2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 OVERVIEW OF THE 2014-2020 CROSS-BORDER COOPERATION PROGRAMME

The 2016-2020 cross-border cooperation CBC programme Serbia - the former Yugoslav Republic of Macedonia was approved by Commission Implementing Decision C(2016) 8258 of 6 December 2016. The adopted 2016-2020 programme constitutes the CBC cooperation strategy for the border region, setting out among others the list of geographical eligible areas, the area context, the programme thematic priorities and the indicative budget allocations for the 5 years period.

The 2016-2020 CBC programme also serves as a reference for the adoption of the CBC action programmes. The 2018-2020 CBC action programme aims at providing assistance for cross-border cooperation in the thematic areas spelled out in the 2016-2020 programme (as indicated in section 2.2). On 6 February 2018, the European Commission adopted a Communication on "A credible enlargement perspective for and enhanced EU engagement with the Western Balkans". This Communication aims to generate renewed reform momentum in the Western Balkans and provide significantly enhanced EU engagement to better support their preparations on the European path. The Communication sets the new strategic orientations, in particular as regards the implementation of the six flagship initiatives (i.e. strengthening support to the rule of law; reinforcing engagement on security and on migration; supporting socio-economic development; increasing connectivity; implementing a Digital Agenda for the Western Balkans and supporting reconciliation and good neighbourly relations).

In particular, cross-border cooperation is a key vehicle for fostering reconciliation and dealing with the legacy of the past in the Western Balkans, in line with flagship 6 (supporting reconciliation and good neighbourly relations) and for sustainable local development, in line with flagship 3 (supporting socio-economic development).

List of geographical eligible areas

In Serbia, the eligible areas are:

- Jablanica district: City of Leskovac and municipalities of Bojnik, Lebane, Medveda, Vlasotince and Crna Trava.
- Pčinja district: City of Vranje with two city municipalities: Vranje and Vranjska Banja, and municipalities of Vladičin Han, Surdulica, Bosilegrad, Trgovište, Bujanovac and Preševo.

In the former Yugoslav Republic of Macedonia the eligible areas are:

- Skopje region: municipalities of Aračinovo, Čučer Sandevo, Ilinden, Petrovec, Sopište, Studeničani, Zelenikovo, and municipalities Butel, Gjorče Petrov and Saraj of the City of Skopje.

Cross-border cooperation (CBC) eligible area context

The situational analysis conducted for the preparation of the Programme pointed out several key challenges and opportunities to be addressed and supported through cross-border cooperation. In particular the Programme envisions addressing the following:

11 COM(2018) 65 final, 6.2.2018
Establishing a sound foundation for cross border cooperation

As there has been no cross-border cooperation programme between the two countries so far, so the establishment of initial contacts, the mapping of human and organisational resources and the initial development of long-term partnerships are necessary. Although some cooperation agreements at local levels exist, these have so far not been explored due to various reasons, ranging from insufficient economic and administrative capacities, language barriers, political instability, and others.

Activation of resources for socio economic development

The programme area registers above average unemployment rates. Privatisation processes and economy restructuring resulted in the loss of jobs in traditional industries and caused skills mismatches in the labour market. Young generations lack practical experience to advance their employability. Disadvantaged categories are particularly at risk of high poverty. The border area was, and may continue to be, affected by the refugee crisis, which strained the capacity of local self-governments to provide sufficient social and health services. The multicultural and multi-ethnic diversity of the programme area is also an important asset.

Protection of nature and environment and strengthening of risk preparedness

The area is rich in bio diversity, landscape and geo diversity. However, uncontrolled use of natural resources and human activities represent a threat to the high-quality environment. Protection of waters and soil are the areas main challenges due to underdeveloped wastewater treatment and waste management. Monitoring of the waters and soil is insufficient. Low level of awareness of the population remains an important obstacle. The area is also at high risk of water erosion, and increased events of floods and fires.

Overview of past and on-going CBC experience including lessons learned

Key recommendations from interim evaluations and audits on the 2007-2013 CBC programmes have been taken on board in the development of this programme. Thus, the 2014-2020 CBC programmes are more focused as regards the number of thematic priorities addressed and the geographical eligibility, which will help to achieve better results and increased impact. Additionally the implementation of the CBC programmes has been simplified mainly by having a single contracting authority and a single financial envelope per programme. Although no cross-border cooperation between the two countries had existed so far, stakeholders on both sides of the border have accumulated significant experience in cross border cooperation programmes with Bulgaria in the period 2007-2013.

Key lessons learnt were also identified by the final evaluation of IPA CBC Programmes 2007-2013 that was carried out between 2016 and 2017. The lessons learnt and the recommendations were discussed with the CBC stakeholders in the Western Balkans and follow-up measures were identified for the short and medium term, both for the on-going 2014-2020 CBC programmes and for the future 2021-2027 CBC programmes. The main recommendations regarding all CBC programmes at intra-Western Balkans level include:

- The main objective of promoting good neighbourly relations should be clearly reflected in the CBC projects.
- The calls for proposal should be more focused on a few priority issues that have high cross-border content.
The intervention logic of programmes and the reporting and monitoring systems must be improved as they are not structured to set out a clear basis for measuring the results at regional level.

There is a need for continuing capacity building activities for Operating Structures and Joint Technical Secretariats/Antennas.

There is a need for improving synergies with other policies and donors, capitalising and sharing experiences with the other CBC programmes (e.g. CBC programmes with Member States, and European Neighbourhood Instrument CBC programmes).

The Union co-financing rate at the level of each thematic priority shall not be less than 20% and not higher than 85% of the eligible expenditure.

In the specific context of indirect management the National IPA Co-ordinators (NIPACs) will collect information on the performance of the actions and programmes (process, output and outcome indicators) and coordinate the collection and production of indicators coming from national sources.

The overall progress will be monitored through the following means: a) Result Orientated Monitoring (ROM) system; b) IPA II beneficiaries' own monitoring; c) self-monitoring performed by the EU Delegations; d) joint monitoring by DG Neighbourhood and Enlargement Negotiations and the IPA II Beneficiaries, whereby the compliance, coherence, effectiveness, efficiency and coordination in implementation of financial assistance will be regularly monitored by an IPA II Monitoring committee, supported by the Joint Monitoring Committee, which will ensure a monitoring process at programme level.
