2. SUMMARY

2.1. Introduction

Link with the MIPD

The Multi-annual Indicative Planning Document for Croatia for the period 2008-2010 indicates that Cross-Border Cooperation (CBC), managed through Component II, will support Croatia in cross-border, and trans-national and interregional cooperation with EU Member States and IPA beneficiary countries. It will concentrate on improving the potentials for tourism, creating closer links between border regions and supporting joint environmental protection activities.

The Multi-annual Indicative Planning Document for Serbia for the same period provides for activities aimed at promoting and enhancing cross-border co-operation and the socio-economic integration of border regions. This will be done through the strengthening of economical, social, environmental and cultural ties between respective participating countries, including people to people type actions.

The programme is in line and complementary with mainstream national programmes and strategies and reinforces rather than duplicates them since its focus is on strengthening, first and foremost, those activities that are recognized as important for both partner countries.

Programming process

This strategic document is based on a joint planning effort by the Croatian and Serbian parties.

The process of elaborating the IPA Cross-border Programme between Croatia and Serbia started on 16 January 2007 with the first bilateral meeting between the representatives of the national institutions responsible for the IPA component II. At that meeting the process of programme elaboration was discussed and agreed between the two sides.

The first meeting of the Joint Programming Committee (JPC) was held on 14 February 2007. This meeting approved the JPC membership, adopted rules of procedure, and approved the mandate and membership of the Joint Drafting Team (JDT).

In addition to the representatives from local, regional and national government included in the memberships of the JPC and JDT, arrangements were made to consult with a wider partnership drawn from the public, civil and private sector by means of regional workshops and questionnaire surveys. The consultation process was carried out in 2 ways: (i) written procedure (comments sent to JDT); (ii) meetings/workshops (comments made directly to JDT) implemented both at national levels (national consultation processes) and cross-border level.

List of eligible areas and adjacent areas

The **eligible areas** according to Article 88 of IPA Implementing Regulation consist of:

In Croatia: Osijek-Baranja County, Vukovar- Srijem County (statistical regions equivalent to NUTS level 3 classification).

In Serbia: Srem district, South Bačka district, West Bačka district, North Bačka district.

The **Adjacent areas** according to Article 97 of the IPA Implementing Regulation are:

In Croatia: Požega-Slavonija County, Brod-Posavina County (statistical regions equivalent to NUTS level 3 classification).

In Serbia: Mačvanska district.

2.2. Global objective(s) of the programme

To stimulate cross-border cooperation in order to diversify and improve the regional economy in a socially and environmentally sustainable way, whilst at the same time, improving good neighbourly relations across the border.

To build the capacity of local, regional and national institutions to manage EU programmes and to prepare them to manage future cross-border programmes under the territorial cooperation objective of the EU Structural Funds.

The above objectives will be achieved by means of 2 priorities:

Priority 1: Sustainable Socio-Economic Development

Priority 2: Technical Assistance

These priorities will be implemented by 5 separate measures; the programme strategy is shown below in Table 1

Table 1

Priority 1 Sustainable Socio-Economic Development	Priority 2 Technical Assistance
Measure 1.1: Economic Development	Measure 2.1: Programme Administration and Implementation Measure 2.2: Programme Information, Publicity and Evaluation
Measure 1.2: Environmental Protection	
Measure 1.3: People-to-People	
Horizontal Theme: Cross-Border Capacity Building	

Cross-border capacity building will be an important horizontal theme underpinning the whole programme and, as much as is possible, will be integrated into all programme measures.

2.3. Priority axis, the related measures and their specific aspects concerning the implementation of the 2009 budget

The priorities and measures defined in this cross-border programme are structured in such a way as to respect and provide for the implementation of the specific objectives. Two priorities have been identified for the cross-border cooperation interventions: Sustainable Socio-Economic Development and Technical Assistance, the latter ensuring the effective

management and implementation of the programme. A horizontal theme is focused on cross-border capacity building.

