1. INTRODUCTION – BACKGROUND

Media freedom and pluralism are essential pillars of any democracy and crucial conditions for an open and free democratic debate. They are enshrined in the Charter of Fundamental Rights of the European Union (Article 11(2)).

Recent physical attacks on, incitement against, death threats to and, recently, assassinations of investigative journalists in the EU have brought to the fore the dangers which investigative journalists often face and, consequently, and the need to enhance their protection.

Several journalists increasingly investigate issues of common interest to citizens of several Member States. However, such cross-border investigations tend to be complex and resource-intensive and may lack adequate funding..

While digital transformation has led to new working methods in the media sector and the emergence of a collaborative journalism community in Europe, it has also had a disruptive effect on all types of media, including news media. There is a clear need to support wider dissemination of innovative and collaborative tools and methods.

In this changing media landscape, support to journalists and media freedom is deemed essential.

This Call combines three references in the European Parliament's budgetary remarks for 2019:

- *Action 1 - Pilot Project: A Europe-wide response mechanism for violation of press and media freedom*
- *Action 2 - Preparatory Action: Cross-border Investigative journalism fund*
- *Action 3 - Pilot Project: Supporting investigative journalism and media freedom in the EU*

The selected projects will be expected to ensure inter-project coordination and to regularly exchange information on their activities.

Legal Basis

Pilot projects within the meaning of Article 58(2)(a) and Preparatory action within the meaning of Article 58(2)(b) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

The annual work programme was adopted under Commission Decision **C/2019/2233** of 01/04/2019.

The Europe-wide rapid response mechanism to address violations of press and media freedom will be geared at mitigating the consequences of the recently observed deterioration of press and media freedom in certain EU Member States and Candidate Countries. It will provide tangible protection for journalists and will encompass fact-finding, advocacy, monitoring, providing information to the European public and awareness raising. This action will flag and bring attention to violations, and will provide practical help to journalists under threat. Sustaining quality journalism and, in particular, resource-intensive investigative journalism in the current fast-evolving media landscape is a challenge. The preparatory action will contribute to this goal. The action will fund grants for journalistic investigations involving journalists from at least two countries covered by the action. This will encourage journalistic work on issues of common interest to citizens of more than one Member State thereby strengthening the European media sphere. The preparatory action will build on the ‘European research grants for journalistic investigations, #IJ4EU’ project, the information about which is available online².

2.2.2 Expected outputs

This action is expected to fund activities of one consortium of organisations.

Similarly to the approach used in the #IJ4EU project, a series of European research grants for journalistic investigations with a cross-border dimension will be provided. An independent body will be set up to implement consecutive rounds of grants supporting journalistic investigations involving journalists working in at least two Member States, or working in at least one Member State and one Candidate Country. The award of the grants shall take into account the need to ensure independent investigations and journalistic freedom. 7.4. Supporting documents

Applicants and affiliated entities must provide an original signed⁷ declaration on their honour certifying that they are not in one of the situations referred to in Articles 136(1) and 141 FR, by filling in the relevant form attached to the application form accompanying the call for proposals and available at <https://ec.europa.eu/digital-single-market/news-redirect/650637> .

This obligation may be fulfilled in one of the following ways:

for mono-beneficiary grants: (Action 3 only)

- (i) the applicant signs a declaration in its name and on behalf of its affiliated entities; OR
- (ii) the applicant and its affiliated entities each sign a separate declaration in their own name.

for multi-beneficiary grants: (Actions 1, 2 and 3)

- (i) the coordinator of a consortium signs a declaration on behalf of all applicants and their affiliated entities; OR
- (ii) each applicant in the consortium signs a declaration in its name and on behalf of its affiliated entities; OR
- (iii) each applicant in the consortium and the affiliated entities each sign a separate declaration in their own name.

