BUILDING EUROPE TOGETHER

3 February 2011

Twinning Review Mission – first test concluded

The preparation for the regular implementation of Twinning Review Missions foreseen for Projects under the 2009 Manual started successfully with the first test that took place in Turkey last December, as a follow-up of the project TR 06 IB JH 05 " Support to the Turkish National Police in the Enforcement of Intellectual and Industrial Property Rights". More tests are envisaged in the months to come in order to fine-tune procedures. More information will be provided in a special issue of your Twinning News.

43rd RTA Training Session

The 43rd Resident Twinning Advisers’ training session will take place in Centre Albert Borschette on 17th and 18th February. This is the first training of 2011, to which around 30 RTAs are invited. The next RTA Training session is scheduled for June.

Eligible as Mandated Bodies

An Institution has to fulfil five cumulative criteria in order to be considered as eligible for the Mandated Body status. For two of them (Public Ownership of the institution and the Legal Status) a partial fulfilment can be considered acceptable, but in this situation would lead to the awarding of a restricted Mandated Body status that would prevent the application for commercial tenders up to 2 years after the end of the Twinning Project. The remaining three criteria have to be necessarily satisfied: proven competence in the field of expertise, sufficient and proportionate level of permanent staff and permanent and structural supervision of a Government authority. 'Sufficient and proportionate level of permanent staff' means that an institution should be able to carry out more the twinning assignment without renouncing to its normal activities due to a lack of human resources. By ‘permanent and structural supervision of a government authority’ it should be understood that there are representatives of the Public Administration in the decision making process of the institution.

Please, bear in mind that the institution has to be granted the Mandated Body status BEFORE the proposal is submitted.

Best practice: Electronic versions

Except when explicitly requested by the Twinning Manual, the circulation of hardcopies of documents should be replaced by the circulation of electronic versions. Exchanging electronic documents you limit shipping costs, reduce the use of paper and can easily enhance the availability of information. Please add always elarg-twinning-reports@ec.europa.eu among the addressees of all quarterly and final reports of Twinning or Twinning Lights projects.

Side letters: date of entry into force

According to Annex C14 of the Twinning Manual 2009, a Side Letter can enter into force the day the Contracting Authority receives the hardcopy signed by both parties.
**Twinning Projects 2010 in the Pipeline**

After the circulation of 2010 projects for Kosovo (under UNSCR 1244), Serbia and Turkey, more fiches will follow, concerning the remaining Twinning projects approved by the IPA Committee. Here is an overview of what can be expected in the next months (figures are in € Million):

**Best Practices**

If you have a "best practice" from your project to share, please send your article (maximum 300 words) to the functional mailbox elarg-twinning@ec.europa.eu.

All the suggestions are welcome.

**Twinning Community Tool**

The Twinning Community Tool (TCT) is based on CircaBC and provides a collaboration tool that allows users (from within and outside the Commission) to exchange files, comments and links on a unique platform.

The main purpose of TCT is to create a virtual network of Resident Twinning Advisers, National Contact Points, EU Delegations and other relevant stakeholders of Twinning.

If you belong to one of the above categories and wish to participate to the network, please send a mail with your name, role, organisation and a valid e-mail account to the address: elarg-twinning@ec.europa.eu.

**New life for the Twinning Community Tool**

TCT was launched in January 2010 upon request of some RTAs and Twinning coordinators, but has been used so far only by a limited number of people. Convinced that it can be a very useful tool to exchange direct experiences and best practices, as well as a source of information, we have decided to add new content, and in particular a (live) list of frequently asked questions, with answers and references to the Twinning Manual.

The Registration process to access TCT is always opened to all Twinning stakeholders for projects in the IPA region. (see box above).

You can always contact the Twinning Coordination Team in Brussels, should you or your staff require additional information:
