WORDING	DEFINITION
Action	nature of the request (action requested)
Inclusion	request for inclusion in the EU organic farming regulation
Allowance for different use	request for change of disposition in the EU organic farming regulation
Revision	request for reconfirmation if the use of the following substance/technique included in the current EU organic farming regulation is still compliant with organic farming principles
Deletion	request for exclusion from the EU organic farming regulation
Positive + No. of EGTOP report	positive opinion of EGTOP
Negative + No. of EGTOP report	negative opinion of EGTOP
Positive C + No. of EGTOP report	positive opinion of EGTOP but with restrictions
Negative C + No. of EGTOP report	negative opinion of EGTOP, but if certain conditions are met it could be positive
Y	yes, the MS submit a dossier
N	no, the MS did not submit a dossier
X	no information
NO	the substance have not been evaluated by EGTOP so far / could not be classified for any Annex to 889/2008
	not published yet
	positive opinion
	negative opinion

FOOD MANDATE

ANNEX VIII

No.	Product	E Number	Action	Annex	Category (proposed use)	Details on application	Date	Country	Dossier	EGTOP Report
1	Chitine-glucane	X	Inclusion	VIIIa	Food additive AND processing aid	Wine (only)	07/10/2011	FR	Y	NO
2	Smoke condensate/smoke flavour	X	Inclusion	VIII-A	Flavouring	X	20/12/2011	SE	Y	NO
3	Ammonium sulfate	E 517	Inclusion	VIIIa	Food additive AND processing aid	Wine (only)	07/10/2011	FR	Y	NO
4	Gellan gum	E 418	Inclusion	VIII-A	Food additive	Extractant - isopropyl alcohol	20/09/2012	BE	Y	NO
5	Acetic acid	E 260	Inclusion	VIII-B	Processing aid	Aquaculture	09/12/2011	FR	Y	NO
5	Chitosane	X	Inclusion	VIIIa	Food additive AND processing aid	Wine (only)	07/10/2011	FR	Y	NO

6	Ammonium bisulphate	X	Inclusion	VIII-a	Food additive AND processing aid	Wine (only)	07/10/2011	FR	Y	NO
8	Sodium metabisulphite	E 223	Declassification (deletion)	VIII-A	Food additive	Antioxidant, preservative, disinfectant	05/11/2012	BE	Y	NO
9	Ascorbic acid	E 300	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
10	Tocopherol-rich extract (Tocopherols)	E 306	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
11	Lecithins	E 322	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
12	Citric acid	E 330	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings (UK - Derived from organic agricultural	12/02/2013 AND 13/05/2013	FR	Y	NO

						products (and which could be certified as organic themselves)				
13	Sodium alginate	E 401	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
14	Carrageenan	E 407	Allowance for different use	VIII-AF	Flavouring and additive in processed meat products	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR and NO for processed meat products	Y	NO
16	Glycerol	E 422	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
17	Pectins	E 440 i	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO
18	Hydroxypropyl methyl cellulose	E 464	Allowance for different use	VIII-AF	Flavouring	Extend use to organic flavourings	12/02/2013 AND 13/05/2013	FR	Y	NO

46	Different substances, please see B45-67	X	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

47	Vegetable carbon	E 153	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
48	Beetroot Red; Betanin	E 162	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
49	Anthocyanins	E 163	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
50	Nisin	E 234	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

51	Natamycin	E 235	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
52	Lysozyme	E 1105	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
53	Erythritol	E 968	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
54	Thaumatococin	E 957	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

55	Tragacanth	E 413	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
56	Karaya gum	E 416	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
57	Glutamic acid	E 620	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
58	Monosodium glutamate	E 621	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

59	Monopotassium glutamate	E 622	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
60	Calcium diglutamate	E 623	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
61	Monoammonium glutamate	E 624	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
62	Magnesium diglutamate	E 625	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

