2. SUMMARY

The present Financing Proposal represents the 2007 Transition Facility National Programme for Romania.

It proposes to use Transition Facility funds to support institution building through twinning, twinning light, technical assistance, and investments for equipment necessary to implement the *acquis*.

The European Commission proposed in its Strategy Paper\(^1\) to create a Transition Facility for certain Institution Building actions in the new Member States following accession.\(^1\) The principle and related financial allocations have been adopted for Bulgaria and Romania and enshrined in the Act of Accession 2005\(^2\) under Article 31. The purpose of the Transition Facility is to continue to assist the new Member States, Bulgaria and Romania, in their efforts to strengthen their administrative and judicial capacity to implement and endorse Community legislation and to foster exchange of best practice, as an extension to assistance provided under Phare.

Under this programme for Romania, the Transition Facility support will cover the following sectors: Justice Freedom and Security, Agriculture, Environment, Social Policies and Employment, Customs and Public Finances, Energy and nuclear safety and Administrative capacity.

For all twinning projects the Twinning Manual will apply. The planned indicative timeframe for the launch of procurements is between January 2008 and October 2009. For grant schemes, selections will be carried out based on the general criteria for the award of grants detailed in the manuals and procedures for grant scheme implementation and based on the provisions of the project fiches.

3. STRATEGY

*Programming priorities*

Although the most urgent needs as regards *acquis* implementation have been addressed before Accession, the Transition Facility provides further support in order to consolidate the functioning of administrative structures on par with those of other Member States.

The 2006 Commission Comprehensive Monitoring Reports for Romania and the continuous monitoring process by the Commission of the Romania preparation for accession constitute the main sources of information for identification of institutional weaknesses that the Transition Facility could assist in addressing.

Following accession, priority sectors and actions were identified in consultation both with national authorities and Commission services on the basis of the relevant follow up actions from pre-accession monitoring as well as other needs for reinforcing institution building where shortfalls are still perceived. Particular account was taken of results of the Mechanism for Cooperation and Verification of progress in Romania to address specific benchmarks in the areas of judicial reform and fight against corruption.

---

\(^1\) COM (2002) 700 final, 9.10.2002

\(^2\) EU AA 2005
Project selection and lessons learned

On the basis of the priorities outlined in the above-mentioned documents, and in line with the principle of ownership, the Romanian authorities submitted a number of project proposals for institution building. These projects have been discussed in detail with the relevant Commission Services.

The final selection of projects for this Commission Decision was based on the overall quality of the individual proposals, taking into account inter alia the strategic framework of the projects, relevance, value for money, expected impact, and the implementation arrangements. In designing the 2007 Transition Facility programme, careful account has also been taken of the results of projects programmed in the context of the Phare programmes in previous years. Lessons learnt are usually drawn on a case by case basis, building upon relevant experience in the implementation of previous projects in a specific area. Relevant information in that respect is provided in each project fiche. Provision of necessary background documentation supporting project proposals (sectoral strategies, feasibility studies, economic and cost-benefit analysis, etc.) is emphasised during the programming process.

Coordination with other EU assistance instruments, including Structural and Cohesion Funds

Careful attention has been paid to co-ordinating with previous and ongoing assistance to build on the results achieved and to promote synergy effects with other Community financial instruments. The programme includes projects which should not overlap with any action that is financed by other EU financial assistance programmes such as the Structural and Cohesion Funds and the Schengen Facility, or with any actions previously financed by Phare or by other donors.

The implementing body retains the responsibility for the coordination of the projects funded under this Transition Facility programme with activities financed through existing or planned EU or other international funding, in particular Structural and Cohesion funds, Schengen Facility, etc., in order to ensure consistency, compatibility and removing the risk of unnecessary duplication and overlaps.

4. OBJECTIVES AND DESCRIPTION

The 2007 Transition Facility programme for Romania focuses on seven broad objectives covering most urgent needs to efficiently implement the acquis.