8. SELECTION CRITERIA - FOR ACTIONS 1, 2 AND 3

8.1. Financial capacity

Applicants must have stable and sufficient sources of funding to maintain their activity throughout the duration of the grant and to participate in its funding. The applicants' financial capacity will be assessed on the basis of the following supporting documents to be submitted with the application:

- a) Low value grants (\leq EUR 60 000):
 - a declaration on their honour.
- b) Grants $>$ EUR 60 000:
 - a declaration on their honour

AND

- the profit and loss account as well as the balance sheet for the last 2 financial years for which the accounts were closed;
- for newly created entities: the business plan might replace the above documents;

⁷ A hand-written signature is mandatory (electronic signature is not applicable to the call)

- the table with the financial figures provided for in Annex to the application form, filled in with the relevant statutory accounting figures.
- c) Grants for an action > EUR 750 000:
- (i) the information and supporting documents mentioned in point b) above, and
 - (ii) **an audit report** produced by an approved external auditor certifying the accounts for the last 2 financial years available, where such an audit report is available or whenever a statutory report is required by law.

If the audit report is not available AND a statutory report is not required by law, a self-declaration signed by the applicant's authorised representative certifying the validity of its accounts for the last 2 financial years available must be provided.

In the event of an application grouping several applicants (consortium), the above thresholds apply to each applicant.

For **Action 3 only**: In the case of legal entities forming **one** applicant (the "sole applicant"), as specified in section 6.1, the above requirements apply to each one of those entities.

On the basis of the documents submitted, if the Authorised Representative Officer of the Commission considers that financial capacity is weak, s/he may:

- request further information;
- decide not to give pre-financing;
- decide to give pre-financing paid in instalments;
- decide to give pre-financing covered by a bank guarantee (see section 11.7.2 below);
- where applicable, require the joint and several financial liability of all the co-beneficiaries.

If the Authorised Representative Officer considers that the financial capacity is insufficient s/he will reject the application.

8.2. Operational capacity

Applicants must have the professional competencies as well as appropriate qualifications necessary to complete the proposed action. The applicants must demonstrate/have proven knowledge or previous activity in the fields of journalism or media freedom.

In this respect, applicants have to submit a declaration on their honour, and the following supporting documents:

- curriculum vitae or description of the profile of the people primarily responsible for managing and implementing the operation (accompanied where appropriate, like in the field of research and education, by a list of relevant publications);
- the organisation's activity reports;
- an exhaustive lists of previous projects and activities performed and connected to the policy field of a given call or to the actions to be carried out;
- an inventory of natural or economic resources involved in the project.

In the event of an application grouping several applicants (consortium), the above requirements shall apply to the combined capacity of all members of the consortium. Combined capacity means that individually, each member of the consortium should comply with the criteria corresponding to its task in the project.

For **Action 3 only**: In the case of legal entities forming **one** applicant (the "sole" applicant), as specified in section 6.1, the above requirements apply to each one of those entities.

9. AWARD CRITERIA - FOR ACTIONS 1, 2 AND 3

Eligible applications/projects will be assessed on the basis of the following criteria:

<u>Award criterion</u>	<u>Maximum score</u>	<u>Threshold</u>
The relevance of the project and the contribution of its expected results to the objectives of the call	20	10
The effectiveness and rationale of the proposed methodology and organisation (including the timetable and monitoring)	20	10
Geographical coverage (coverage of as many Member States as possible) (for Actions 1 and 2) or Diversity (inclusion of new/emerging media outlets, local journalists or journalists working in countries where investigative/collaborative journalism is less developed or is at risk) (for Action 3)	20	10
The impact and dissemination of the expected results	20	10
Cost effectiveness of the proposed action, in particular the relevance and quality of the means of implementation and the resources deployed in relation to the objectives envisaged	20	10
TOTAL	100	60

Minimum score per criterion (threshold): Proposals scoring less than **50%** of the maximum score for any award criterion will be considered of insufficient quality and rejected.

