

Form to propose closure of an alert

Step 1: Alerts should be closed if the actual/concrete risk of damage for which they were sent no longer exists.

Please refer to the Alert Guidelines for further information (available on IMI website).

Is it the case that the actual/concrete risk of damage for which the alert was sent no longer exists?

Yes

→ go to step two

No

→ do not send the proposal to close the alert

Step 2: Please provide the reason(s) why the risk no longer exists:

We have taken measures against the service provider to eliminate the risk. Please explain:
[free text]

The service provider has taken voluntary measures to eliminate the risk. Please explain:
[free text]

Another Member State/other Member States have taken measures against the service provider to eliminate the risk. Please explain: [free text]

Other: [free text]

Supporting documents (*possibility to upload documents and to add [free text] explanations on them*)

Additional information you may want to provide on the case: [free text]
