Dear Petitioner,

Subject: Petition to ban the use of wild animals in circuses

Commissioner Andriukatis asked me to thank for your email presenting a petition calling to ban the use of wild animals in circuses and to reply on his behalf.

Circus animals such as elephants are covered by some pieces of European legislation such as Council Regulation (EC) No 338/97 which deals with the protection of species of wild fauna and flora by regulating trade therein in the framework of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) and lays down the provisions (including procedures and documents) for import, export and re-export as well as internal EU trade in specimens, as well as by the legislation on animal health requirements for ungulates.

The overall purpose of the so-called "Zoos Directive" related to the keeping of wild animals in zoos is to promote the role of zoos in the conservation of biodiversity. Circuses have been explicitly excluded from the scope of the directive.

The European Commission is however not competent for the regulation of circuses and wild animals are not covered by the specific EU animal welfare legislation. The regulation of circuses and the welfare of animals in circuses remains the responsibility of the Member States. You may therefore wish to address your concerns to the authorities of the Member State concerned.

The Commission is not currently considering any legislative initiatives which would specifically cover the welfare of circus animals.