Minimum total score (threshold): Proposals with a total score of less than **60 points** at the end of the evaluation process will be considered of insufficient quality and rejected.

10. LEGAL COMMITMENTS

In the event of a grant awarded by the Commission, a grant agreement, drawn up in euro and detailing the conditions and level of funding, will be sent to the applicant, as well as the information on the procedure to formalise the agreement of the parties.

Two copies of the original agreement must be signed first by the legal representative⁸ (person authorised to sign the agreement) of the beneficiary/ coordinator on behalf of the consortium and returned to the Commission immediately. The Commission will sign it last.

11. FINANCIAL PROVISIONS

11.1. Form of the grant

11.1.1 Reimbursement of costs actually incurred

The grants will be defined by applying a maximum co-financing rate of **90%** to the eligible costs actually incurred and declared by the beneficiary and its affiliated entities.

For details on eligibility of costs, please refer to section 11.2.

11.2. Eligible costs⁹

Eligible costs shall meet all the following criteria:

- they are incurred by the beneficiary.
- they are incurred during the duration of the action, with the exception of costs relating to final reports and audit certificates;
 - The period of eligibility of costs will start as specified in the grant agreement.
 - If a beneficiary can demonstrate the need to start the action before the agreement is signed, the costs eligibility period may start before that signature. Under no circumstances can the eligibility period start before the date of submission of the grant application.
- they are indicated in the estimated budget of the action;
- they are necessary for the implementation of the action which is the subject of the grant;
- they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;
- they comply with the requirements of applicable tax and social legislation;
- they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.

⁸ The Commission reserves the right to ask the proof of appointment

⁹ Article II.19.1 of the Model Grant Agreement

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action/project with the corresponding accounting statements and supporting documents.

The same criteria apply to costs incurred by the affiliated entities.

Eligible costs may be direct or indirect.

11.2.1. Eligible direct costs¹⁰

The eligible direct costs for the action are the costs which:

with due regard to the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it directly, such as :

- (a) *the costs of personnel working under an employment contract with the beneficiary or an equivalent appointing act and assigned to the action, provided that these costs are in line with the beneficiary's usual policy on remuneration.*

Those costs include actual salaries plus social security contributions and other statutory costs included in the remuneration. They may also comprise additional remunerations, including payments on the basis of supplementary contracts regardless of the nature of those contracts, provided that they are paid in a consistent manner whenever the same kind of work or expertise is required, independently from the source of funding used;

The costs of natural persons working under a contract with the beneficiary other than an employment contract or who are seconded to the beneficiary by a third party against payment may also be included under such personnel costs, provided that the following conditions are fulfilled:

- (i) *the person works under conditions similar to those of an employee (in particular regarding the way the work is organised, the tasks that are performed and the premises where they are performed);*
- (ii) *the result of the work belongs to the beneficiary (unless exceptionally agreed otherwise); and*
- (iii) *the costs are not significantly different from the costs of staff performing similar tasks under an employment contract with the beneficiary;*

The recommended methods for the calculation of direct personnel costs are provided in Appendix.

- (b) *costs for the work of volunteers up to the limit of 50% of the overall Union and other co-financing of the action; NOT APPLICABLE*
- (c) *costs of travel and related subsistence allowances, provided that these costs are in line with the beneficiary's usual practices on travel;*

¹⁰ Article II.19.2 of the Model Grant Agreement

(d) *the depreciation costs of equipment or other assets (new or second-hand) as recorded in the beneficiary's accounting statements, provided that the asset:*

(i) is written off in accordance with the international accounting standards and the beneficiary's usual accounting practices; and

(ii) has been purchased in accordance with the rules on implementation contracts laid down in the grant agreement, if the purchase occurred within the implementation period;

The costs of renting or leasing equipment or other assets are also eligible, provided that these costs do not exceed the depreciation costs of similar equipment or assets and are exclusive of any finance fee;