As regards Croatia, care will be taken to ensure that there is no operational or financial overlap, including at the participant level, with any of the measures incorporated in the Operational Programmes for Croatia under IPA Components III, IV and V (Regional, Human Resources, and Agriculture and Rural Development).

Each cross-border programme shall establish eligibility rules for the selection of operations which ensure the same eligibility conditions for similar actions, as well as respect of Community standards, where relevant, among different cross-border programmes and with other IPA components.

Priority 1: Sustainable Socio-Economic Development

Overall Priority Objective: To promote the sustainable development of the cross-border region through effective use of the region's economic potential, in synergy with friendly and appropriate use of natural resources ensuring the preservation of regional biodiversity

Specific Priority Objectives:

- To promote business cooperation, increase cross-border trade, develop labour market mobility, cross-border RDI and joint economic planning
- To stimulate tourism development based on the cross-border regional identity and the natural and cultural assets of the cross-border region
- To protect and safeguard the natural assets of the cross-border region by taking joint actions and by increasing public awareness
- To promote good neighbourly relations across the border between local communities
- The measures under this priority will essentially be implemented through call for proposals.

Measures Priority 1

Measure 1.1 Economic Development

The measure will stimulate regular interaction between businesses located across the cross-border region via: business-to-business networks; development of SME support services and joint access to these; joint marketing & promotion on domestic & EU markets; enhancement of innovativeness by cooperation of SMEs with educational and R&D organisations; exchange of know-how; selected investments in business infrastructure

The measure is expected to diversify economic development by the supporting the development & improvement of tourism products & services; integration of cultural heritage & environment into tourism products; and the joint marketing of these products

Improve knowledge of people working in tourism and culture & agriculture. Use of Information and Communication Technology (ICT) tools for developing and marketing products and training people.

Potential beneficiaries might be, inter alia, Regional /local public authorities, chambers of commerce, clusters registered as non-profit legal entities, public /non-profit organisations, non-governmental organisations.

Measure 1.2: Environmental Protection

This measure will support awareness raising activities on environmental issues and joint actions to ensure that sites of high environmental and landscape value are managed so that they can sustain the pressures of tourism development without losing their value. In addition, the measure will support the development of more effective systems and approaches to emergency preparedness in relation to flood prevention and control; cross-border pollution, food safety and health issues. The measure will also support the development of joint waste management and minimisation strategies. A selected number of actions will be supported which result in the clean-up and restoration of polluted /damaged sites.

Potential beneficiaries might be *inter alia*, regional /local public authorities, public /non-profit organisations, research institutes, Non-Government Organisations dealing with environmental and nature protection.

Measure 1.3: People to People

This measure will encourage contacts, communication and cooperation between local communities and local community organisations /agencies within the cross-border region, particularly in support of women and marginalised groups (unemployed youth and disabled), local democracy and the development of civil society.

Potential beneficiaries might include, *inter alia*, local organisations, associations and foundations, inter-communal cooperation organisations, professional organisations, organisations responsible for providing social and health services, trade unions, public /non-profit organisations, cultural organisations, local government bodies, NGOs, regional and local development agencies.

The measures under Priority 1 will essentially be implemented through grant schemes.

Tentative Timetable and indicative amount of the call for proposals for Priority 1: Sustainable Socio-Economic Development

For the budget 2009, the proposal is to launch one single, joint call for proposal, tentatively in the second half of 2010, encompassing all three measures of Priority 1, covering both large (e.g. EUR 50 000 – EUR 300 000) and small (e.g. EUR 20 000– EUR 50 000) grants. The essential selection and award criteria for the award of grants as laid down in the practical guide to contract procedure for EC external aid (PRAG) should apply. The detailed selection and award criteria will be laid down in the Call for proposals–Application Pack (Guidelines for applicants).

The following catalytic effects are foreseen: improving of environmental standards, improving of social and cultural welfare, sustainable use of local material and human resources, transfer of know-how through project co-operation, effects of entrepreneurship that ultimately will remove the need for external funding in the future and the creation of job opportunities. Furthermore, the implementation of projects will stimulate and create a positive environment for further co-operation.

Priority 2 Technical Assistance

Overall Priority Objective: To improve the capacity of national and joint structures to effectively and efficiently manage and implement cross-border programmes.

Specific Priority Objectives:

TA funds will be used to support the activities of the Operating Structures and the Joint Monitoring Committee. The TA funds can be used to cover the costs of management and implementation of the programme in each participating country. These may include, *inter alia*, the following costs:

- Support to the Operating Structures and the Joint Monitoring Committee;
- Establishment and functioning of the Joint Technical Secretariat and its antennae, including cost of staff with the exclusion of salaries of public officials;
- Expenses for participation in different meetings related to the implementation of the programme;
- Administrative and operational costs, including the costs of preparation, monitoring and evaluation of programmes, appraisal and selection of operations, the organisation of meetings related to the programme, translation, information and publicity costs;
- To improve the capacity of potential beneficiaries, particularly within the programming area, to prepare and subsequently implement high quality programme operations.

Considering that the relevant national authorities (Operating Structure in Croatia and in Serbia) enjoy a *de facto* monopoly situation (in the sense of Art. 168, paragraph 1, subparagraph c of the Implementing rules to the Financial Regulation) for the implementation of the cross-border programme, the relevant contracting authorities in both countries will establish an individual direct grant agreement without call for proposal with the Operating Structure for up to the amount provided under the TA Priority 2 in each country. Subcontracting by the Operating Structure of the activities covered by the direct agreement (e.g. TA, evaluation, publicity etc.) is allowed in accordance with Article 120 of the Financial Regulation³ and Article 184 of the Implementing Rules⁴ to the Financial Regulation. The direct grant agreement can be signed as soon as the Financing Agreement has been concluded.

For the purpose of an efficient use of TA funds, a close coordination between national authorities (Operating Structure, CBC coordinators) of the participating countries is required.

In accordance to the scope of this priority, it will be implemented through two measures:

Measures Priority 2

Measure 2.1: Programme Administration and Implementation

This measure will provide support for the work of national Operating Structures and the JMC in programme management. It will also ensure the provision of advice and support to final beneficiaries in project development and implementation.

Measure 2.2: Programme Information, Publicity and Evaluation

This measure will ensure programme awareness amongst local, regional and national decision-makers; funding authorities; the inhabitants of the programming area and the general public in Croatia and Serbia. The measure will support the provision of expertise to the JMC for the planning and carrying out of external programme evaluations. It might also cover, *inter alia*, the preparation, translation and dissemination of programme related information and publicity material, including programme website.

The same time-table is envisaged for both countries in order to ensure compatibility of advice provided and sound coordination vis-à-vis project implementation.

IPA 2007 and IPA 2008 CBC Programmes Croatia-Serbia, Bosnia and Herzegovina-Serbia, Serbia-Montenegro, CBC IPA Adriatic, ERDF European Territorial Co-operation transnational programme "South-East Europe".

Whilst both countries have experience of EC funded cross-border cooperation (CBC) programmes with other countries, they have limited experience of such cooperation with each other. Over the period 2004-6 only the grant scheme '*Cross-Border Regions Co-operation with Serbia, Montenegro, Bosnia & Herzegovina*' (funded from the Croatian CARDS 2004 allocation) has Croatian and Serbian partners. This grant scheme is still under evaluation and the exact number of grants to be awarded is still unknown. In addition, Interreg IIIA Adriatic CBC has funded 3 projects (out of 36 with Croatian beneficiaries) involving Croatian-Serbian partnerships, however only one of these has partners inside the programming area. An additional 23 projects with Croatian and Serbian partners are in the process of being contracted; of these one has partners within the programming area. Under the ongoing IPA 2007 and IPA 2008 CBC Croatia-Serbia programmes, the authorities of the two countries have put in place a Joint Monitoring Committee and a Joint Technical Secretariat in order to prepare for the first call for proposals to be launched in the first semester of 2009.

