Erasmus+

Erasmus+ statistics 2014

2014 was the first year of Erasmus+, a programme that brings together several EU funding schemes for education and training, youth and sport. This seven-year programme has a total budget of € 14.7 billion. National agencies are responsible for managing most parts of the programme in each country.

Grants for studying, training or volunteering abroad

These grants help people enhance their skills, employability and intercultural awareness. They also encourage young people to participate in democratic life. Compared to previous years, Erasmus+ provides stronger support for learners from disadvantaged backgrounds or with fewer opportunities.

Other Erasmus+ activities

In addition, Erasmus+ provides support for joint master degrees. These are offered by a partnership of institutions, chosen because of the high academic standard of their integrated programme. Students study in at least two countries.

Erasmus+ supports cooperation that strengthens education systems in developing countries (capacity building projects), as well as cooperation between higher education institutions and businesses (knowledge alliances) and between vocational education and training institutions and businesses (sector skills alliances).

Erasmus+ also supports policy reforms in the fields of education, training, youth and sport. Besides, it fosters grassroots sport and studies on European integration.

Erasmus higher education statistics 2013-2014

Erasmus+ enables students to study or train in a company abroad, as well as providing higher education staff with a chance to train or teach abroad. The figures given below refer to “Erasmus exchanges” during the last year of the previous programme (Lifelong learning).