Only the portion of the equipment's depreciation, rental or lease costs corresponding to the implementation period and the rate of actual use for the purposes of the action may be taken into account when determining the eligible costs. By way of exception, the full cost of purchase of equipment may be eligible under the Special Conditions, if this is justified by the nature of the action and the context of the use of the equipment or assets;

(e) *costs of consumables and supplies, provided that they:*

(i) are purchased in accordance with the rules on implementation contracts laid down in the grant agreement; and

(ii) are directly assigned to the action;

(f) *costs arising directly from requirements imposed by the Agreement (dissemination of information, specific evaluation of the action, audits, translations, reproduction), including the costs of requested financial guarantees, provided that the corresponding services are purchased in accordance with the rules on implementation contracts laid down in the grant agreement;*

(g) *costs derived from subcontracts, provided that specific conditions on subcontracting as laid down in the grant agreement are met¹¹;*

(h) *costs of financial support to third parties, provided that the conditions laid down in the grant agreement are met¹²;*

(i) *duties, taxes and charges paid by the beneficiary, notably value added tax (VAT), provided that they are included in eligible direct costs, and unless specified otherwise in the grant agreement.*

11.2.2. Eligible indirect costs (overheads)¹³

Indirect costs are costs that are not directly linked to the action implementation and therefore cannot be attributed directly to it.

¹¹ Article II.11 of the Model Grant Agreement

¹² Article II.12 of the Model Grant Agreement

¹³ Article II.19.3 of the Model Grant Agreement

A flat-rate amount of maximum 7% of the total eligible direct costs of the action, is eligible as indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action/project.

Indirect costs may not include costs entered under another budget heading.

Applicants' attention is drawn to the fact that if they are receiving an operating grant financed by the EU or Euratom budget, they may not declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.

In order to demonstrate this, in principle, the beneficiary should:

- a. use *analytical cost accounting that allows to separate all costs (including overheads)* attributable to the operating grant and the action grant. For that purpose the beneficiary should use *reliable accounting codes and allocation keys* ensuring that *the allocation* of the costs is done in a *fair, objective and realistic way*.
- b. *record separately*:
 - all costs incurred for the operating grants (i.e. personnel, general running costs and other operating costs linked to the part of its usual annual activities), and
 - all costs incurred for the action grants (including the actual indirect costs linked to the action)

If the operating grant covers the entire usual annual activity and budget of the beneficiary, the latter is not entitled to receive any indirect costs under the action grant.

11.3. Ineligible costs¹⁴

The following items are not considered as eligible costs:

- a) return on capital and dividends paid by a beneficiary;
- b) debt and debt service charges;
- c) provisions for losses or debts;
- d) interest owed;
- e) doubtful debts;
- f) exchange losses;
- g) costs of transfers from the Commission charged by the bank of a beneficiary;
- h) costs declared by the beneficiary under another action receiving a grant financed from the Union budget. Such grants include grants awarded by a Member State and financed from the Union budget and grants awarded by bodies other than the Commission for the purpose of implementing the Union budget. In particular, beneficiaries receiving an operating grant financed by the EU or Euratom budget cannot declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.

¹⁴ Article II.19.4 of the Model Grant Agreement

- i) contributions in kind from third parties;
- j) excessive or reckless expenditure;
- k) deductible VAT.

11.4. Eligible costs that may be covered by the single lump sum

NOT APPLICABLE

11.5. Balanced budget

The estimated budget of the action must be attached to the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants for whom costs will not be incurred in euros should use the exchange rate published in the Official Journal of the European Union.

The applicant must ensure that the resources which are necessary to carry out the action are not entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

Overall co-financing may also include in-kind contributions from third parties, i.e. non-financial resources made available free of charge by third parties to the beneficiary or to the consortium. The corresponding costs of third parties are not eligible under the grant, e.g. providing a meeting room or equipment for free, etc.

