COMMISSION IMPLEMENTING DECISION

of 12.11.2012

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence.
COMMISSION IMPLEMENTING DECISION

of 12.11.2012

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-accession Assistance (IPA)¹, and in particular Article 14(2)(a) thereof,

Whereas:

(1) Regulation (EC) No 1085/2006 lays down the objectives and main principles for pre-accession assistance to candidate countries and potential candidates.

(2) In accordance with Article 7 of Regulation (EC) No 1085/2006, the assistance should be provided through multi-annual or annual programmes. These programmes should be drawn up in accordance with the general policy framework referred to in Article 4 of Regulation (EC) No 1085/2006 and the relevant Multi-annual Indicative Planning Documents referred to in Article 6 of that Regulation.

(3) The Council has established a European Partnership with all candidate countries and potential candidates. On 26 April 2011, the Commission has adopted a Multi-annual Indicative Planning Document (MIPD) for the years 2011-2013², which provides the strategic framework of priorities for the IPA Cross-border Cooperation component.

(4) On 8 November 2011, the responsible authorities from Albania and Kosovo submitted to the Commission a revised proposal for a multi–annual cross–border programme between Albania and Kosovo. This draft revised programme contains all the elements referred to in Article 94 of the IPA Implementing Regulation³ and is consistent with the goals and priorities of the Multi–annual Indicative Planning Document 2011-2013 for the IPA Cross-border Cooperation component. The draft revised programme contains, in particular, a description of priorities and the measures chosen for assistance and an indicative financing plan comprising tables for both Albania and

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence.

¹ OJ L 210, 31.07.2006, p. 82.
Kosovo and specifying, for each year and for each priority axis, the indicative amount of the European Union contribution and its rate, as well as the amount financed by the national counterparts. The draft revised programme should therefore be adopted by the Commission in accordance with Article 93(2) of the IPA Implementing Regulation.

(5) The multi-annual "Cross–border programme Albania – Kosovo" aims at providing assistance for promoting cooperation between people, communities and institutions in the bordering areas, aiming at the sustainable development, stability and prosperity of these areas in the mutual interest of the citizens on both sides of the border.

(7) The measures provided for by this Decision are in accordance with the opinion of the IPA Committee,

HAS DECIDED AS FOLLOWS:

**Article 1**

The revised "Cross–border programme Albania – Kosovo", as set out in Annex 2 to this Decision, is hereby adopted and Annex 2 to Decision C(2010) 9372 of 17 December 2010 is replaced by Annex 2 to this Decision.

The Financing proposal for the years 2012–2013 of the "Cross–border programme Albania – Kosovo", as set out in Annex 1 to this Decision, is hereby adopted.

This programme shall be implemented by centralised management.

The programme corresponding to budget years 2012 and 2013 shall be implemented by means of annual Financing Agreements to be concluded between the Commission and each of the beneficiaries in conformity with the Framework Agreements concluded between the same parties on 18 October 2007 for Albania and on 19 December 2007 for Kosovo. Each such Financing Agreement shall cover the European Union contribution for each beneficiary and the year concerned.

**Article 2**

In the budget year 2012, the maximum amount of the European Union contribution shall be EUR 600,000 for Albania and EUR 600,000 for Kosovo to be financed through Item 22.020401 of the general budget of the European Union.

---

In the budget year 2013, the maximum amount of the European Union contribution shall be EUR 600,000 for Albania and EUR 600,000 for Kosovo to be financed through Item 22.020401 of the general budget of the European Union. The implementation of this Decision is subject to the availability of the appropriations provided for in the draft budget for 2013 after the adoption of the budget for 2013 by the budgetary authority or provided for in the provisional twelfths.

Done at Brussels, 12.11.2012

For the Commission
Štefan FÜLE
Member of the Commission
ANNEX 1
FINANCING PROPOSAL FOR THE YEARS 2012 and 2013
OF THE CROSS–BORDER PROGRAMME
Albania – Kosovo*

2. SUMMARY

2.1 Introduction

2.1.1 Link with the MIPD

The Multi-annual Indicative Planning Document (MIPD) 2011-2013 for Component II – Cross border Co-Operation sets out the strategic framework for the programmes financed under this Component, namely: cross-border cooperation programmes between candidate countries and potential candidates (at intra-Western Balkans borders) and cross-border cooperation between them and neighbouring EU Member States.

