The EU reacted fast and responded to the urgent needs of Lebanon and its citizens. As part of Team Europe, the EU mobilised a tailor-made response package of over €371 million to support health related needs and socio-economic recovery. In addition to this, the EU Regional Trust Fund in response to the Syrian Crisis allocated almost €35 million for specific coronavirus response in Lebanon with a focus on health, water and sanitation, as well as additional assistance to Palestine refugees through UNRWA. Lebanon received funding for the purchase of vaccines, and also receives vaccines through the COVAX Facility - supported by Team Europe with over €3 billion - and bilaterally from EU Member States. Since 10 December 2021, digital COVID certificates are mutually recognised between the EU and Lebanon.