In-kind contributions shall be presented separately in the estimated budget to reflect the total resources allocated to the action. Their approximate value shall be indicated in the estimated budget and shall not be subject to subsequent changes.

11.6. Calculation of the final grant amount

The final amount of the grant is calculated by the Commission at the time of the payment of the balance. The calculation involves the following steps:

Step 1 — Application of the reimbursement rate to the eligible costs

The amount under step 1 is obtained by applying the reimbursement rate specified in section 11.1.1 to the eligible costs actually incurred and accepted by the Commission.

Step 2 — Limit to the maximum amount of the grant

The total amount paid to the beneficiaries by the Commission may in no circumstances exceed the maximum amount of the grant as indicated in the grant agreement. If the amount obtained following Step 1 is higher than this maximum amount, the final amount of the grant is limited to the latter.

Step 3 — Reduction due to the no-profit rule

‘Profit’ means the surplus of receipts over the total eligible costs of the action, where receipts are the amount obtained following Steps 1 and 2 plus the revenue generated by the action for beneficiaries and affiliated entities other than non-profit organisations.

In-kind and financial contributions by third parties are not considered receipts.

The total eligible costs of the action are the consolidated total eligible costs approved by the Commission. The revenue generated by the action is the consolidated revenue established, generated or confirmed for beneficiaries and affiliated entities other than non-profit organisations on the date on which the request for payment of the balance is drawn up.

If there is a profit, it will be deducted in proportion to the final rate of reimbursement of the actual eligible costs of the action approved by the Commission.

Step 4 — Reduction due to improper implementation or breach of other obligations

The Commission may reduce the maximum amount of the grant if the action has not been implemented properly (i.e. if it has not been implemented or has been implemented poorly, partially or late), or if another obligation under the Agreement has been breached.

The amount of the reduction will be proportionate to the degree to which the action has been implemented improperly or to the seriousness of the breach.

11.7. Reporting and payment arrangements - for Actions 1, 2 and 3

11.7.1 Payment arrangements

The beneficiary may request the following payments provided that the conditions of the grant agreement are fulfilled (e.g. payment deadlines, ceilings, etc.). The payment requests shall be accompanied by the documents provided below and detailed in the grant agreement:

Payment request	Accompanying documents
A pre-financing payment corresponding to 40% of the maximum grant amount	financial guarantee (see section 11.7.2)
<p>One interim payment:</p> <p>For the purpose of determining the amount due as interim payment, the reimbursement rate to be applied to the eligible costs approved by the Commission shall be 90%.</p> <p>The total amount of pre-financing and interim payment shall not exceed 80% of the maximum grant amount.</p>	<p>(a) interim technical report</p> <p>(b) interim financial statement</p> <p>(c) a certificate on the financial statements and underlying accounts¹⁵</p>
<p>Payment of the balance</p> <p>The Commission will establish the amount of this payment on the basis of the calculation of</p>	<p>(a) final technical report</p> <p>(b) final financial statement</p> <p>(c) summary financial statement aggregating the financial</p>

¹⁵ The decision on the request for certificates on the financial statements and the threshold will be taken by the Authorised Representative Officer of the Commission during the evaluation of the proposal.

<p>the final grant amount (see section 11.6 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Commission through a recovery order.</p>	<p>statements already submitted previously and indicating the receipts (d) a certificate on the financial statements and underlying accounts¹⁶</p>
---	---

The interim payment will be made within 6 months after the start date of the action.

In case of a weak financial capacity, section 8.1 above applies.

11.7.2 Pre-financing guarantee

A pre-financing guarantee for up to the same amount as the pre-financing may be requested in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, the Commission may agree that a bank or financial institution established in that third country may provide the guarantee if it considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by:

- a joint and several guarantee by a third party or,
- a joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or the payment of the balance, in accordance with the conditions laid down in the grant agreement.

11.8. Other financial conditions

a) Non-cumulative award

An action may only receive one grant from the EU budget.