IPA cross-border cooperation combines cohesion and external relation objectives taking into account the specific individual needs of the border regions. Cross-border multi-annual programmes are jointly prepared by the partner countries. The CBC programme between Albania and Kosovo for the years 2012-13 will address the priorities identified in the MIPD 2011-2013:

- supporting cross-border economic, social and territorial cooperation in border areas and therefore encouraging socio-economic development of bordering regions;
• addressing common challenges in fields such as environment, natural and cultural heritage, public health, prevention of and fight against organised crime;
• ensuring efficient and secure borders;
• promoting joint small scale local actions ("people-to-people");
• supporting networks, accessibility and emergency preparedness.

2.1.2 Programming process

The cross-border multi-annual programme between Albania and Kosovo is implemented during the 2010-2013 period. The cross-border multi-annual programme is based on a joint strategic planning effort between Albania and Kosovo is also the result of a large consultation process with the local stakeholders and potential beneficiaries.

Programming took place from January to November 2010. The programme was developed following a process of wide consultation with the local stakeholders and potential beneficiaries in both sides of the border. The authorities and joint structures were assisted during this process by the Cross-border Institution Building (CBIB) project and by the technical assistance for CBC in Kosovo, both funded by EU funds. It was coordinated in Albania and Kosovo by the respective cross-border coordinators: the Ministry of European Integration in Albania and the Ministry of Local Government Administration in Kosovo.

In January 2007, Albania established an Operating Structure (OS) in charge of preparing the cross-border programme, while Kosovo established its Operating Structure in December 2009. The Operating Structures met for the first time on 29 January 2010 to identify the responsible institutions for the preparation of the cross-border programme and to agree on the action plan. In February 2010, the Joint Task Force, consisting of members of both Operating Structures, was established. During March 2010, the Operating Structures met several times to discuss the eligible areas, the analysis of the cross-border region and the Strengths, Weaknesses, Opportunities and Threats (SWOT) analysis and to identify the strategy, priorities and measures. Finally, the Joint Task Force met again on 23 April 2010 to approve the draft cross-border programme.

In November 2011, the Joint Monitoring Committee adopted a revised version of the cross-border multi-annual programme, which added the 2012-2013 appropriations to the financial table in line with the updated financial plan of the MIPD 2011-13 for Component II – Cross border Co-Operation.

2.1.3 List of eligible areas and adjacent areas

The eligible area in Albania, according to Article 88 of the IPA Implementing Regulation1, is the prefecture of Kukës, including the districts of Kukës, Krumë and Bajram Curri. For this programme, Albania requested also two adjacent areas, according to Article 97 of the IPA Implementing Regulation, which are the prefectures of Dibër and Shkodër, including respectively the districts of Peshkop, Bulqizë, Burrel, Klos and the districts of Shkodër, Vau-Dejës, Koplik, Pukë and Fushë Arrëz.

---

The eligible area in Kosovo covers two regions, including 12 municipalities: the South Economic Region with Prizren, Suhareka, Dragash, Rahovec, Malisheva and Mamusha; the West Economic Region with Peja, Klina, Istog, Gjakova, Decan and Junik.

2.2 Global objective(s) of the programme

The global objective of this programme is to promote cooperation between people, communities and institutions in the bordering areas and to foster the sustainable development, stability and prosperity of these areas in the mutual interest of the citizens of Albania and Kosovo. This programme should have catalytic effects as it will contribute building project management capacities of local stakeholders, municipal, regional institutions and civil society, and their ability to participate in current and future cross-border initiatives. Sustainability will be ensured as this programme shall also familiarise potential candidates having an EU accession (Albania) and European (Kosovo) perspective with the rules and procedures governing the European Territorial Cooperation objective under Structural Funds.

