Group discussion 1: How to scale up good practice examples in Digital Education?

- What are the promising good practices of using digital technologies in education?
- What is needed to mainstream these good practices?
- What are the associated challenges and what are the blocking factors for mainstreaming these good practices?

Group discussion 2: Emerging digital technologies for innovating education

- What impact will emerging digital technologies have on education, teaching and learning?
- What is needed to make emerging digital technologies more successful and widely used in the education sector?
- What are the associated challenges and blocking factors for using emerging digital technologies in education?
