- **180** new schools are being constructed
- **650,000** refugee infants vaccinated
- **8 MILLION** primary health care consultations delivered

The EU Facility has a total budget of €6 billion, to be mobilised in two tranches. Projects under the first tranche run until mid-2021 latest, and under the second tranche until mid-2025 latest (most projects will finish earlier). To date €5.8 billion has been programmed, €4.2 billion contracted and €2.57 billion disbursed. The pace of disbursement depends on the type of activity the Facility is funding. For example, basic needs support is paid out in monthly instalments, whereas the construction of schools is paid for in several big tranches, with the last one paid upon completion.

Areas with the highest population of Syrian refugees

*Except for ongoing administrative expenditure, ECHO technical assistance, and monitoring, evaluation and audit expenditure that may be committed and contracted during the life of the Facility.*
