1. [Interreg Italy-Croatia Programme](#)
2. [Interreg IPA CBC Italy-Albania-Montenegro Programme](#)
3. [Interreg Central Baltic Programme](#)
4. [Interreg Italy-France Maritime Programme](#)
5. [Interreg South Baltic Programme](#)

Description of the event:

Marine litter is a growing global problem and its prevention requires public engagement and behavioural change. The workshop aims to promote the dialogue and networking among Interreg programmes and stakeholders on effective actions to increase environmental sustainability, tackling the specific marine litter problem in connection with the new generation of EU programmes. Marine pollution does not stop at Member States' borders so shared approaches in management of specific litter are needed.

AGENDA

- 14:20 Connection of participants in Zoom
- 14:30 Welcome and Introduction
- 14:35 “Marine litter addressed by Interreg in 2014-20”, Marin Miletić
- 14:50 Questions from the audience and SLIDO
