

# Single Market Scoreboard

**Performance per Member State**

## Liechtenstein

*(Reporting period: 2013 - 2014)*

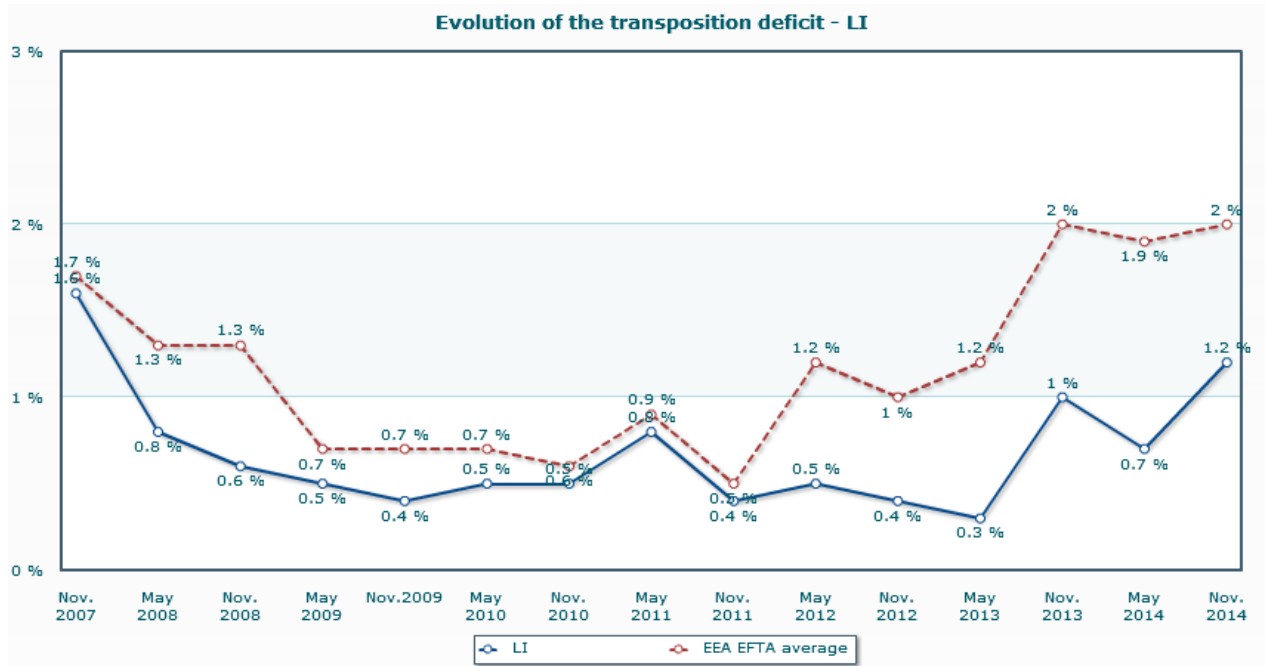

*(April 2015 edition - Transposition and Infringements update)*

## Transposition and Infringements

It is to be noted that the Single Market *acquis* applicable in EEA EFTA States does not coincide exactly with that applicable in EU Member States. This situation is due to the time lag between the adoption or abrogation of legal acts by the EU and their incorporation into or deletion from the EEA Agreement.

Any comparison of the results from the two different Scoreboards (this one and the EEA EFTA Scoreboard) has to take this difference into account. For more information on Liechtenstein's performance, please see the EFTA Surveillance Authority's Internal Market Scoreboard.

