### Main achievements and projects

- The coalition had its founding meeting on May 5<sup>th</sup>, 2018, with the main stakeholders being representatives of IT and other tech industries, municipalities and school authorities.
- An action plan has been established, focusing on six activity areas:
  - Public sector leadership skills.
  - Implementing the national strategy for the digitisation of schools.
  - Raising interest in IT among youths/girls.
  - Skills uptake and lifelong learning.
  - Immigration and integration.
  - A digitised e-services for all citizens.
- A project management team is currently being set up to perform activities during the spring of 2019.
