Good Practice sharing/exchange, Capacity building	Good practice sharing/exchange	Services		

European Commission
Information Society and Media

eGovernment Objectives
ICTPSP Call 2010

High Impact Services

Objective 5.1: enlargement of SPOCS → **Pilot Type A**

Objective 5.2: eJustice Services → **Pilot Type A**

Key Enablers

Universal eID → **Thematic Network**

European Commission
Information Society and Media

ICT PSP Work Programme 2010
Enlargement of Pilots A

Objective 5.1: *enlargement of SPOCS*

➢ Enlarge with MS which are now ready with a national service

➢ Increase the geographical coverage

➢ Increase the number of service sector addressed

➢ Increase the impact on the project

Enlargement of SPOCS

Expected Outcome and Characteristics

- **Three** additional relevant administrations
- **Lay the foundation** for the methodology to encompass all Member States
- Long term **sustainability** plan
- Submitted by the **coordinator** of the running SPOCS
- Improved **competitiveness** of European businesses
- Development of **markets** for innovative ICT solutions

ICT PSP Work Programme 2010
New Pilot A

Objective 5.2: *eJustice Services*

Scope:

- As part of the eJustice action
- Modernise the judicial system in Europe
- To achieve interoperability between existing national judicial systems
- To complement actions launched by DG JLS/IDABC and by MS

eJustice Pilot

Characteristics:

- Common specifications for an interoperability layer and for common building blocks

- Building blocks for the cross-border interoperability layer of the e-Justice services reusable by all

- The pilot must collaborate and reuse results of previous CIP ICT PSP Pilots, in particular the pilot will reuse results from STORK, PEPPOL

- Compliance with the EU legal framework

- The chosen solutions must be non-discriminatory, generally available and interoperable

eJustice Pilot A

Expected impact

- Enabling all Member States to work together towards a more effective judicial system in Europe

- Contributing to a safer environment inside the EU for citizens

- Contributing to a more trustworthy environment for businesses development

ICT PSP Work Programme 2010:
Thematic Network

Objective 5.3: *Universal eID*

TN builds on STORK Project to prepare the future, beyond 2013

The network must include actors from public and private sector where ID is required

Expect outcome: Roadmap for action beyond 2013
