

Digital Skills and Jobs Coalition

AUGUST 2018

FRANCE

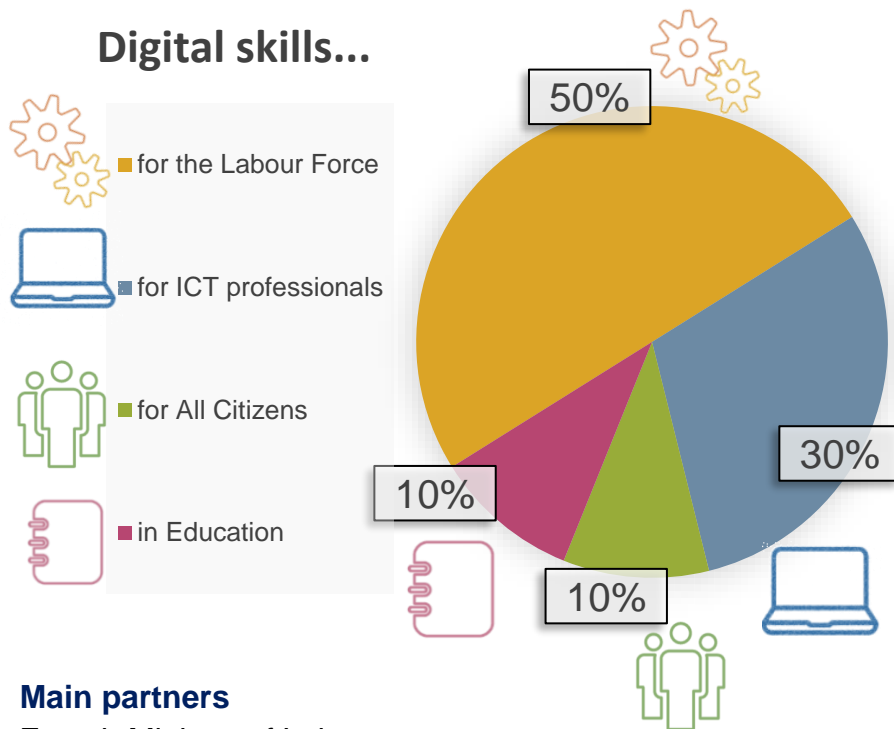

The French National Coalition brings together local and national actors active in digital matters. It is a strong partnership, where stakeholders work together to reduce the digital skills gap in France, according to pragmatic plan. They also contribute to identifying, developing and disseminating good practices.

Coordinator
MEDEF - Mouvement des Entreprises de France

Digital Champion for France
Gilles Babinet

Share of activities by target groups (as %)

Main achievements and projects

- 26 September 2017 - launch of the French Digital Skills and Jobs Coalition. Four working groups are set up.
- [l'Université du Numérique 2018](#) with guest speakers: National Coalitions from Belgium and Spain. Important step to communicate about the French National Coalition and to promote digital skills and synergies with other countries.
- Three plenary sessions held until June 2018.
- The coalition is contributing to the national strategy for digital inclusion (2018-2022) with three task forces: reducing the digital skills gap; ICT professionals; raising the level of digital skills of SMEs.