**Transposition deficit: 1.2 %** (*last report – 0.7 %*) – biggest increase in the whole EEA (0.5 %).

*EEA EFTA average: 2.0 %*

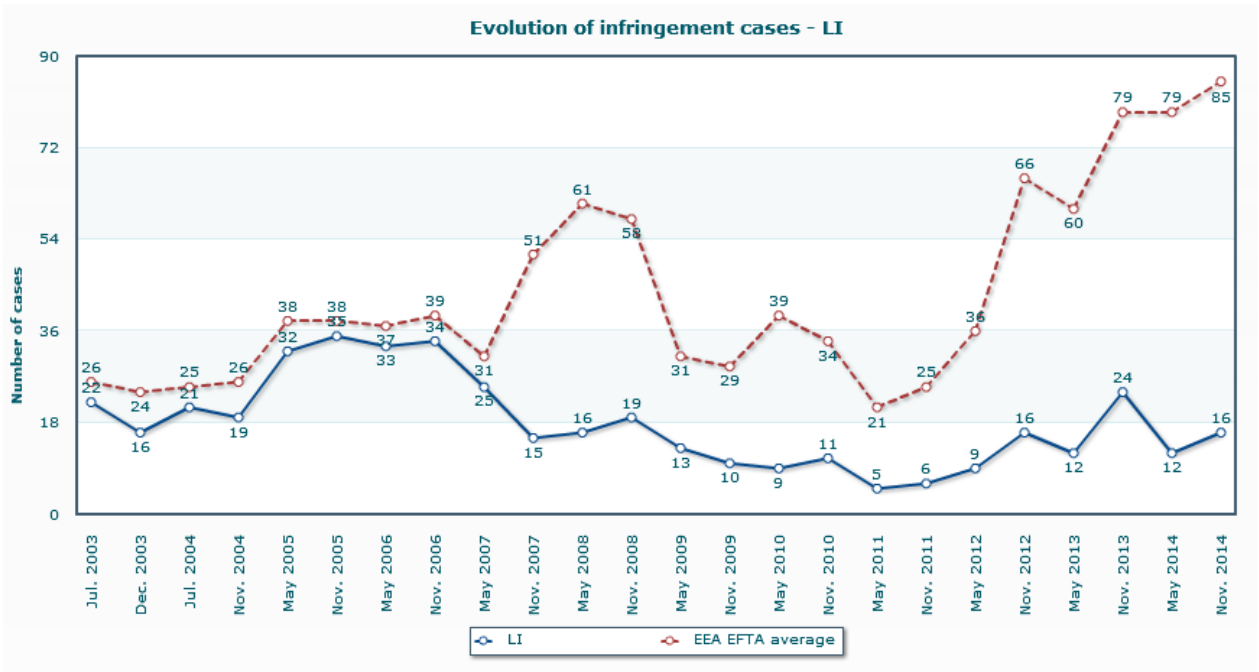

**Overdue directives: 13** (*last report – 8*) and **2** more than 2 years overdue

**Average delay: 11.3 months** (*last report – 11.8 months*) – Although Liechtenstein has 5 Directives outstanding since the previous report, the inclusion of 6 Directives of less than 6 months delay and the increased total number of outstanding directives result in a slight decrease of the average delay.

