In accordance with Article 60(1)(c) of Regulation (EC, Euratom) No 966/2012, the authorising officer responsible needs to ensure that measures are taken to supervise and support the implementation of the entrusted tasks. A description of these measures and the entrusted tasks are laid down in the Annex to the Decision.

(10) The maximum contribution of the European Union set by this Decision should cover any possible claims for interest due for late payment on the basis of Article 92 of Regulation (EU, Euratom) No 966/2012 and Article 111(4) of Delegated Regulation (EU) No 1268/2012.

(11) Pursuant to Article 94(4) of Delegated Regulation (EU) No 1268/2012, the Commission should define changes to this Decision which are not substantial in order to ensure that any such changes can be adopted by the authorising officer responsible.

2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 OVERVIEW OF THE 2014-2020 CROSS-BORDER COOPERATION PROGRAMME

The 2016-2020 CBC programme Serbia - the former Yugoslav Republic of Macedonia (Annex 2) constitutes the CBC cooperation strategy for the border region, setting out among others the list of geographical eligible areas, the area context, the programme thematic priorities and the indicative budget allocations for the 5 years period. Additionally, it includes a specific budget allocation for technical assistance which shall be limited to 10% of the overall programme budget. Technical assistance operations may include inter alia preparation, management, monitoring, evaluation, information, communication, networking, complaint resolution, control and audit activities related to the implementation of the programme and activities to reinforce the administrative capacity of, and exchange best practices between, authorities in the IPA II beneficiaries to administer and use the IPA II assistance. These actions may concern preceding and subsequent programming periods.

The 2016-2020 CBC programme also serve as a reference for the adoption of the CBC action programmes. The 2016-2017 CBC action programme aims at providing assistance for cross-border cooperation in the thematic areas spelled out in the 2014-2020 programme (as indicated in section 2.2).

- List of geographical eligible areas

In the former Yugoslav Republic of Macedonia the eligible areas are:

North – East region: municipalities of Kratovo, Lipkovo, Kumanovo, Staro Nagoričane, Rankovce and Kriva Palanka

Skopje region: municipalities of Aračinovo, Čučer Sandevo, Ilinden, Petrovec, Sopište, Studeničani, Zelenikovo, and municipalities Butel, Gjorče Petrov and Saraj of the City of Skopje

In Serbia, the eligible areas are:

Jablanica district: City of Leskovac and municipalities of Bojnik, Lebane, Medveđa, Vlasotince and Crna Trava

Pčinja district: City of Vranje with two city municipalities: Vranje and Vranjska Banja, and municipalities of Vladičin Han, Surdulica, Bosilegrad, Trgovište, Bujanovac and Preševo

- Cross-border cooperation (CBC) eligible area context

The situation analysis conducted for the preparation of the Programme pointed out several key challenges and opportunities to be addressed and supported through cross-border cooperation:

Establishing sound foundation for cross border cooperation

As there has been no cross-border cooperation programme between the two countries so far, the establishment of initial contacts, the mapping of human and organisational resources and the initial development of long-term partnerships are necessary. Although some cooperation agreements at local levels exist, these have so far not been explored due to various reasons, ranging from insufficient economic and administrative capacities, language barriers, political instability, and others.

Activation of resources for socio economic development
The programme area registers above average unemployment rates. Privatisation processes and economy restructuring resulted in loss of jobs in traditional industries and caused skills mismatches in the labour market. Young generations lack practical experience to advance their employability. Disadvantaged categories are particularly at risk of high poverty. The border area was and may continue to be affected by the refugee crisis which strained the capacity of local self-governments to provide sufficient social and health services. The multicultural and multi-ethnic diversity of the programme area is also an important asset.

**Protection of nature and environment and strengthening of risk preparedness**

The area is rich in bio diversity, landscape and geo diversity. However, uncontrolled use of natural resources and human activities represent a threat to the high-quality environment. Protection of waters and soil are the areas main challenges due to underdeveloped wastewater treatment and waste management. Monitoring of the waters and soil is insufficient. Low level of awareness of the population remains an important obstacle. The area is also at high risk of water erosion, increased events of floods and fires.