Objective 1 Justice Freedom and Security

Project 2007/19343.01.01 – Unification of the Jurisprudence of Courts and Prosecutor Offices in Romania

Twinning Contract RO /2007-IB/JH/01

The project aims to improve the consistency of the jurisprudence, through unitary interpretation and application of the law by judges and prosecutors. Transition Facility assistance will be provided to the Superior Council of Magistracy to:

Carry out an assessment study on the current stage of the Romanian legal provisions and practical methods sustaining a unitary interpretation and application of the law throughout the country, according to the best practices of the European Union
Train judges nationwide for improving the consistency of the jurisprudence, in view of reducing the number of cases in which the judgment is reversed subsequent to appeal and/or second appeal procedures.

Elaborate collections of jurisprudence in the identified fields.

The project will be implemented through Twinning.

**Project 2007/19343.01.02 – Strengthening the Public Ministry’s Institutional Capacity**  
*Twinning Light Contract RO/2007-IB/JH/01/TL*

The project aims at strengthening the capacity of the prosecutors to handle cases on family violence, justice for minors and European arrest warrant, in line with EU acquis. Transition Facility assistance will be provided to develop and deliver relevant training, including needs assessment, curricula and strategy, training the trainers and prosecutors. The project will be implemented through Twinning light.

**Project 2007/19343.01.03 – Strengthening the Capacity to Fight Cyber Crime**  
*Twinning Light Contract RO/2007-IB/JH/02/TL*

The project aims at improving the capacity of the Romanian law enforcement agencies to fight cyber crime in line with the obligations related to EU membership, through legal amendments, training for prosecutors and police officers, developing relevant methodology and procedures and necessary software applications. The project will be implemented through Twinning light.

**Project 2007/19343.01.04 – Strengthening the Capacity to Fight Economic and Financial Crime**  
*Twinning Light Contract RO/2007-IB/JH/03/TL*

The project will develop a unitary approach to investigations by all Romanian law enforcement agencies in cases related to economic and financial crime. Training, manual and procedures will be delivered through Twinning light.

**Project 2007/19343.01.05 – Improving the System of Romanian Judicial Statistics**

The project aims at improving and modernising the Romanian system of judicial statistics by identifying remaining gaps, prepare relevant methodology, manual and train relevant staff. The project will be implemented through technical assistance.

**Project 2007/19343.01.06 – Strengthening the Romanian Probation System and the Inter-Institutional Cooperation on Victim Protection**

The project aims at improved probation and victim protection in Romania by ensuring an integrated approach to the assistance provided to various types of crimes’ victims. The project will be implemented through technical assistance.

**Project 2007/19343.01.07 – Support for Strengthening the Insolvency Mechanism**
The project aims at improving the enforcement of the insolvency legislative framework. Transition Facility assistance will be provided to elaborate an Insolvency Code, to develop a legislative framework on insolvency, and for training of prosecutors and police officers. The project will be implemented through technical assistance.

Project 2007/19343.01.08 – Assistance for Enhancing the Respect of Human Rights in Prisons and Improving the Efficiency of the Romanian Penitentiary System
Twinning Contract RO /2007-IB/JH/02

The project will reinforce the stability and efficiency of the institutions guaranteeing the respect of human rights in prison by ensuring a coherent enforcement of the relevant national legislation. The project will be implemented through Twinning.

Project 2007/19343.01.09 – Enhancement of National Anticorruption Department Investigative Capacities
Twinning Contract RO /2007-IB/JH/03

The project aims to increase the efficiency of the Romanian institutions involved in the fight against corruption by identifying the best practices in investigating serious corruption offences and serious economic criminal offences assimilated or connected to corruption and by adapting them to the Romanian investigative practice. The project will be implemented through Twinning.

Project 2007/19343.01.10 – Bringing anti-corruption capacities in Ministry of Internal Affairs up to EU Standards
Twinning Light Contract RO/2007-IB/JH/04/TL

The project aims at strengthening the fight against corruption by reinforcing the Anti-corruption General Directorate (AGD) within the Ministry of Internal Affairs through transposition of EU best practice, train relevant staff and carry out public consultation on integrity, seminars, workshops and studies. The project will be implemented through Twinning light.