2.3 Priority axis, the related measures and their specific aspects concerning the implementation of the 2012–2013 budget

2.3.1 Priority axis I: Promotion of regional cohesion and competitiveness through an approach integrating economic, social, cultural and environmental development

This priority will contribute to the quality of living standards in the programming areas by providing opportunities for economic partnerships and exchanges of common interest across the border. The actions to be implemented are expected to enhance the quality of services, to generate work and entrepreneurial opportunities, to improve environmental protection and to foster cultural exchanges. They will also facilitate the strengthening of local communities and civil society organisations and promote social cohesion.

This priority consists of two specific Measures.

2.3.1.1 Measure I.1: Economic, Social and Environmental sustainable development

The specific objective of this Measure is to promote socio-economic development of the programme area through the promotion of its economic and environmental potential. It will focus mainly on joint-actions supporting the development of small-scale infrastructure, strategic plans, good practices and joint activities to stimulate growth and improve the socio-economic conditions of the inhabitants of the programme area. It will also support joint-initiatives to encourage environmental awareness and the sustainable preservation, protection and management of sensitive ecosystems, including waste management in the programme area.

This Measure will facilitate trans-boundary cooperation and joint initiatives for fostering all sectors of the economy that have good growth prospects and potential, such as tourism, with the aim of creating favourable conditions that promote local economic activities, enhance the competitiveness of local enterprises and the quality of local products and services and support cooperation for the protection and preservation of the environmental resources.

This Measure is to be implemented through 'Joint Strategic Projects' to facilitate communication and promote cooperation between Albania and Kosovo and encourage cross-border movement of people and the exchanges of goods.
2.3.1.2 Measure I.2: Enhancing social cohesion through people-to-people and institution-to-institution actions

The specific objective of this Measure is to support joint initiatives and actions aimed at protecting, promoting and managing traditions and cultural and natural resources and at encouraging sustainable environmental development. This Measure will also encourage cooperation among local communities and citizens and foster networking and partnership building across the border. It will result in the establishment of new networks and exchanges between local stakeholders.

The people-to-people actions are expected to directly enhance the flow of information and communication across the border area. The actions foreseen under this Measure will bring people, local communities and civil society organisations of the border region closer to each other and, inter alia, support cultural exchanges, the promotion of craftsmanship, traditional production and local heritage.

People-to-people actions could also be financed under Measure I.1. This Measure will be implemented in synergy with Measure I.1 through 'Joint Strategic Projects'.

2.3.2 Priority axis II: Technical assistance for an efficient programme management and information flow

Technical assistance will be used to support the work of the two Operating Structures and of the Joint Monitoring Committee (JMC), ensuring the efficient implementation, monitoring and evaluation of the programme, as well as an optimal use of resources. This will be achieved through, inter alia, the Joint Technical Secretariat (JTS) located in Albania and its antenna located in Kosovo.

Technical assistance will cover the administrative and operational expenditure directly related to the implementation of the programme. This includes, inter alia, the costs of the Joint Technical Secretariat (e.g. rents, running costs including staff with the exclusion of salaries of public officials).

This Priority will be implemented through two Measures.

2.3.2.1 Measure II.1: Programme administration, monitoring and evaluation

The specific objective of this Measure is the creation of the conditions for timely and effective programme implementation, in order to guarantee the optimal and efficient use of resources. This Measure can provide support for the work of the Operating Structures, the Joint Monitoring Committee, the Joint Technical Secretariat and its antenna as well as any other structure (e.g. the Steering Committee) involved in the management and implementation of the programme. The Measure may also support the provision of expertise for programme evaluations.

2.3.2.2 Measure II.2: Programme Information and Publicity

The specific objective of this Measure is to ensure programme awareness amongst governmental, regional and local institutions and organisations and in general among the population in the programming area and in the whole of Albania and Kosovo in order to inform citizens about the programme.

