

## EUROPEAN WEEK OF CITIES AND REGIONS

Interreg Atlantic Area Workshop

«Clean energy & the Sea: what future for the Atlantic regions?»

12 October 2022

2:30pm to 4:00pm · Europe/Brussels

Interreg supports regions and cities to tackle common challenges and find shared solutions for a greener society. So, how does the Interreg Atlantic Area promote the use of renewable energies to foster energy transition in the Atlantic regions?

This workshop addresses the importance of transnational cooperation in the delivery of innovative strategies, solutions, good practices and policies, to foster the use of renewable energy in the Atlantic regions, thus contributing to the European Green transition.