Project 2007/19343.01.11 – Building civil society support against corruption

The project aims at improving civil society response to corruption. In particular by increasing the involvement of civil society organizations in preventing and fighting corruption at national, regional and local level and in promoting integrity and ethics, transparency, accountability and good governance. The Transition Facility assistance will be provided to develop measures for civil control mechanisms at national, regional and local level, public consultations, awareness campaign, public – private partnerships in fighting corruption, coordination networks etc. The project will be implemented through a grant scheme. Other services will be publicly tendered through technical assistance for the design, management and control of grant scheme.

Project 2007/19343.01.12 – Improving the Management of Human Resources of the Romanian Police
Twinning Contract RO /2007-IB/JH/04

The project aims at supporting the strategy for institutional reform of Romanian Police in particular, to revise and implement Human Resources Management (HRM) system within the Romanian Police, including career development system, performance evaluation system.
Develop Romanian Police Education and Training Strategy for Police Schools; and revise the modular system for police education and training and European Credit Transfer System (ECTS) for the Romanian Police Schools, including curricula and training material, establish Quality control system of training system. The project will be implemented through Twinning.

**Project 2007/19343.01.13 – Improving the Witness Protection Capacity**  
*Twinning Light Contract RO/2007-IB/JH/05/TL*

The project aims at improving the capacity of Romanian Law Enforcement Agencies for witness protection and handling of justice collaborators and to increase the national and international cooperation on these matters. The project will be implemented through Twinning light.

**Project 2007/19343.01.14 – Fight against Money Laundering and Terrorism Financing**  
*Twinning Contract RO /2007-IB/JH/05*

The project aims to strengthen the capacity of the anti-money laundering institutional system in line with the international standards. The project is particularly aimed at the National Office for Prevention and Control of Money Laundering (NOPML), which is a key authority in receiving, processing and analyzing cases of money laundering and terrorist financing and disseminate information to competent authorities. The project will contribute to revise the legislation on anti-money laundering and terrorism financing; i.a. elaborate a national strategy, enhance supervision over reporting entities, develop guidelines and methodologies; provide professional training to the financial and non-financial reporting entities. The project will be implemented through Twinning.

**Project 2007/19343.01.15 – Improving the Administrative Capacity in the Field of Migration and Asylum**  
*Twinning Light Contract RO/2007-IB/JH/06/TL*

The project aims at improving the procedural framework in the area of admission and stay of aliens, social integration and the use of migration related IT systems, in line with the EU standards and best practices. The project will be implemented through Twinning light.

**Project 2007/19343.01.16 – Integrated IT system for the International Police Cooperation Centre**

In order to improve Romanian capacity for international police cooperation, the project aims to align the operational capacity of relevant law enforcement units including the Interpol, the Europol and the Sirene bureaus, as well as the National Focal Point to the EU standards and develop best practices in the field of combating trans-border crime. The project will notably contribute to establish an integrated IT system for the management of the work flow within the International Police Co-operation Centre. The project will be implemented through technical assistance for IT services.

**Objective 2 Agriculture**

**Project 2007/19343.02.01– Strengthening the institutional capacity of National Sanitary Veterinary and Food Safety Authority (NSVFSA)**
The project aims at strengthening the state veterinary control in the field of animal health, animal nutrition, rendering and laboratory diagnostic system in accordance with the EU acquis. Twinning and technical assistance will be provided for control of animal by-products and animal welfare rules, fight against animal diseases outbreak, animal identification and registration, and hygiene of direct sale products.

In addition, assistance for laboratory equipment will be provided for developing the Romanian veterinary and food safety administration capacity in the area of residue controls. The tendering and contracting of the investment component will be conditional upon a feasibility study.