2.3.3 Indicative timetable and amounts for the implementation of the Measures in Priorities I and II
For **Priority axis I**, Measures I.1 and I.2 will be implemented through service, supply and works contracts after the identification of one or more 'Joint Strategic Projects' compliant with the provisions of Art. 95 of the IPA Implementing Regulation. Tender procedures are indicatively expected for Q4 2013 for an overall amount of EUR 2 160 000.00 (2012 and 2013 allocations).

With regard to **Priority axis II**, considering that the Operating Structures in Albania and in Kosovo enjoy a de facto monopoly situation (in the meaning of Article 168(1)(c) of the Implementing Rules to the Financial Regulation\(^2\)) for the implementation of the cross-border programmes, the EU Delegation to Albania and the EU Office in Kosovo will sign direct grant agreements with the respective Operating Structures for up to the total amount provided under Priority II. In order to implement the activities covered by the direct grant agreements, the Operating Structures are allowed to sub-contract (procurement of services or supplies) in accordance with Article 120 of the Financial Regulation\(^3\) and Article 184 of the Implementing Rules to the Financial Regulation. The direct grant agreements will be signed as soon as the Financing Agreements have been concluded.

For the purpose of an efficient use of TA funds, close coordination between the two Operating Structures will be ensured.

### 2.4 Overview of past and on-going CBC experience, including lessons learned and donor co-ordination

#### 2.4.1 Past and on-going CBC experience

Since 2007 Albania participates in the IPA CBC Albania–Greece programme and in IPA CBC programmes with the former Yugoslav Republic of Macedonia and with Montenegro. As this experience was new for the beneficiary countries, with a rather high level of ownership but also responsibilities, the national joint management structures needed time to start the real implementation of the programmes.

With regard to the CBC programme Albania-Greece, the first call was closed in 2011. Twenty-five proposals were selected for financing. With the remaining funds a second call for ordinary projects is expected to be launched in 2012 and a third call for strategic projects is expected for 2013.

With regard to the CBC programme Albania-Montenegro, the first call for proposals with 2007 funds was closed in 2009. Six proposals were selected for financing equally distributed amongst the three measures i.e. economic development, environment protection and people-to-people actions. The second call for proposals covered 2008 and 2009 funds. Ten proposals were selected for financing. With the leftovers of this call a small infrastructure project at the border point of Hani Hotit has been funded. The third call for proposals shall cover 2010 and 2011 funds and is expected to be launched in 2012.

---

With regard to the CBC Albania-former Yugoslav Republic of Macedonia, two calls for proposals have been launched with 2007 and 2008 funds. After delays, a third call, covered by 2009, 2010 and 2011 funds, was closed in 2012. The evaluation of the proposals of the third call is in process.

Considering the status of Kosovo and that the conditions were not met to have fully fledged cross-border cooperation programmes between Albania and Kosovo, Albania initiated for the financial years 2007, 2008 and 2009 a unilateral Border Development Programme in the bordering region of Kukës. Although financed with IPA Component II funds, the 2008 and 2009 programmes are implemented under Component I, exceptionally transferring the funds from one IPA component to another. The 2007 and 2008 unilateral Border Development Programmes in the bordering region of Kukës have been implemented via direct grant to UNDP, building upon the organisation's expertise and strong links in the Kukës region in Albania. In that context, structures such as monitoring committee and technical secretariat were established in the Kukës region. Under these programmes, the Kukës region structures gained first-hand experience on grant scheme preparation, management and monitoring: 10 micro-grants in the sectors of environmental protection as well as tourism and economic development were contracted and implemented. IPA 2009 project for the Kukës region in Albania aimed at rehabilitating the Morinë border crossing point on the Albanian border side (heating, roof and trucks parking extension).

The Albania-Kosovo CBC multi-annual programme 2010-2013 has been prepared as a follow-up of the recommendations outlined in the Commission communication "Kosovo – Fulfilling its European Perspective". The first call for proposals of this CBC Programme, covered by 2010 and 2011 funds, is expected to be launched in 2012.

An IPA CBC Programme between Kosovo and the former Yugoslav Republic of Macedonia has also been prepared, which started in 2010. Under the programme for the years 2010-2011 it was foreseen a joint strategic project, the design and construction of a border crossing point, while under the programme for the years 2012-2013 it is foreseen the launch of a call for proposals.