- Overview of past and on-going CBC experience including lessons learned

Key recommendations from interim evaluations and audits on the 2007-2013 CBC programmes have been taken on board in the development of this programme. Thus, the 2014-2020 CBC programmes are more focused as regards the number of thematic priorities addressed and the geographical eligibility, which will help to achieve better results and increased impact. Additionally the implementation of the CBC programmes has been simplified mainly by having a single contracting authority and a single financial envelope per programme. Although no cross-border cooperation between the two countries had existed so far, stakeholders on both sides of the border have accumulated significant experienced in cross border cooperation programmes with Bulgaria in the period 2007-2013.

(1) Description of the action, objective, expected results

Description of the action: The technical assistance allocation will be used to support the work of the national operating structures (OS) and of the joint monitoring committee (JMC) in ensuring the efficient set-up, implementation, monitoring and evaluation of the programmes as well as an optimal use of resources. This will be achieved through the establishment and operation of a joint technical secretariat (JTS) based on the territory of the Republic of Serbia and possibly antenna office established on the territory of the former Yugoslav Republic of Macedonia. The JTS will be in charge of the day-to-day management of the programme and will be reporting to the OS and JMC.

Objective: The specific objective of the technical assistance is to ensure the efficient, effective, transparent and timely implementation of the cross-border cooperation programme, and to ensure awareness of the programmes amongst national, regional and local communities
and, in general, the population in the eligible programme area. It also supports awareness-raising activities at country level in order to inform citizens in both IPA II beneficiaries.

**Expected results:**

1. Administrative support to the operating structures (OS) and joint monitoring committee (JMC) is enhanced (key performance indicator: the average share of beneficiaries satisfied with the programme implementation support)
2. The technical and administrative capacity for programme management and implementation is increased (key performance indicators: a) average increase in the number of proposals received within each consecutive call; b) average increase in the number of concept notes that would qualify for further assessment).
3. The visibility and publicity of the programme and its outcomes are guaranteed (key performance indicators: a) average increase in the number of proposals received within each consecutive call; b) average increase in the number of concept notes that would qualify for further assessment).

The objectives and expected results will be achieved over the period of implementation of this programme, from 2016 to 2020. The Action will contribute to the achievement of the overall objectives and expected results as defined in the 2016-2020 CBC programme. For further details see the Technical Assistance section 3.2. of the 2016-2020 CBC programme (Annex 2).

**(2) Assumptions and conditions**

As a necessary condition for the effective management of the programme, the participating countries shall establish a Joint Monitoring Committee and provide proper and functioning offices and staff for the Joint Technical Secretariat and the antenna, in case the latter will be set up. Additionally, it is necessary that good cooperation is established between the two operating structures with direct, clear and unambiguous communication flows; staff turnover in the CBC structures embedded in the national administration is kept to a minimum and trained staff is retained to the maximum possible extent; and the objectives of the cross-border programmes and calls for proposals are relevant to the needs of applicants.

Failure to comply with the requirements set out above may lead to a recovery of funds under this programme and/or the re-allocation of future funding.

**(3) Essential elements of the action and implementation arrangements**

The technical assistance will be implemented under direct management by the Delegation of the European Union to the Republic of Serbia who will sign a direct service contract with the Serbian EU integration office (SEIO). For technical assistance the Union co-financing rate shall be 100%.

**Procurement (EUR):**

a) the global budgetary envelope reserved for procurement: EUR 140,000
b) the indicative number and type of contracts: A service contracts may be awarded through negotiated procedure launched by the Delegation of the European Union to the Republic of Serbia, in accordance with Article 190 of the Financial Regulation and Article 266.1 (b) of the Rules of Application. The use of the negotiated procedure is justified by the fact that the contracts will be concluded with public sector bodies that have built up strong
capacity in managing this kind of support in the past. They have managed similar support actions in the previous financial framework and gained useful experience inter alia with the recruitment of qualified staff. In addition it is the most cost-effective system as no profit should be made by the public sector body.
