

SZEROKIE POROZUMIENIE  
NA RZECZ UMIEJTNOSCI  
CYFROWYCH W POLSCE

## POLAND

### Coordinator

Instytut Spraw Publicznych -  
The Institute for Public Policy  
Foundation

The aim of the Broad Alliance of Digital Skills is to promote the development of Poland by using the full potential of available modern information technologies significantly transforming all aspects of the society and economy.

The Coalition pursues this by disseminating digital education and sustainable development of digital skills adapted to the dynamically changing labour market.

### Share of activities by target groups (as %)

### Main achievements

- The Digital Skills Conference 2017 was organized under the patronage of the Ministry of Digital affairs and the Ministry of National Education. The conference was opened by Minister Anna Strezyńska.
- 16 regions in Poland decided to join the Broad Alliance of Digital Skills in Poland. Heads of the regional authorities formally signed the declaration during the Convention of Polish Marshals that was organized on 30<sup>th</sup> of October 2016.
- The representatives of the Broad Alliance on Digital Skills decided to identify the 100 people who contributed most to raising digital skills in Poland. This activity is done on an annual basis.