Since 2011 Kosovo is also participating in IPA CBC programme with Montenegro. The first call for proposals of this programme is expected to be launched by the end of 2012.

2.4.2 Lessons learned

Most of the cross-border initiatives started only recently, making it premature to define “lessons learned”. However, the following points can be highlighted:

- The projects focusing on environment protection reflect the priorities defined by the governmental and regional institutions, providing for a sound embedding in local and governmental development priorities. However, it is important to strongly associate civil society and the private sector in programme development.

- The small calls for proposals for cross-border actions launched in previous cross-border programmes showed a low capacity in project preparation of most of the final beneficiaries. This could impede the implementation of the programme. Specific training of potential applicants will be essential throughout the programme.

---

• Thanks to the fact that few municipalities on the Albanian side have already participated in past and current cross-border initiatives (Albania-Montenegro and Albania-former Yugoslav Republic of Macedonia), these municipalities may disseminate their experience and may have a key role (transfer of know-how, etc.) for further CBC programmes.

In addition, an independent evaluation on the CBC programmes under PHARE was conducted by the MWH consortium. Experience has shown that the preconditions for effective implementation include, besides close co-ordination between participating countries at political and operational levels:

• cross-border cooperation between line ministries and effective working relationships between related organisations;

• functioning regional development authorities and local authorities, with appropriate staff in a stable environment;

• close working relationships between regional institutions and the respective Commission Delegations;

• functioning cross-border cooperation between respective organisations of the private sector, such as chambers of commerce, company associations and NGOs.

2.4.3 Donor coordination

The Government of Albania is involved in the process of donor coordination through the Integrated Planning System (IPS), a mechanism aiming reforming the way public funds (domestic and foreign) are managed. The IPS was approved by the government in November 2005 in order to deploy a coherent strategic framework, ensuring that the Albanian core policy and financial processes function in a coherent, efficient and integrated manner. Under CARDS 2004, an EU contribution has been provided to the World Bank trust fund for the implementation of the IPS.

The Government also expects to improve the consultation process with the donor community and to align international assistance with national priorities through the Department of Strategy and Donor Coordination, under the Council of Ministers.

The Donor Technical Secretariat has facilitated coordination hosting project data of all donors since 2003. The donor co-ordination role is in process of being gradually transferred to the authorities.

The EU Delegation to Albania maintains close working relations with the IFIs: EIB, EBRD, World Bank and KfW. The Minister of European Integration has been appointed National IPA Co-ordinator.

For Kosovo, as regards aid effectiveness and donor coordination since the Tirana Donor Coordination Conference organised by the European Commission in April 2009, an "Aid Management Platform" has been put into operation. This platform is funded by the EU and the United States and enjoys the full support of the Kosovo authorities and the donor community. This initiative will facilitate the exchange of information on ongoing and planned projects across the donor community. The European Union Office in Kosovo plays an important role in ensuring donor coordination and aid effectiveness on the ground. It
organises and chairs monthly meetings of the main donors in which the Kosovo authorities participate.

The Kosovo Ministry of European Integration will coordinate and monitor activities of the government institutions within the framework of the Stabilisation and Association Process. The Ministry is also responsible for donor coordination.

2.5 Horizontal issues

The joint applications will have to cover both parts of the project and fulfil the following criteria:

- benefit partners from both sides of the border;
- support links between relevant institutions and organisations from both sides of the border;
- encourage equal participation of women and marginalised groups;
- meet particular needs of ethnic minorities;
- be environmentally sustainable and disaster resilient.

Project partners should establish agreed co-ordination mechanisms to synchronise the joint projects throughout their implementation.

2.6 Conditions

The successful implementation of the programme depends on adequate staffing and functioning of the Operating Structures, Joint Monitoring Committees, Joint Technical Secretariat and its antenna.

2.8 Roadmap for the decentralisation of the management of EU funds without ex ante controls by the Commission

According to Article 8(4)(c) of the IPA Implementing Regulation, the beneficiaries shall establish a roadmap with indicative benchmarks and time limits to achieve decentralisation without ex ante controls by the Commission.

