Part A: General information about the Erasmus+ Programme

Erasmus+ is the EU Programme in the fields of education, training, youth and sport for the period 2014-2020. Education, training, youth and sport can make a major contribution to help tackle socio-economic changes, the key challenges that Europe will be facing until the end of the decade and to support the implementation of the European policy agenda for growth, jobs, equity and social inclusion.

Fighting high levels of unemployment - particularly among young people - is one of the most urgent tasks for European governments. Too many young people leave school prematurely running a high risk of being unemployed and socially marginalised. The same risk threatens many adults with low skills. Technologies are changing the way in which society operates, and there is a need to ensure the best use is made of them. EU businesses need to become more competitive through talent and innovation.

Europe needs more cohesive and inclusive societies which allow citizens to play an active role in democratic life. Education, training, youth work and sport are key to promote common European values, foster social integration, enhance intercultural understanding and a sense of belonging to a community, and to prevent violent radicalisation. Erasmus+ is an effective instrument to promote the inclusion of people with disadvantaged backgrounds, including newly arrived migrants.

Another challenge relates to the development of social capital among young people, the empowerment of young people and their ability to participate actively in society, in line with the provisions of the Lisbon Treaty to "encourage the participation of young people in democratic life in Europe". This issue can also be targeted through non-formal learning activities, which aim at enhancing the skills and competences of young people as well as their active citizenship. Moreover, there is a need to provide youth organisations and youth workers with training and cooperation opportunities, to develop their professionalism and the European dimension of youth work.

Well-performing education and training systems and youth policies provide people with the skills required by the labour market and the economy, while allowing them to play an active role in society and achieve personal fulfilment. Reforms in education, training and youth can strengthen progress towards these goals, on the basis of a shared vision between policy makers and stakeholders, sound evidence and cooperation across different fields and levels.

The Erasmus+ Programme is designed to support Programme Countries' efforts to efficiently use the potential of Europe’s talent and social assets in a lifelong learning perspective, linking support to formal, non-formal and informal learning throughout the education, training and youth fields. The Programme also enhances the opportunities for cooperation and mobility with Partner Countries, notably in the fields of higher education and youth.

In accordance with one of the new elements introduced in the Lisbon Treaty, Erasmus+ also supports activities aiming at developing the European dimension in sport, by promoting cooperation between bodies responsible for sport. The Programme promotes the creation and development of...
European networks, providing opportunities for cooperation among stakeholders and the exchange and transfer of knowledge and know-how in different areas relating to sport and physical activity. This reinforced cooperation will notably have positive effects in developing the potential of Europe’s human capital by helping reduce the social and economic costs of physical inactivity.

The Programme supports actions, cooperation and tools consistent with the objectives of the Europe 2020 Strategy and its flagship initiatives, such as Youth on the Move and the Agenda for new skills and jobs. The Programme also contributes to achieve the objectives of the Education and Training Strategic Framework for European cooperation in Education and Training and of the European Youth Strategy through the Open Methods of Coordination.

This investment in knowledge, skills and competences will benefit individuals, institutions, organisations and society as a whole by contributing to growth and ensuring equity, prosperity and social inclusion in Europe and beyond.

The Erasmus+ Programme Guide is drafted in accordance with the Erasmus+ annual Work Programme adopted by the European Commission, and therefore may be revised to reflect the priorities and lines of action defined in the Work Programmes adopted in the following years. The implementation of this Guide is also subject to the availability of the appropriations provided for in the draft budget after the adoption of the budget for the year by the Budgetary Authority or as provided for in the system of provisional twelfths.

Building on past experience, looking towards the future

The Erasmus+ Programme builds on the achievements of more than 25 years of European programmes in the fields of education, training and youth, covering both an intra-European as well as an international cooperation dimension. Erasmus+ is the result of the integration of the following European programmes implemented by the Commission during the period 2007-2013:

- The Lifelong Learning Programme
- The Youth in Action Programme
- The Erasmus Mundus Programme
- Tempus
- Alfa
- Edulink
- Programmes of cooperation with industrialised countries in the field of higher education

These programmes have been supporting Actions in the fields of higher education (including its international dimension), vocational education and training, school education, adult education and youth (including its international dimension).

Erasmus+ aims at going beyond these programmes, by promoting synergies and cross-fertilisation throughout the different fields of education, training and youth, removing artificial boundaries between the various Actions and project formats, fostering new ideas, attracting new actors from the world of work and civil society and stimulating new forms of cooperation.

It is therefore crucial that the Programme is associated with a strong brand name that is widely recognised. For this reason, all the Actions and activities supported under the Programme will have to be communicated first and foremost by using the “Erasmus+” brand name. However, to help
participants and beneficiaries of former programmes to find their way into Erasmus+, for the purpose of communication and dissemination, the following names may be used for those Actions targeting a specific sector, in addition to the common "Erasmus+" brand name, as follows:

- "Erasmus+: Comenius", in relation to the activities of the Programme exclusively related to the field of school education;
- "Erasmus+: Erasmus", in relation to the activities of the Programme exclusively related to the field of higher education and targeting Programme Countries;
- "Erasmus+: Erasmus Mundus", in relation to the Erasmus Mundus Joint Masters Degrees;
- "Erasmus+: Leonardo da Vinci", in relation to the activities of the Programme exclusively related to the field of vocational education and training;
- "Erasmus+: Grundtvig", in relation to the activities of the Programme exclusively related to the field of adult learning;
- "Erasmus+: Youth in Action", in relation to the activities of the Programme exclusively related to the field of youth non-formal and informal learning;
- "Erasmus+: Jean Monnet", in relation to the activities of the Programme exclusively associated with the field of European Union studies;
- "Erasmus+: Sport", in relation to the activities of the Programme exclusively related to the field of sport.