**Project 2007/19343.02.02 – Efficient operation of IACS/LPIS**

The project aims at the efficient implementation of the Common Agricultural Policy (CAP) and a proper control of the CAP payments in Romania. In particular, the project will support the strengthening and adjustment of the existing organization, system and operational capacity of the Paying and Intervention Agency for Agriculture (PIAA) as regards the efficient implementation of Integrated Administration and Control System (IACS) and Land Parcel Identification System/Geographical Information System (LPIS/GIS) and preparation for the implementation of the Statutory Management Requirements in Romania. The project will be implemented through Twinning.

**Project 2007/19343.02.03 – Support for Common Agricultural Policy adaptation**

The project aims at increasing the ability of Ministry of Agriculture and Rural Development (MARD) to provide adequate public support to the Romanian agricultural sector in compliance with EU standards. The project will integrate databases from various sources (including IACS, rural development, market and price reporting, animal identification and registration, FADN, wine and milk quota data base); develop an agricultural economic analysis capacity; streamline the institutional structure of MARD; and provide training. The project will be implemented through Twinning.

**Project 2007/19343.02.04 – Improving the Farm Accountancy Data Network in Romania**

The project aims at improving the management of the agriculture in Romania, through the introduction of quality data in FADN and methods of economic analysis in the sector. The project will be implemented through Twinning light.

**Project 2007/19343.02.05 – Implementation of the milk quota system**

The project aims at strengthening of the administration responsible for the milk quota system in compliance with EU standards. In particular the project will secure provision of accurate and reliable information related to the reporting about the milk quota system to the EU. It will ensure accurate controls for the milk quota system in line with EU requirements. The project will be implemented through Twinning Light.
Objective 3    Social policies and employment

Project 2007/19343.03.01 – Supporting the Development of Occupational Health Services

The project aims to achieve full implementation and enforcement of the legislation concerning health and safety at work. For this, assistance will be provided to further strengthen the administrative capacity of occupational health services in Romania. The project will provide draft legislation, working plan and software for information transfer concerning occupational and work related diseases between stakeholders; training for specialists in occupational health and rehabilitation medicine; a strategy based on indicators for promotion of good practices in occupational health services providers according with the European Strategy of Health and Safety. The project will be implemented through technical assistance.

Project 2007/19343.03.02 – Reform of the Mental Health Care System

Twinning Contract RO /2007-IB/SO/01

The project aims to introduce an integrated mental health care system and to improve the institutional and administrative bodies concerned. The project will update the policy and legal framework for the integrated mental health care services system; train human resources working in the mental health sector in service development and integrated mental health system management. It will be implemented through a twinning scheme.

Project 2007/19343.03.03 – Integration of Youth from Minorities and Disadvantaged Groups into the Romanian Society

The project aims at supporting the integration of Romanian society. The assistance will be provided to appropriate and innovative initiatives and community based approaches for improving the integration of youth from minorities and disadvantaged groups, to be implemented by NGOs active in the area. Support will also be provided to improve NGOs capacity and effectiveness to deliver services and support in a social and politically complex context.

The project will be implemented through a Grant Scheme. Other services will be publicly tendered through technical assistance for technical support for design, management and control of grant scheme and designing and delivering specialized services for development of NGO active in the sector of social integration. The actions covered do not duplicate and will be closely coordinated with measures foreseen for integration of minorities and disadvantaged group under other EC funds.

Objective 4    Environment

Project 2007/19343.04.01 – Further implementation and enforcement of the environmental acquis in the IPPC and SEVESO II sectors

The project aims to reduce the environmental impact of hazardous chemical substances by improving national administration coordination and control in IPPC and SEVESO II area in compliance with specific environmental acquis requirements. For this objective, the project will strengthen the technical capacity of the environmental authorities to coordinate the implementation of IPPC and SEVESO II Directive’s provisions by establishing pollutants emissions limits (ELVs) by modelling and disseminate BAT/BREF information among area
stakeholders. The project will be implemented through technical assistance and supply of dedicated equipment.

**Project 2007/19343.04. 02 – Support in developing the administration capacity to manage the National Green House Gases (GHG) Emissions Registry**

The project aims at strengthening the Romanian administrative capacity to implement the environmental *acquis* provisions in the field of climate change, in particular by developing an integrated mechanism/system for monitoring greenhouse gas emissions in Romania. The project will be implemented through technical assistance and investment in IT equipment.