Under no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the grant application the sources and amounts of Union funding received or applied for the same action or part of the action or for its (the applicant's) functioning during the same financial year as well as any other funding received or applied for the same action.

b) Non-retroactivity

¹⁶ The decision on the request for certificates on the financial statements and the threshold will be taken by the Authorised Representative Officer of the Commission during the evaluation of the proposal.

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action which has already begun only where the applicant can demonstrate in the grant application the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) **Implementation contracts/subcontracting**¹⁷

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary may award the contract in accordance with its usual purchasing practices provided that the contract is awarded to the tender offering best value for money or the lowest price (as appropriate), avoiding conflicts of interest.

The beneficiary is expected to clearly document the tendering procedure and retain the documentation in the event of an audit.

Entities acting in their capacity as contracting authorities within the meaning of Directive 2014/24/EU¹⁸ or contracting entities within the meaning of Directive 2014/25/EU¹⁹ must comply with the applicable national public procurement rules.

Beneficiaries may subcontract tasks forming part of the action. If they do so, they must ensure that, in addition to the above-mentioned conditions of best value for money and absence of conflicts of interests, the following conditions are also complied with:

- a) subcontracting does not cover core tasks of the action;
- b) recourse to subcontracting is justified because of the nature of the action and what is necessary for its implementation;
- c) the estimated costs of the subcontracting are clearly identifiable in the estimated budget;
- d) any recourse to subcontracting, if not provided for in description of the action, is communicated by the beneficiary and approved by the Commission. The Commission may grant approval:
 - (i) before any recourse to subcontracting, if the beneficiaries requests an amendment
 - (ii) after recourse to subcontracting if the subcontracting:
 - is specifically justified in the interim or final technical report and
 - does not entail changes to the grant agreement which would call into question the decision awarding the grant or be contrary to the equal treatment of applicants;

¹⁷ Articles II.10 and II.11 of the Model Grant Agreement

¹⁸ Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC (OJ L 94, 28.3.2014, p. 65-242)

¹⁹ Directive 2014/25/EU of the European Parliament and of the Council of 26 February 2014 on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC (OJ L 94, 28.3.2014, p. 243-374)

- e) the beneficiaries ensure that certain conditions applicable to beneficiaries, enumerated in the grant agreement (e.g. visibility, confidentiality, etc.), are also applicable to the subcontractors.

d) Financial support to third parties²⁰

The applications may envisage provision of financial support to third parties. In such case the applications must include:

- an exhaustive list of the types of activities for which a third party may receive financial support out of the following fixed list:

For Action 1:

- Direct support to journalists facing threats (security or legal expenses);
- Ad hoc support to NGOs active in the field of media freedom and safety of journalism.

For Action 2:

- Support to cross-border investigative journalism (grants to journalists and media outlets);
- Support to the acquisition or development of technical tools in the area of investigative journalism;
- Support to events on media freedom and/or investigative journalism related topics;
- Support to the journalists/media outlets benefiting from the funding scheme if legal/practical support is needed because of threats;
- Support to journalists to attend trainings or events.

For Action 3:

- Support to the acquisition or development of technical tools in the area of investigative journalism;
- Supporting collaborative journalism (grants to journalists and media outlets);

- Support the functioning of tools or platforms for collaborative journalism;
- Support to events aiming at promoting media freedom and quality journalism.

- The definition of the persons or categories of persons which may receive financial support out of the following categories:

²⁰ Article II.12 of the Model Grant Agreement

For **Action 1**:

- Journalists and media practitioners (natural persons);
- NGOs.

For **Action 2**:

- Journalists and media practitioners (natural persons);
- Media outlets;
- NGOs.

For **Action 3**:

- the criteria for awarding financial support;
- the maximum amount to be granted to each third party and the criteria for determining it.

For Actions 1, 2 and 3:

The amount of financial support per third party must not exceed **50.000 EUR** (fifty thousand euros).

