision. There are four categories of countries with different coefficients applied to lump sums: 120% - Denmark, United Kingdom, Ireland, Sweden, Finland, Luxembourg; 100% - Netherlands, Belgium, France, Austria, Italy, Germany; 95% - Spain, Cyprus, Greece, Portugal, Malta, Slovenia, Estonia; 75% - Latvia, Slovakia, Croatia, Czech Republic, Lithuania, Hungary, Poland, Romania, Bulgaria. A minimum and maximum grant per EDIC may vary among the countries in the same group within the range of minimum 20 000 EUR and maximum 40 000 EUR, taking into account the country coefficient.
2.1.2. European Documentation Centres

The tasks of European Documentation Centres and the ways in which they operate will be updated in 2018.

This will involve changing the agreements with host structures:

- To widen the scope of their activities, particularly in reaching out to specific target groups e.g. University students and academia;
- To enhance the European Documentation Centres' mission and outreach potential to ensure that the latter are well adapted to the digital era.

A call for expression of interest will be published on the websites of Representations of the European Commission in the Member States in 2018, inviting both existing and potential new European Documentation Centres to participate in this new generation of European Documentation Centres.

The European Documentation Centres' mission will comprise the following goals:

- To encourage and to facilitate the study and the research of European Union policies, initiatives and actions;
- To provide expertise on searching for information sources and documents on the European Union;
- To engage in debates on Europe, particularly in the Citizens' Dialogues and debates on the Future of Europe, and in other events organised by the Representations of the European Commission in the Member States;
- To work closely with other European Documentation Centres, European Direct Information Centres and Team Europe, helping the local community to connect with the European Union;
- To develop web-based information and an online presence.

2.1.3. Team Europe

Team Europe supports the Directorate-General for Communications' in reaching out to the general public and facilitating the debate on the Future of Europe at local level.

The network is composed of experts on European Union politics and has evolved towards a network of communicators in a variety of fields going beyond academic speeches. It now also covers panel discussions and using social media in order to inform general public and stakeholders about political priorities and to engage them in the debate about European Union policy.

The Representations of the European Commission in the Member States manage the national branches of the Team Europe Network. They invite Team Europe membership applications by launching an open call for interest on their website. The application is evaluated and it is checked if the candidate's profile matches the communication needs and that the Representations of the European Commission in the Member States identify for the network.

Representations of the European Commission determine the duration of membership of this network. Team Europe members sign a Letter of Understanding with the relevant Representation.

---

7 See footnote 4.
2.1.4. *Training, support and coordination of the Europe Direct Network*

The Europe Direct Network comprises:

- Europe Direct Information Centres (EDICs);
- European Documentation Centres (EDCs);
- Team Europe (TE).

They all benefit from coordination and support services financed by the Directorate-General for Communication to support and develop synergies with other European Commission information networks.

To increase the network members’ knowledge of European Union policies and to keep the networks up to date on latest developments, in particular on the European Commission's political priorities, the Directorate-General for Communication provides training seminars, promotional activities, information services and information material.

Once a year, an Annual General Meeting with all Europe Direct Information Centres is organised. These annual events focus on interactive exchanges, innovative ideas and networking.

2.2. *Mobilisation of available appropriations and implementing arrangements*

The available appropriations will be distributed among the different activities and in accordance with the various implementing arrangements described in the table below.

Some of the training, support and coordination is organised locally by the Representations in the Member States.

3. **BUDGET LINE 16 03 01 04 – COMMUNICATION OF THE COMMISSION’S REPRESENTATIONS, CITIZENS’ DIALOGUES AND PARTNERSHIP ACTIONS**

3.1. **Operations financed from this budget line**

The appropriations under this budget line are intended to implement decentralised communication actions via the Representations of the European Commission in the Member States. The activities covered by this budget line are related to Specific Objective 1 and Specific Objective 3 in the Strategic Plan 2016 to 2020 and respective Management Plans of the Directorate-General for Communication.

This budget line also covers a possible evaluation(s) and professionalisation of these communication activities.

In 2018, these activities will focus on the political priorities as set out in Political Guidelines for the Commission, and in the 2018 Commission Work Programme. This is in line with the 2017 State of the Union Speech where President Juncker supported the idea of organising democratic conventions across Europe in 2018, involving national parliaments and as a complement to the Dialogues civil society at national, regional and local levels.

Within this framework, each Representation will develop a country strategy for 2018 defining a wide range of activities and communication tools tailored to local audiences. The activities will range from debates and conferences for opinion leaders and multipliers to citizens’ dialogues and similar platforms of exchange for the general public.

Citizens' Dialogues will remain an important tool for engaging with citizens. The Dialogues are closely synchronised with the Commission’s political priorities and its political calendar. They inform citizens and offer a platform for debate about major European initiatives and allow Members of the Commission or senior officials, including the Heads of Representation of the European Commission, to harvest citizens’ feedback notably on the Future of Europe and the deliverables of the Roadmap for a More United, Stronger and More Democratic Union.

As such, Citizens' Dialogues:

- "Give Europe a face" and allow citizens to discuss and to better understand the political responsibility for decisions which have a great impact on their lives.
- Contribute to re-building the trust of citizens in the EU.

