

MALTA

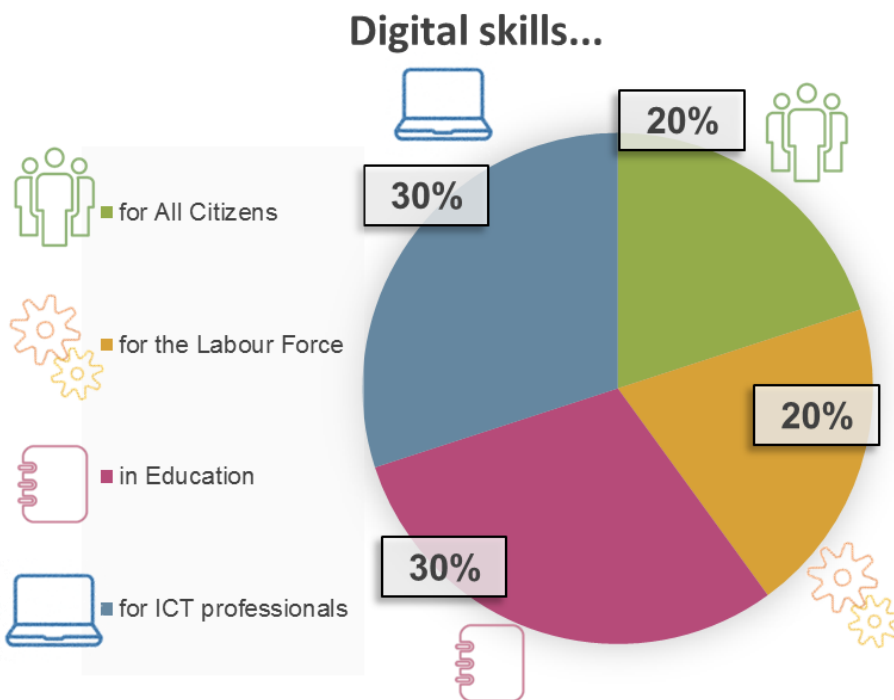

The eSkills Malta Foundation is a coalition formed of representatives from government, industry and education that aims to advise on the current and future digital skills policies, to contribute to the expansion of ICT educational programmes, to lead an ICT professionalism development programme, to champion campaigns, and to promote the Maltese eSkills potential.

Coordinator
eSkills Malta Foundation

Digital Champion for Malta
Godfrey Vella

Share of activities by target groups (as %)

Main achievements and projects

- A conference on [IT professionalism](#) took place in Valletta. Over 100 high-level experts from 25 organisations participated in the event to talk about the developments of IT professionalism in Europe. Following this, an EU workshop on Digital Organisational Framework was carried out.
- Ranked 1st in the 2017 [EU Code Week](#). The number of sessions carried out in Malta was the highest per capita in Europe.
- Launch of the [ICT Skills Audit 2017](#), which examines the skills required by the local ICT Industry and develops a pipeline for development these skills in collaboration with the education sector.