In Albania, the decentralised management process of IPA funds is a challenging administrative capacity building exercise for the Government on the road towards EU integration and has become one of its main priorities over the last years.

As regards component I (Transition assistance and Institution Building), the roadmap for the decentralised management was developed in 2008 and reviewed in 2009. The decentralized structures were in place by 2009 (stage 0): National IPA Coordinator (NIPAC), Competent Accrediting Officer (CAO), National Authorising Officer (NAO), National Fund (NF), Programming Authorising Officer (PAO), Central Finance and Contracting Unit (CFCU), Senior Programme Officers (SPOs) and Auditing Authority (AA). Albania finalised its gap assessment report (stage 1) in May 2010, started the gap plugging phase (stage 2) in August 2010 and undertook the compliance assessment (stage 3) during 2011. In February 2012 the Albanian Ministry of Finance has officially sent the accreditation package for component I, which will be assessed by the European Commission in view of preparing the decision on the conferral of management powers.

On component II (Cross Border Cooperation), the process of decentralised management started in January 2010 and is at stage 1 (gap assessment).

On components III (Regional development) and IV (Human resources development), Albania started to prepare necessary decentralised management structures and to design operational programmes since January 2010. The nominated Strategic Coordinator is the Deputy Minister
of European Integration, while the Operating Structure for component III is the Ministry of Transport and Public Works and for component IV is the Ministry of Labour, Social Affairs and Equal Opportunities. The key challenges for these components are the strengthening of the decentralized structures and the coordination mechanisms. During 2011 the draft Strategic Coherence Framework has been provisionally finalized and the Operational Programmes have been further elaborated.

On Component V (Rural development), Albania is trying to use already existing structures in order to set up the Managing Agency and the Paying Agency. The draft IPARD programme has been prepared by the Albanian side on the basis of sector analyses. An IPA 2011 project has been foreseen to launch a pilot project to introduce "IPARD like" measures, in order to establish a grant scheme for farmers and make use of the already existing structures in accordance with IPARD rules. For Component V, the establishment of a farm and rural cadastre remained a crucial and challenging element for defining the scope of future rural beneficiaries.

An IPA 2009 technical assistance currently supports the Albanian government to address the remaining tasks for the decentralised management process for all IPA components I, II, III, IV and V and further technical assistance is foreseen under the IPA 2012 National Programme.

In Kosovo, the IPA coordinator is the Permanent Secretary of the Ministry of European Integration. Discussions on the "Roadmap for Decentralised Implementation System" have been initiated but are still at a very early stage.

(2) Expressed in % of the grand total of column (c). It indicates the relative weight of each priority with reference to the total funds (IPA+Beneficiary)
3.5 Principle of co-financing applying to the projects funded under the programme

The EU contribution has been calculated in relation to the eligible expenditure, which for the "Cross–border programme Albania – Kosovo" is based on the total expenditure, as agreed by the responsible authorities from Albania and Kosovo and as laid down in the cross–border programme.

The EU contribution at the level of priority axis shall not exceed the ceiling of 85% of the eligible expenditure.

The EU contribution for each priority axis shall not be less than 20% of the eligible expenditures.

The provisions of Article 90 of the IPA Implementing Regulation apply.

4. IMPLEMENTATION ARRANGEMENTS

4.1 Method of Implementation

This programme shall be implemented on a centralised basis by the European Commission in accordance with Article 53a of the Financial Regulation and the corresponding provisions of the Implementing Rules.

In the event of centralised management, the role of the Commission in the selection of operations under a cross–border programme between Albania and Kosovo is specified in Article 140 of the IPA Implementing Regulation.

4.2 General rules for procurement and grant award procedures

Procurement shall follow the provisions of Part Two, Title IV of the Financial Regulation and Part Two, Title III, Chapter 3 of its Implementing Rules, as well as the rules and procedures for service, supply and works contracts financed from the general budget of the European Communities for the purposes of cooperation with third countries adopted by the Commission on 24 May 2007 (C(2007)2034).

