

Candidate for TEF - HEALTH

- **The largest university in the eastern part of Poland** (~ 2823 employees, 1577 researchers and teachers)
- **Ultra-High Field Magnetic Resonance Lab** (Magnetic resonance scanner with magnetic field inductance of 7.0 T, model: GE DISCOVERY 950 MR; Hyperpolariser - SPINlab Diamond Polariser by GE)
- **Chromatographic Analysis Laboratory and NMR/LC-NMR-MS Laboratory** (Nuclear magnetic resonance spectrometer 600 MHz (≈ 14 T) adapted to LC-NMR-MS test)
- **Experimental AI facility in the Research Centre for Digital Resources and Intelligent Systems** (own ML DevOps solutions; own AI tools etc.)
- **Computational clusters and computational stations in the Institute of Mathematics** (120 TFLOPS +)