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union's contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Commission on all their publications, posters, programmes and other products realised under the co-financed project.

To do this they must use the text, the emblem and the disclaimer available at https://ec.europa.eu/info/resources-partners/european-commission-visual-identity_en .

If this requirement is not fully complied with, the beneficiary's grant may be reduced in accordance with the provisions of the grant agreement.

Beneficiaries will seek approval of the Commission in case they intend to add the logo or references to other sponsors next to the Commission's ones.

12.2. By the Commission

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on an internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The Commission will publish the following information:

- name of the beneficiary;
- address of the beneficiary when the latter is a legal person, region when the beneficiary is a natural person, as defined on NUTS 2 level²¹ if he/she is domiciled within the EU or equivalent if domiciled outside the EU;
- subject of the grant;

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

Specific conditions for direct personnel costs

1. Calculation

The ways of calculating eligible direct personnel costs laid down in points (a) and (b) below are recommended and accepted as offering assurance as to the costs declared being actual.

The Commission may accept a different method of calculating personnel costs used by the beneficiary, if it considers that it offers an adequate level of assurance of the costs declared being actual.

a) for persons working exclusively on the action:

{ monthly rate for the person

multiplied by

number of actual months worked on the action }

The months declared for these persons may not be declared for any other EU or Euratom grant.

The **monthly rate** is calculated as follows:

{ annual personnel costs for the person

divided by 12 }

using the personnel costs for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the monthly rate of the last closed financial year available;

b) for persons working part time on the action

(i) If the person is assigned to the action at a fixed pro-rata of their working time:

{ monthly rate for the person multiplied by pro-rata assigned to the action

multiplied by

number of actual months worked on the action }

The working time pro-rata declared for these persons may not be declared for any other EU or Euratom grant.

The monthly rate is calculated as above.

(ii) In other cases:

{hourly rate for the person multiplied by number of actual hours worked on the action}

or

{daily rate for the person multiplied by number of actual days worked on the action}

(rounded up or down to the nearest half-day)

The number of actual hours/days declared for a person must be identifiable and verifiable.

The total number of hours/days declared in EU or Euratom grants, for a person for a year, cannot be higher than the annual productive hours/days used for the calculations of the hourly/daily rate. Therefore, the maximum number of hours/days that can be declared for the grant are:

{number of annual productive hours/days for the year (see below)}

minus

total number of hours and days declared by the beneficiary, for that person for that year, for other EU or Euratom grants}.

The ‘**hourly/daily rate**’ is calculated as follows:

{annual personnel costs for the person

divided by

number of individual annual productive hours/days} using the personnel costs and the number of annual productive hours/days for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the hourly/daily rate of the last closed financial year available.

The ‘number of individual annual productive hours/days’ is the total actual hours/days worked by the person in the year. It may not include holidays and other absences (such as sick leave, maternity leave, special leave, etc). However, it may include overtime and time spent in meetings, trainings and other similar activities.

2. Documentation to support personnel costs declared as actual costs

For **persons working exclusively on the action**, where the direct personnel costs are calculated following **point (a)**, there is no need to keep time records, if the beneficiary signs a **declaration** confirming that the persons concerned have worked exclusively on the action.

For **persons assigned to the action at a fixed pro-rata of their working time**, where the direct personnel costs are calculated following **point (b)(i)**, there is no need to keep time records, if the beneficiary signs a declaration that the persons concerned have effectively worked at the fixed pro-rata on the action.

For **persons working part time on the action**, where direct personnel costs are calculated following **point (b)(ii)**, the beneficiaries must keep **time records** for the number of hours/days declared. The time records must be in writing and approved by the persons working on the action and their supervisors, at least monthly.

In the absence of reliable time records of the hours worked on the action, the Commission may accept alternative evidence supporting the number of hours/days declared, if it considers that it offers an adequate level of assurance.