**Project 2007/19343.04. 03 – Setting-up the National Integrated Registry on flora, wild-fauna species and Romanian natural habitats of Community interest**

The project aims to strengthen the administrative capacity in order to comply with EC reporting obligations through an adequate management of data/information on flora, wild-fauna species and Community interest natural habitats in Romania. The project will be implemented through technical assistance and investment in IT equipment. The project contracting is conditional to the establishment by the Romanian governmental authorities of the National Agency for Protected Areas and Biodiversity Preservation in 2007.

**Project 2007/19343.04. 04 – Support to National Environmental Guard administration to ensure appropriate enforcement of the environmental legislation at EU border**

*Twinning Light Contract RO/2007-IB/EN/01/TL*

The project aims to increase the efficiency and effectiveness of National Environmental Guard inspection and control measures for enforcement of relevant environmental *acquis* provisions at EU border. The project will be implemented throughwinning light.

**Objective 5 Customs and Public Finances**

**Project 2007/19343.05. 01 – Reinforcement of the Customs Administration**

*Twinning Contract RO /2007-IB/FI/01*

*Twinning Contract RO /2007-IB/FI/02*

The project aims at the reinforcement of the Romanian customs authorities in order to ensure full implementation of Customs Union acquis, notably concerning 1) Customs IT Systems; 2) train the customs staff both at central and territorial level; 3) provide assistance to the Romanian Customs Authority for ensuring management excise revenues collection.

Project will be implemented through technical assistance for component 1 and Twinning for component 2 and 3.

The project's conditionalities are:

For component 1: activities should be completed in due course in order to ensure implementation of Quota2 by 01.12.2008 and TARIC3 from 01.11.2009. The responsibility for any additional cost or delay will have to be borne by the national authorities,

For component 2: activities are conditional on successful results of twinning project *RO04/IB/FI-07*. 

The project aims at an improved, efficient and transparent system of public finances fully harmonised with the EU *acquis* and European Union's best practices. The project will in particular target the following areas:

- Supporting the activity of Central Harmonization Unit for Financial and Management Control Systems (CHUFMCS) in strengthening the FMC systems in public institutions
- Strengthening the internal audit capacity by developing the association process for the small public entities and the attestation system for the internal auditors
- Improving the internal investigation capacity of the Financial Guard and National Customs Authority

The project will be implemented through twinning.

**Project 2007/19343.05. 03 – Tax administration reform**

- Strengthening the control capacity of the tax administration in selected areas
- The collection of fiscal claims increased through correct and systematic application enforcement measures
- Implementation of a methodology and models for a correct estimation of the arrears’ collection
- Improving the legislation on direct taxation.

The project will be implemented through twinning and twinning light.

**Project 2007/19343.05. 04 – Strengthening the Administrative Capacity in Implementing the EU Acquis within the Public Procurement Field**

The project aims at reinforcing the implementation of the national public procurement rules, aligned with the public procurement *acquis*, at regional and local level. The project will be implemented through technical assistance.

**Objective 6 Energy and Nuclear Safety**

**Project 2007/19343.06.01 – Promotion of market based instruments for E-RES, energy efficiency and emission rights**
The project aims to strengthen the implementation of the acquis in the area of energy efficiency and RES and the operation of the energy market.

Transition Facility assistance will be provided to devise:

- Comprehensive benchmarks on best practices, models, lessons learned etc. of the EU trading mechanisms regarding E-RES, energy efficiency and CO₂ emissions
- Proposals for improvements in OPCOM trading platform for accommodating and for specific tradable products for E-RES, energy efficiency and carbon emission allowances
- Road map for the implementation of the recommended solutions.

The project will be implemented through technical assistance.

**Project 2007/19343.06.02 – Strengthening the effectiveness of the operation of the electricity market**

The project aims to strengthen the implementation of the acquis in the area of energy efficiency and the operation of the energy market in Romania. Transition Facility assistance will be provided to establish revised rules on market operation and market monitoring. The project will be implemented through technical assistance.

