

# Single Market Scoreboard

*Performance per Member State*

## Liechtenstein

*(Reporting period: 2015)*

## Transposition and Infringements

It is to be noted that the Single Market *acquis* applicable in EEA EFTA States does not coincide exactly with that applicable in EU Member States. This situation is due to the time lag between the adoption or abrogation of legal acts by the EU and their incorporation into or deletion from the EEA Agreement.

Any comparison of the results from the two different Scoreboards (this one and the EEA EFTA Scoreboard) has to take this difference into account. For more information on Liechtenstein's performance, please see the EFTA Surveillance Authority's Internal Market Scoreboard.

**Average delay: 22 months** (last report: 22.7 months) – slight decrease but still reflecting the fact that Liechtenstein has 8 directives outstanding since the previous period, one of which is overdue by over 4 years and 2 of which are overdue by over 3 years.