---

9 See footnote 1.
10 The tools will include social media.
12 Standard Eurobarometer 87 (May 2017), p. 14: "More than four in ten Europeans trust the European Union, Trust in the European Union has gained 10 percentage points since autumn 2015. The positive development observed in autumn 2016 (when trust in the three institutions had gained ground since spring 2016) is confirmed, and has even strengthened." Correspondingly, Standard Eurobarometer 87
Whenever possible these various communication actions are organised in partnership with the European Parliament and/or the Member States as well as the Committee of the Regions and the European Economic and Social Committee. This creates or reinforces synergies between the means of each partner and it helps coordinating their information and communication activities on the European Union.

The main aim of the activities financed from this budget line is to communicate messages relating to the Political Guidelines and the Work Programme of the Commission including the Roadmap for a more United, Stronger and More Democratic Union. The appropriations cover for example expenditure:

1. For promotional support material, studies, evaluations, expenses related to the organisation of Citizens' Dialogues, advice and support through external experts, meetings of experts and expert technical and administrative assistance;
2. To assist and support communication activities (corporate and/or stakeholder communication), management of the Communication Network and its subgroups and implementation of the Synergies and Efficiencies communication\(^\text{13}\) ;
3. To support the exchange of best practices and knowledge transfer on professionalising the external communication function of the Commission (for example by financing participation in conferences such as masterclasses of professionalisation experts and practitioners);
4. To manage the public information services located in its premises.

In addition to the communication activities, the Commission Representations will continue their liaison activities targeted at stakeholders to discuss the Commission agenda and priorities and gather political and economic intelligence. Those activities contribute to strengthen country specific knowledge provided by the Representations to the Headquarters where feedback is then complemented with further analysis before being fed upstream with the political decision-making process.

3.2. **Mobilisation of available appropriations and implementing arrangements**

The available appropriations will be distributed among the different activities and in accordance with the various implementing arrangements described in the table below.

**Commitment appropriations: 18 357 000 EUR**

---

\(^{13}\) SEC(2016)170 of 4 April 2016, "Synergies and Efficiencies in the Commission – New Ways of Working".

(May 2017), p. 20 also states that "more than four in ten Europeans agree that their "voice counts in the EU" (42%), after a second consecutive increase (40% since autumn 2016, 38% since spring 2016). This is the highest score achieved by this indicator since autumn 2004.

4. **BUDGET LINE 16 03 01 05 – EUROPEAN PUBLIC SPACES**

4.1. **Operations financed from this budget line**

The appropriations under this budget line are intended to cover specifically the management of "European Public Spaces" in the Houses of the European Union in the Member States, in order to host public events.

The activities covered by this budget line are related to Specific Objective 3 as indicated in the Directorate-General for Communication in its Strategic Plan 2016 to 2020 and respective Management Plans.\(^{15}\)

---

\(^{14}\) Prizes in kind, if given, will have a symbolic nature.
This budget line also covers a possible evaluation(s) and professionalisation of these communication activities.

The European Commission will manage the logistical arrangements for the European Public Spaces for the benefit of both institutions, European Parliament and European Commission. This includes operational costs and the organisation of contracted services in the 18 European capitals concerned: Athens, Berlin, Bucharest, Budapest, Copenhagen, Dublin, Helsinki, Lisbon, London, Madrid, Nicosia, Prague, Riga, Rome, Stockholm, Tallinn, The Hague and Vienna.

5. BUDGET LINE 16 03 02 01 – VISITS TO THE COMMISSION

5.1. Operations financed from this budget line

The appropriations under this budget line are intended to cover the cost of organising visits to the Commission, including administrative expenditure related to the visits.

The activities covered by this budget line are related to Specific Objective 3 as indicated in the Directorate-General for Communication in its Strategic Plan 2016 to 2020 and respective Management Plans.  

This budget line also covers a possible evaluation(s), professionalisation of the activities and upgrades of the Visitors’ Centre structures/services.

The Visitors’ Centre is a key communication tool, giving its visitors an insight into the work and functioning of the European Commission as the political executive of the European Union, as well as explaining European Union policies and Commission priorities.

The Visitors’ Centre works closely with the Spokesperson’s service and the Representations of the European Commission in the Member States. It also cooperates with other Directorates-General and Services of the Commission as well as with the Permanent Representations of the Member States to the European Union.

---

15 See footnote 1.
16 See footnote 1.
Visits are organised around the political agenda and priorities of the Commission, for example the European Semester and the ten priorities of the Juncker Commission. The visit’s programme systematically contributes to communicating the different deliverables of the Roadmap for a *More United, Stronger and More Democratic Union*, as announced by the President in his 2017 State of the Union speech. The Visitors’ Centre receives an important number of high-profile groups and key multipliers and offers them three types of visits:

- **General information visits:** Aimed at people with little or no previous knowledge of the European Union including secondary school groups;
- **Specific information visits:** Aimed at undergraduate students and specific interest groups;
- **Tailored information visits:** Aimed at journalists, national and local government representatives, business associations, professional groups from the public and private sector, trade unions, academics including post graduate and research students.

The Centre currently receives visitors only in groups and upon prior registration and therefore is not open for the general public. A new Information Point/Centre for the general public will be set up in 2018, to be operational in the beginning of 2019. Therefore, in 2018, a dedicated budgetary allocation must made for this new Information Point/Centre to cover equipment for the pedagogical content including technological and content upgrades and running costs.

### 5.2. Mobilisation of available appropriations and implementing arrangements

The available appropriations will be used for the development of the new Information Centre and for full implementation of the different visit programmes, covering where appropriate, costs related to travel, accommodation, meals, refreshments, local transport and external speakers fees, and other implementing arrangements described in the table below.
