#cybersecurity

[1] The European Commission is conducting a mapping of the existing centres of expertise in the field of cybersecurity. The results of this mapping will be translated into a "Cybersecurity Atlas" that will be made publicly available. This Atlas aims to become a valuable tool and a reference for the cybersecurity community to look for potential partners and pool resources. Are you a center of excellence in the field of cybersecurity? Then register before 15 February 2018.
