

CYPRUS

Grow Digital CY, the Cypriot National Coalition aims to promote the diffusion and the improvement of digital skills in order to address the mismatch between a low number of ICT professionals and higher number of vacancies. Stakeholders have proposed actions aiming to ensure the adequate and continuous supply of high-quality graduates according to the labour market needs.

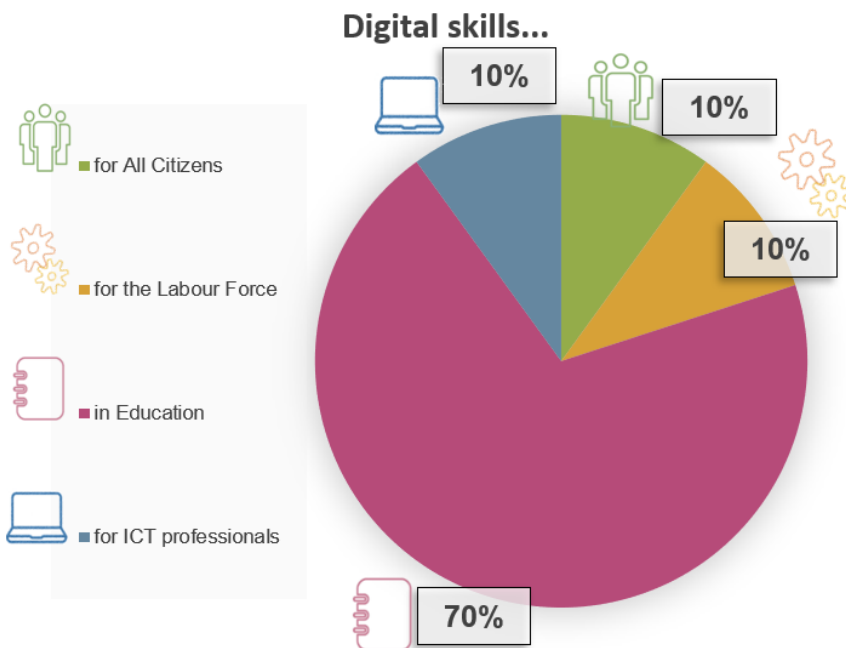

Coordinator

Ministry of Energy, Commerce, Industry and Tourism

Digital Champion for Cyprus

Stelios Himonas

Share of activities by target groups (as %)

Main achievements and projects

- Providing European Computer Driving License (ECDL) certificates to students of secondary education in public and private schools and to the unemployed.
- Launch Event in Presidential Palace.
- Acquisition of robots and robotic trucks for organizing competitions in schools. From 2019 to 2020, 205 robots and robotic trucks will be placed in 205 schools all over Cyprus with the intention to train IT teachers in robotics and organize competitions in this field.
