In Bursa I had a really good time. We were on programs where we had lots of fun and beautiful memories. When I met my host and her parents, they looked very kind. One of my best memory was when we ate honeycomb because it was the first time when I saw that type of honey. The guys were really nice to me because we celebrated my birthday there and we went to awesome places. Their traditional food was the kebab that is lamb on bread pieces with sauce. I don't really like that kind of meat. My mom said I can't go home without the jewellery what is the symbol of Allah, so I looked for that souvenir in every bazaar. I bought a lot of bracelets with that symbol because I found everywhere. I enjoyed all of the things in the ERASMUS+ days and I am grateful that I could be a part of it.

5-11 April 2018

With the help of ERASMUS+ I had the chance to travel to Italy with some of my classmates. I met a lot of new people and I even made a lot of new friends from Italy. If you ask me this was a really big opportunity for me at least it was a big help with my English I improved at speaking and listening. My favourite moment was when we had a sport day and we played different kind of sports like volleyball and football. In the beginning of the sports day we shuffled the countries so than we would have teammates from other countries. I had a lot of fun being in this project and I hope I will get a chance to go again. If you ever have a chance in your life to take part in a project similar to ERASMUS+ you should go.

14-20 September 2018

Our trip to Calarasi was memorable. We enjoyed every minute of it. This project has taught us a lot of things. I learnt a lot about Romania and the Romanian people and culture. Also we could see a little bit of the other student's culture from the other countries. We really enjoyed that we had to live with a host family. At the same we learnt how to be more independent while being away from our families. Our hosts were wonderful and really kind, they treated us very well, we are really thankful for that. The programs were interesting and we had never get bored. Romania is a mischevious country and the Romanian people are very friendly and kind hearted. We met with a lot of students with a lot of kindness, we made a lot of friends for our entire life. I hope we could see each other one day again.

12-18 November 2018

On 17 November 2018 me and all the people in Erasmus project visited Istanbul what is the most populous city in Turkey with the population of 15 million people. In the first place, we went to Topkapi palace where a tourist guider showed us around. I have waited for to go there since I know that we even have a chance to see the place where Hürrem and Suleyman Sultan lived. I have seen The Magnificent century for a thousand times so I am a big fan of it. It was an unforgettable moment of my life. Unfortunately, we were only there for an hour but it was enjoyable. We took a lot of pictures because of the beautiful view.

The time we spent in Campobasso is full of good memories and for me. It is hard to choose which the best one is. If I have to decide which was the finest I would say when we were in Termoli and I had the chance to see the sea for the first time in my life. Aside from that, that day was the best day in my opinion because the city was breathtaking for me and the whole program was interesting. The time we have spent with our hosts, the Italian students, was also a great part of our journey. We got to know each other very well. Like how they see the world and live their lives in Italy. For me our Journey in Campobasso was very memorable. If I have the chance I'm sure I will go back there at least once.

In September me, my friends and my teachers went to Calarasi. We spent there a week. The first day wasn't so exciting because we travelled about 16 hours. When we arrived we went to the families who were taking care of us. I was with 2 families. The first 2 day I was with Elena's family and then I went to Oana's family. Both families were very kind and friendly. I really liked the programs because they were interesting, exciting and some of them were funny. My best program was the beach. It was really beautiful. We played some funny games and after that we relaxed on the sunbeds. And finally I really liked the whole trip because I got to know another side of Romania and it was amazing and wonderful.

12-18 November 2018

On 15 November we started the day with a breakfast in Cumalizik village where he had a great time during eating and the food was really tasty. My favourite was the thing that looked like a stuffed cabbage. After that we got the chance to buy some souvenirs. Me and my classmate and friend Vivien bought a Gucci and a Louis Vuitton scarf for 1200 Hungarian forint. I swear to my life that the scarfs are real 😊. Then we had an IT lesson where we mad 3D object what was extremely cool and after the lesson we watched the Romanian ppt. At the end of the day we had dinner in a restaurant where personally the food was terrible. Turkish and Hungarian food are on another level. Maybe the food was not my thing but the Turkish bath made my mood happy again. I recommend to everyone to try it once.

5-11 April 2018

On 5th of April, me and some of my classmates travelled to Italy to Campobasso. I was really excited, it was my first time that I traveled on a plane and I couldn't wait to see the city and meet with new people. When we arrived in the city I was amazed, it was such a beauty. The city was surrounded by mountains and the buildings in the center of the city was old-fashioned and really eye-catching. During the week we had a lot of interesting programs. My favourite one was the Pompei visit because we could spend a lot of time together with the students from foreign country and also we saw a lot of ancient monuments and buildings. Also, we made a really good friendship with the Italian students they were very kind and helpful. I really enjoyed the journey. I hope in the future we will have more chances to visit foreign countries.

I was really nervous when we arrived in Romania. I didn't know the Italian, Turkish and Romanian group. I never met them before the programme. When I saw Cristiana who hosted me I was relieved because I chatted with her before. I hugged her and I wasn't feel nervous anymore. We understood each other. My best memory was when we went to the beach. We played funny games and after it we just set on the sunbed and talked with each other. I felt free on the beach. We heard the city's noise and we watched the sunset. This was my perfect day in Romania. I have a lot of memories from there but it was my best.

Turkey

12-18 November 2018

In the first day with my Turkish family is started when I met my host student and her mother at the school. After the school programs Duygu and one of her friend Atakan brought me to a Turkish cafe that was really nice from them and we were really enjoying ourselves. Later that day Duygu introduced me to the family. They were really welcoming to me. During the week we always went out somewhere like cafes, restaurants and so on. I met her friends and we talked about lot of things of common interest. I wish I had had more time with them. The last day my family had a surprised me with a trip, in the highest point of Bursa, the view was beautiful and spectacular. The farewell was painful and I miss them a lot. If I had the chance to go there once more I would gab the opportunity.

5-11 April 2018

We left for Campobasso, Italy on 5 April 2018 with two teachers: Livia Margittay and Andrea Varga. We were actively involved in several challenging activities – like the ice-breaking – on the first day: getting to know each other while dancing and singing together. We tasted a wide selection of delicious Italian food, an unforgettable memory. The students from each partner country prepared presentation about their schools, culture, tradition and geographical features exploring Campobasso with our Italian host students and enjoyed the warm hospitality of their families. We were visiting places of great history, like Pompei and were enjoying walking among the ancient walls of the city. Speaking English was not difficult at all, unlike saying goodbye after this trip of a lifetime.

We arrived in the evening. Everybody went to her host family. I was with Catalina and her family. They were very friendly and nice. The next day we could meet with the others. Everybody was very friendly and funny. We were playing a lot of personality games. The programs were really interesting and useful. My favourite program was when we saw the Dracula's and the Peles Castles. The landscape was amazing in Transylvania. I think everybody enjoyed the trip and we made a lot of new friends in Calarasi.
