

DIGITALNA SLOVENIJA

SLOVENIA

Slovenia's national digital coalition was formed in 2016 by stakeholders across sectors. The Digital Coalition is an open national forum that brings together all interested parties.

They can become involved in the Coalition's work regardless of whether they are supporters or critics of the new opportunities and changes being brought by the digital transformation.

Digital skills...

Main achievements and projects

- The development of a career platform forecasting long-term digital skill requirements, identifying gaps in digital skills and the bridging with prompt drafting of tailor-made programmes that ensure the development of specific digital skills
- Supporting digital transformation projects, and establishing a suitable environment for the development and introduction of user-friendly services, including, digital entities for individuals (smart ID cards), digitalisation of company entities for paperless operations, introduction of OER into the schools, and introducing broadband access for all citizens + 5G, digitalisation of local government for 'smart city' services
