1 BACKGROUND AND OBJECTIVES

Background

On 25 September 2015, the General Assembly of the United Nations adopted a set of 17 Sustainable Development Goals (SDGs) to end poverty, protect the planet, and ensure prosperity for all as part of a new sustainable development agenda, the "[2030 Agenda for Sustainable Development](#)". Each of the 17 goals has specific targets (169 targets in total) to be achieved by 2030.

In November 2016, the Commission adopted its Communication "[Next steps for a sustainable European future](#)", in response to the 2030 Agenda for Sustainable Development.

Achieving the 2030 Agenda is a shared responsibility. Individuals; businesses; academia; civil society; local, regional, national, European and international public and private organisations must work together: all have a role to play towards realizing this agenda. Also small-scale projects and individual acts can contribute to change for the better.

This is why the Communication "Next steps for a sustainable Europe"¹ announced that a European Sustainability Award will be granted annually to "recognize initiatives with a transformative contribution to the global 2030 Agenda implementation".

Europe can learn from some of its greatest innovators, mobilizers and communicators and celebrate achievements being made in every corner of the European Union.

The Commission has set up an [SDG multi-stakeholder platform](#), which will help the Commission in the selection process of the European Sustainability Award².

Objectives pursued

The ambition of this Award scheme is clear: to raise awareness of the SDGs in the EU by giving a human face to the efforts and creativity of European people, businesses and organizations, which are turning the global sustainable development goals into concrete solutions and opportunities.

The specific objectives of the European Sustainability Award are:

- to recognize initiatives in the European Union with a transformative contribution to the 2030 Agenda for Sustainable Development;
- to promote further development of initiatives in the European Union focusing on sustainable development, including an increasing awareness and involvement of citizens and stakeholders in the European Union;
- to identify initiatives able to act as "sustainability ambassadors" for the European Union, in order to encourage others to progress towards better sustainable development outcomes.

² COM(2016) 739

The European Sustainability Award builds on the wealth of existing Awards at both national and European levels.

Focus of the 2019 European Sustainability Award

The European Sustainability Award aims at championing inspiring initiatives in the European Union with a transformative contribution to the UN 2030 Agenda for Sustainable Development.

Given the cross-cutting nature of the SDGs, the European sustainability Award focuses on a certain theme, linked to the theme adopted for the UN High Level Political Forum of the United Nations.

For 2019 the theme is “**Empowering people and ensuring inclusiveness and equality**” which refers to a cluster of SDGs: SDG4 on quality education, SDG 8 on decent work and economic growth, SDG 10 on reduced inequalities, SDG 13 on climate action, SDG 16 on peace justice and strong institutions, and SDG 17 on partnerships for the goals.

Even if the theme is specific and includes a cluster of goals, initiatives which apply for the European Sustainability Award will have to respect the cross-cutting nature of the SDGs and address the three dimensions of sustainable development (Environmental, Economic, Social).

The Award

The European sustainability Award is a prestigious recognition for all who incorporate the principle of sustainability into their daily activities, operations and practices. The Award is immaterial and brings high visibility in the form of renewed public interest and increased media coverage.

2 RULES OF PARTICIPATION

- (associations of) subnational legal public entities reaching a population equal to/under 100.000 individuals.

b. **Private bodies**

- **Large Enterprises**, all enterprises which do not qualify as a micro, small or medium-sized enterprise.

c. **Civil Society/'Non-profit organisations'**, i.e. entities whose members serve the general interest through a democratic process. These entities are non-profit-making or have a legal or statutory obligation not to distribute profits to their shareholders or members.

d. **Youth organisations** are defined as non-governmental, non-profit organisations (associations, clubs or movements) that have been set up to serve young people, including through the representation of their rights and interests.

2. Submitted projects/initiatives can **only** cover activities taking place (i) **inside the European Union** (at national level or at cross border level between Member States of the European Union) except for applications from the civil society, who can also submit projects/initiatives taking place **outside the European Union** (at local or global level). All applicants must be based/registered in a Member State of the European Union.
3. Submitted projects/initiatives must be **completed**.
4. Submitted projects/initiatives must address all **three dimensions** of sustainable development (Environmental, Economic and Social).
