About the selection

"New technologies, including mobile telephones, also offer fresh opportunities for literacy for all. We must invest more, and I appeal to all Members States and all our partners to redouble our efforts – political and financial – to ensure that literacy is fully recognized as one of the most powerful accelerators of sustainable development. The future starts with the alphabet." UNESCO Director-General.

The books and articles listed below come from the collection and e-collection of the Library and e-Resources Centre’s catalogue (ECLAS). Access may be restricted to Commission staff or to users at subscribing institutions.