Grant award procedures shall follow the provisions of Part One, Title VI of the Financial Regulation and Part One, Title VI of its Implementing Rules.

Where appropriate, the Contracting Authorities should also use the standard templates and models facilitating the application of the above rules provided for in the “Practical Guide to contract procedures for EU external actions" (“Practical Guide”) as published on the EuropeAid website at the date of the initiation of the procurement or grant award procedure.

4.3 Environmental Impact Assessment, Nature Conservation and Disaster Resilience

All investments shall be carried out in compliance with the relevant EU environmental legislation.

5 Current address:
http://ec.europa.eu/europeaid/work/procedures/implementation/practical_guide/index_en.htm
The procedures for environmental impact assessment as set down in the EIA Directive\textsuperscript{6} fully apply to all investment projects under IPA. If the EIA Directive has not yet been fully transposed, the procedures should be similar to the ones established in the above-mentioned directive.

If a project is likely to affect sites of nature conservation importance, an appropriate nature conservation assessment shall be made, equivalent to that provided for in Article 6 of the Habitats Directive\textsuperscript{7}.

Disaster resilience and risk prevention and management should be also integrated in the planning, preparation and implementation of projects.

5. MONITORING AND EVALUATION

5.1 Monitoring

The implementation of the cross–border programme will be monitored by the joint monitoring committee referred to in Article 142 of the IPA Implementing Regulation, established by the participating beneficiary countries, which include representatives of the Commission.

In Albania and Kosovo, the Commission may undertake any actions it deems necessary to monitor the programme concerned.

5.2 Evaluation

Programmes shall be subject to evaluations in accordance with Article 141 of the IPA Implementing Regulation, with an aim to improve the quality, effectiveness and consistency of the assistance from EU funds and the strategy and implementation of the cross–border programmes.

6. AUDIT, FINANCIAL CONTROL, ANTI–FRAUD MEASURES

The accounts and operations of all parties involved in the implementation of this programme, as well as all contracts and agreements implementing this programme, are subject to, on the one hand, the supervision and financial control by the Commission (including the European Anti-Fraud Office), which may carry out checks at its discretion, either by itself or through an outside auditor and, on the other hand, audits by the European Court of Auditors. This includes measures such as ex-ante verification of tendering and contracting carried out by the EU Delegation in Albania and the EU Office in Kosovo.

In order to ensure the efficient protection of the financial interests of the European Union, the Commission (including the European Anti-Fraud Office) may conduct on-the-spot checks and

---

inspections in accordance with the procedures foreseen in Council Regulation (EC, Euratom) No 2185/96.

The controls and audits described above are applicable to all contractors, subcontractors and grant beneficiaries who have received EU funds.

7. **NON SUBSTANTIAL REALLOCATION OF FUNDS**

The authorising officer by delegation (AOD), or the authorising officer by sub-delegation (AOSD), in line with the delegation of powers conferred upon him by the AOD, in accordance with the principles of sound financial management, may undertake non substantial reallocations of funds without an amending financing decision being necessary. In this context, cumulative reallocations not exceeding 20% of the total amount allocated for the programme, subject to a limit of EUR 4 million, shall not be considered substantial, provided that they do not affect the nature and objectives of the programme. The IPA Committee shall be informed of the above reallocation of funds.

8. **LIMITED ADJUSTMENTS IN THE IMPLEMENTATION OF THE PROGRAMME**

Limited changes in the implementation of this programme affecting essential elements listed under Article 90 of the Implementing Rules to the Financial Regulation, which are of an indicative nature, may be undertaken by the Commission's authorising officer by delegation (AOD), or by the Commission's authorising officer by sub-delegation (AOSD), in line with the delegation of powers conferred upon him by the AOD, in accordance with the principles of sound financial management without an amending financing decision being necessary.

---

8 Council Regulation (EC, Euratom) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities (OJ L 292, 15.11.1996, p. 2).

9 In the case of procurement, these essential elements are for example the indicative number and type of contracts envisaged and the indicative time frame for launching the procurement procedures.
