Open4Citizens

Collective Awareness Platforms for Sustainability and Social Innovation
Consortium

Aalborg University, Denmark (coordinator)

I2Cat, Spain

Politecnico di Milano, Italy

Telecom Italia

The Country Council of Varmland (Experio Lab), Sweden

Antropologerne, Denmark

TU Delft, The Netherlands

Dataprocess, Denmark
• A large amount of open data is available. This is a new resource.

• Few are aware of the opportunities offered by open data: how can we raise this awareness to create new and better citizen services?
Objectives

• Raise the awareness of open data as a resource to create new citizen services
• Involve citizens in the process of co-creation of public services
• Create OpenDataLabs as platforms (playgrounds) to support citizens’ participation and co-creation
• Approach
Involving citizens, interest groups, public authorities, IT experts and other relevant stakeholders in a process of co-creation of public services based on Open Data

• Methodology
Hackathons (i.e. intensive workshops) will support participation and co-creation
Outcomes

• New public service and applications designed by citizens, using Open Data
• Raised awareness on the potential of OpenData as a resource/new common
• A platform to support open data service co-creation *(OpenDataLab)*
• A methodology to support co-design in OpenDataLab
Facts

• Project start 1. Januar 2016
• Project end 30 June 2016
• Pilots:
  – Aalborg (Denmark)
  – Karlstad (Sweden)
  – Rotterdam (The Netherlands)
  – Barcelona (Spain)
  – Milano (Italy)