Lessons learned

The following points can be highlighted from cross-border experience in the Western Balkans countries:

The projects focusing on environment protection reflect the priorities defined by the national and regional institutions, providing for a sound embedding in local and national development priorities. However, it is important to strongly associate civil society and the private sector in programme development.

The small calls for proposals for cross-border actions launched in previous cross-border programmes showed a low capacity in project preparation of most of the final beneficiaries. This could impede the implementation of the programme. Specific training of potential applicants will be essential throughout the programme.

A few municipalities have had a leading role in the past and current cross-border initiatives. These municipalities should have a key role when implementing the programme (transfer of know-how, etc.).

The thematic evaluation of CBC programmes under the PHARE programme concluded that most projects had a clear impact in one part of the border region, but that joint projects were the exception rather than the norm. Hence the importance to ensure that projects is a result of joint local or regional initiatives. Another conclusion of the above evaluation is that synchronisation in joint projects is crucial in terms of results, impact and sustainability. Therefore it is important that the partners have established agreed co-ordination plans and mechanisms before the Financing Agreements are signed. In addition, experience has shown that the preconditions for effective implementation include, besides close co-ordination between participating countries at political and operational levels:

- cross-border cooperation between line ministries and effective working relationships between related organisations;
- functioning regional development authorities and local authorities, with appropriate staff in a stable environment;
- close working relationships between regional institutions and the respective Commission Delegations;
- functioning cross-border cooperation between respective organisations of the private sector, such as chambers of commerce, company associations and NGOs.

Donor Co-ordination:

In line with Article 20 of the IPA Regulation and Article 6 (3) of the IPA Implementing Regulations, the EC asked in 2007 the representatives of Member States and local IFIs in Croatia and Serbia to provide their comments regarding the draft cross-border co-operation programmes submitted to the Commission.

2.5. Horizontal issues

The programme will promote sustainable management of the environment by enhancing cooperation among institutions to implement joint actions for environmental protection.

The programme will also support gender mainstreaming and equal opportunities policies through the selection of projects that include specific consideration to equal opportunities for genders, ethnicities and disabled according to the principles of the European Union.

2.6. Conditions

The joint applications will have to cover both parts of the project and fulfil the following criteria:

- benefit partners from both sides of the border
- support links between relevant institutions and organisations from both sides of the border
- encourage equal participation of women and marginalized groups
- meet particular needs of ethnic minorities
- be environmentally sustainable

Project partners should establish agreed co-ordination mechanisms to synchronise the joint projects throughout their implementation.

2.7. Benchmarks

"N" being the date of conclusion of the Financing Agreement

	N	N+1 (cumulative)	N+2 (cumulative)
Number of direct grant agreements in Croatia	1	1	1
Number of direct grant agreements in Serbia	1	1	1

Number of calls for proposals launched in Croatia and Serbia	1	1	1
Contracting Rate (%) in Croatia	12%	100%	100%
Contracting Rate (%) in Serbia	10%	100%	100%

2.8. Roadmap for the decentralisation of the management of EU funds without ex ante controls by the Commission

According to Article 8(4)(c) of the IPA Implementing Regulation, the beneficiary country shall establish a roadmap with indicative benchmarks and time limits to achieve decentralisation without *ex ante* controls by the Commission.

As regards previous EC financial instruments (Phare and CARDS), a decentralisation with *ex ante* control has been conferred to **Croatia** by the Commission in February 2006. A follow up audit mission from ELARG E.5 audit unit took place in February 2007 to verify the fulfilment of conditions for the conferral of management as laid down in the Commission Decision.

As regards IPA, the European Commission and the Government of the Republic of Croatia signed on 27 August 2007 the framework agreement on the rules for co-operation concerning EC financial assistance to Croatia under IPA. The Commission decided on 14 November 2008 to confer on Croatia, while maintaining *ex ante* controls by the European Commission Delegation, management powers under IPA Component II. The roadmap for the decentralisation of the management of IPA funds without *ex ante* controls by the Commission will be established once all auditors' follow-up recommendations contained in the Commission Decision on conferral will have been addressed by the Croatian authorities within agreed deadlines.