63	Inosinic acid	E 630	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
64	Disodium inosinate	E 631	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
65	Dipotassium inosinate	E 632	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
66	Calcium inosinate	E 633	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO

67	Calcium 5'-ribonucleotides	E 634	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
68	Disodium 5'-ribonucleotides	E 635	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
69	Pullulan	E 1204	Inclusion, allowance for different use and revision	VIII-A and B	Food additive AND processing aid	Derived from organic agricultural products (and which could be certified as organic themselves)	06/03/2013	UK	N	NO
70	Tara gum	E 417	Inclusion	VIII-A and B	Food additive AND processing aid	Production of desserts, replacement for non-organic guar gum and locust bean gum	06/03/2013	UK	N	NO

71	Fruit acid washes: Citrox anti-microbial and anti-viral citric acid / polyphenol based formulations - Fit Produce Wash; Citric acid @ 40%; Ethanol @ 5.5 %; Sodium; Alkyl Sulfate @ 4%; Grapefruit oil @ 0.03%; QS Water	X	Allowance for different use	VIII-B	Processing aid	To assist in the removal of bacterial load from wash water / Washing fresh produce	06/03/2013	UK	N	NO
73	Potassium ferrocyanide	E 536	Inclusion	VIII-A	Food additive	Anti-caking agent	30/04/2013	ES	Y	NO
74	Metatartaric acid	E 353	Declassification (deletion)	VIIIa	Food additive AND processing aid	Delete its use in wine (only)	07/10/2011	FR	Y	NO
75	Electroporation	X	Evaluation	NO	Technique	Preservation	07/05/2013	NL	N	NO
76	Plasma gas technique	X	Evaluation	NO	Technique	Preservation	08/05/2013	NL	N	NO
77	Sodium hydroxide	E 524	Allowance for different use	VIII-B	Processing aid	Peeling of salsify	08/05/2013	BE	Y	NO
78	Ozone	X	Evaluation	NO	Technique	Post-harvest	19/12/2011	NL	Y	NO

79	Carrageenans	E 407	Change of disposition	VIII-A	Carrier/Stabiliser	Quantum Satis in all organic flavourings as carrier/stabiliser; Use in all animal origin products (withdrawn of the restriction related to milk products)	18.06.2013	FR	Y	NO
80	Chromatographic cation exchange resins	Not applicable	inclusion	VIII-B	Processing aid	Chromatographic separation of glucose and fructose (from rectified concentrated must), to produce pure grape fructose and grape dextrose in syrup and crystalline forms.	17.02.2014.	IT	Y	NO
81	Erythritol	E968	inclusion	VIII-A	sugar alcohol / sweeteners	Creation of a new product line of organic bakery sugar free	04.12.2013.	IT	Y	NO
82	hydrochloric acid to amend annex VIII b of	E507	inclusion	VIII-B	Food additive/reagent	for the use as a reagent for dextrin	25.04.2014	CZ	Y	NO

	Reg. 889/2008					production				
83	Ion exchange resin	Not applicable	inclusion	VIII-B	Processing aid	Grapes sugar production (production of highly purified grape must (RCM) also called GRAPE SUGAR, from grape juice)	17.02.2014.	IT	Y	NO
84	Ion exchange resin	Not applicable	inclusion	VIII A	Food Technique	Fruit juice demineralization	11.06.2013.	IT	Y	NO
85	Sorbic acid	E200	inclusion	Annex VIII-A	Food preservative	In the processing of beaten egg-free dough baked goods	19.03.2014	ES	Y	NO
86	Vegetable carbon	E 153	Change of disposition	Annex VIII-A	Food additive	for the surface treatment of all comparable animal products (cheese, sausage)	07.02.2013	DE	Y	NO

INGREDIENTS OF AGRICULTURAL ORIGIN WHICH HAVE NOT BEEN PRODUCED ORGANICALLY REFERRED TO IN ARTICLE 28 MANDATE