*EEA EFTA average: 10.8 months*

**Compliance deficit: 0.1 %** (*last report – 0.2 %*)

*EEA EFTA average: 0.2 %*

**Pending cases: 5** (last report: 7)

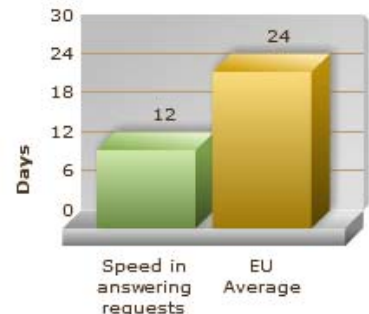

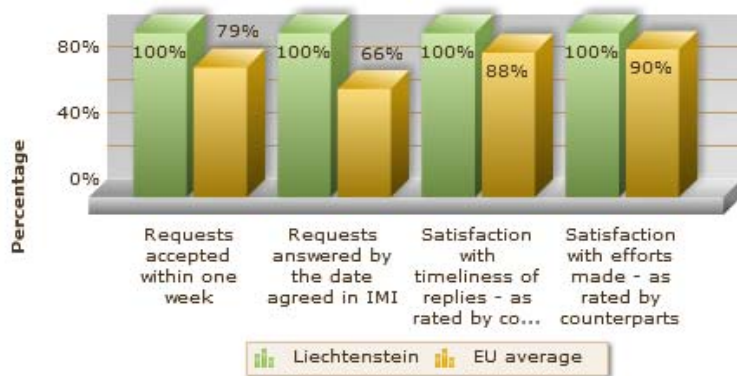

**Problematic sectors: none**

**Average case duration: 19.8 months** (last report: 15.2 months)

**Compliance with court rulings: 12.7 months** (last report 12.7 months) - no such new cases

### Internal Market Information System

- Liechtenstein has performed well in IMI though it should be noted that they received only very few requests - three - during the reporting period.
- All counterparts highly appreciated the timeliness of answers and the efforts made by authorities.

### EURES

Liechtenstein is a member of the EURES network but does not have any EURES Advisers and is not connected to the job vacancy exchange with EURES.

## Your Europe

Liechtenstein provides information to citizens and businesses on a national portal. Liechtenstein joined the Your Europe project in 2013 and cooperated very well with the Commission services. The country was represented at both Editorial Board meetings and replied to all requests for information. Promotional efforts have not been scored for the reporting period due to the recent accession to the project.

Liechtenstein should continue to support Your Europe by:

- Providing information on how Liechtenstein applies single market rules when requested via the Editorial Board member and whenever applicable.
- Attending the Editorial Board meetings organised twice a year.
- Raising awareness about Your Europe within the national administrations and among potential end users.
- Linking national websites to Your Europe.

## SOLVIT

Liechtenstein has a **very small** caseload. It submitted 1 case (business) to the network, which was handled on time and got solved.

There is a **good continuity** of staff, **sufficient** for the current caseload.

## Points of Single Contact

**Point of Single Contact** – EUGO.li

**Performance level** – average.

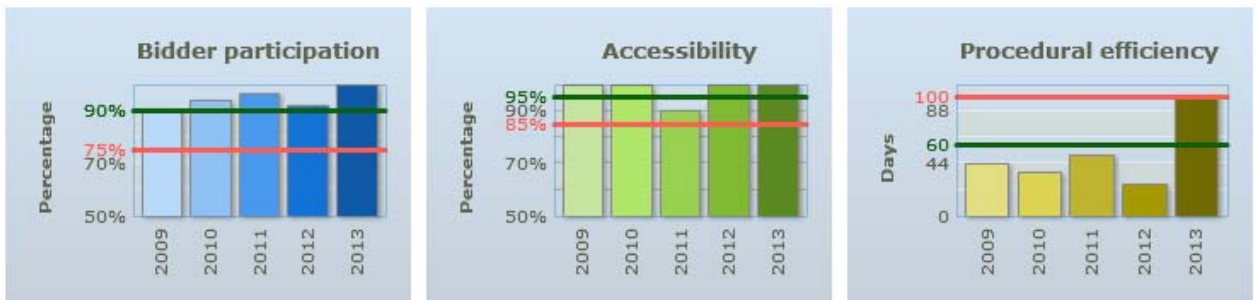

**Results from 2013 user testing**

- *Accessibility for businesses from other countries* – site lacks information in other languages than German and specific information for service provision from abroad.
- *Online procedures* – need improving (including for foreign firms).
- *Usability* – needs improving.

## Public procurement

In 2013, the reporting year,

- the **bidder participation** score was satisfactory, amongst the top three. Overall, between 2009 and 2013, the score was also satisfactory.
- the **accessibility** score was satisfactory, amongst the top three. Overall, between 2009 and 2013, the score was also satisfactory.
- the **procedural efficiency** score was unsatisfactory. Overall, between 2009 and 2013, the score was satisfactory, but increased sharply between 2012 and 2013 by more than 70 days.

The colored lines mark the thresholds for **satisfactory** performance (green) and **unsatisfactory** performance (red). The scores in between are regarded as an **average** performance.