In **Serbia**, the Government established a DIS roadmap in January 2008 (up-dated in November 2008), while a respective Strategy for the preparation of DIS accreditation has been prepared in April 2008. All key stakeholders regarding DIS on the side of the Serbian administration have been appointed (CAO, NIPAC, NAO). Some progress has also been made in establishing the basis for the "DIS Operating Structures". In line with their up-dated roadmap, the Serbian authorities plan to start the activities under stage 1 "Gap assessment" in early 2009. Support in this is provided by SIGMA and other donors. IPA has also supported its implementation through projects in both 2007 and 2008. It is foreseen that DIS could be granted in three years.

This includes measures such as *ex ante* verification of tendering and contracting carried out by the Delegations in the beneficiary countries.

In order to ensure the efficient protection of the financial interests of the Community, the Commission (including the European Anti-Fraud Office) may conduct on-the-spot checks and inspections in accordance with the procedures foreseen in Council Regulation (EC, Euratom) 2185/96¹⁵.

6.4. Preventive Measures

Croatia shall ensure investigation and effective treatment of suspected cases of fraud and irregularities and shall ensure the functioning of a control and reporting mechanism equivalent to that provided for in Commission Regulation 1828/2006¹⁶. All suspected or actual cases of fraud and irregularity as well as all measures related thereto taken must be reported to the Commission services without delay. Should there be no suspected or actual cases of fraud or irregularity to report, the beneficiary country shall inform the Commission of this fact within two months following the end of each quarter.

Irregularity shall mean any infringement of a provision of applicable rules and contracts, resulting from an act or omission by an economic operator, which has, or would have, the effect of prejudicing the general budget of the European Union by charging an unjustified item of expenditure to the general budget.

Fraud shall mean any intentional act or omission relating to: the use or presentation of false, incorrect or incomplete statements or documents, which has as its effect the misappropriation or wrongful retention of funds from the general budget of the European Union or budgets managed by, or on behalf of, the European Union; non disclosure of information in violation of a specific obligation with the same effect; the misapplication of such funds for purposes other than those for which they are originally granted.

The beneficiary country shall take any appropriate measure to prevent and counter active and passive corruption practises at any stage of the procurement procedure or grant award procedure, as well as during the implementation of corresponding contracts.

Active corruption is defined as the deliberate action of whosoever promises or gives, directly or through an intermediary, an advantage of any kind whatsoever to an official for himself or for a third party for him to act or to refrain from acting in accordance with his duty or in the exercise of his functions in breach of his official duties in a way which damages or is likely to damage the European Communities' financial interests.

Passive corruption is defined as the deliberate action of an official, who, directly or through an intermediary, requests or receives advantages of any kind whatsoever, for himself or a third party, or accepts a promise of such advantage, to act or to refrain from acting in accordance with his duty or in the exercise of his functions in breach of his official duties in a way which damages or is likely to damage the European Communities' financial interests.

6.5. Financial corrections

In order to ensure that the funds are used in accordance with the applicable rules, in Croatia the Commission shall apply clearance-of-accounts procedures or financial correction mechanisms in accordance with Article 53c (2) of the Financial Regulation and as detailed in the Framework Agreement concluded between the Commission and Croatia.

A financial correction may arise following:

- identification of a weakness or deficiency in the management and control systems of the beneficiary country.

If the Commission finds that expenditure under this programme has been incurred in a way that has infringed applicable rules, it shall decide what amounts are to be excluded from Community financing.

The calculation and establishment of any such corrections, as well as the related recoveries, shall be made by the Commission following the criteria and procedures provided for in the IPA Implementing Regulation.

In this context, cumulative reallocations not exceeding 20% of the total amount allocated for the programme, subject to a limit of EUR 4 million, shall not be considered substantial, provided that they do not affect the nature and objectives of the programme. The IPA Committee shall be informed of the above reallocation of funds.