**Project 2007/19343.06.03 – Strengthening Security of Energy Supply in Romania**

The project aims at strengthening the security of energy supply in Romania, through the elaboration of a strategy on security of supply in compliance with the existing EU instruments, such as the Directives on security of gas and energy supply, the priority projects of TEN-E and the general principles for an Energy Policy for Europe adopted by the European Council in March 2007. The project will be implemented through technical assistance.

**Project 2007/19343.06.04 – Radiological Safety in Uranium Mining and Milling Facilities**

The project aims to improve the nuclear regulatory authority (CNCAN) capabilities with regard to radiological safety in uranium mining and milling facilities. Assistance will be provided to transfer know-how in this area. The project will be implemented through technical assistance.

**Project 2007/19343.06.05 – Support to ANDRAD to develop technical and technological solutions for a new radioactive waste treatment facility**

The project aims at supporting to Romanian Radioactive Waste Management Agency (ANDRAD) to implement the integral management for disposal of the radioactive waste at Saligny low and intermediate level waste (LILW) repository in accordance with the Romanian strategy concerning the management of spent nuclear fuel and radioactive waste in compliance with EU standards. The project will be implemented through technical assistance.
Objective 7 Administrative Capacity

Project 2007/19343.07.01 – Administrative capacity and Cooperation and Verification Mechanism Facility

Twinning Contract RO/2007-IB/OT/01/TL
Twinning Contract RO/2007-IB/OT/02/TL

The project includes an unallocated institution building envelope that will be implemented through Twinning light or technical assistance projects, as appropriate, in acquis areas where needs still exist. The projects might cover, as appropriate, implementation and enforcement of the acquis and reinforcement of administrative capacity in the relevant fields.

In addition, needs related to the Cooperation and Verification Mechanism foreseen in the Act of Accession, may be addressed through the funds available through this Facility. Projects should respond to the remaining shortcomings identified in the Commission's report on Romania (COM 378/2007) and in particular answer to the recommendations and to the action plan suggested to Romania in point 4 of this report.

Project proposals shall be submitted to the Commission for approval.

In particular, sectoral components aimed at statistics, road safety, and support for the employment of the persons with disabilities have been identified to be implemented through Twinning light and technical assistance for the statistics component.

In addition, in order to contribute to sound management of EU assistance programmes, the project will also provide support for independent evaluation of the performance of EU funded projects.

Programme Conditionality

The Romanian authorities will ensure that national co-financing in accordance with the details included in the project fiches will be available in time. Unless otherwise specified in the project fiche, co-financing for service and supply contracts should be joint co-financing and the ratio between the Transition Facility and the national amount has to be applied to the final contract price.

The Romanian authorities shall ensure proper coordination with other financial instruments such as the Structural Funds, the Schengen Facility and others in order to avoid any overlap, duplication with those activities. Any overlap and duplication of activities from other EU instruments will lead to ineligibility of the funds. Adequate mechanisms will be set up by the national authorities to continuously monitor the absence of overlap (including NAC, NAO, Implementing Agencies, SPOs, beneficiaries and contractors). Any other EC funding in the areas covered by the projects will be reported to the EC as part of the monitoring report and in a mutually agreed format.

To assure eligibility for Transition Facility funding, other conditionalities included in the individual project fiches have to be met and verified before contracts are concluded.

Co-financing for Institution Building projects is provided by the beneficiary bearing certain infrastructure and operational implementation costs, through financing the human and other resources, required for effective and efficient absorption of Transition Facility assistance.

Investments in small scale equipment / software licences / software development must receive co-financing from national public funds. The Community contribution may amount to up to 75% of the total eligible\(^3\) public expenditure.

### 6. SPECIAL CONDITIONS

In the event that agreed commitments are not met for reasons which are within the control of the Government of Romania, the Commission may review the programme with a view, at the Commission's discretion, to cancelling all or part of it and/or to reallocate unused funds for other purposes consistent with the objectives of the Transition Facility.
