S3 Social Economy partnership at a glance

ReConfirm

Aim of the European level partnership:

- **Improve the competitiveness of Social Economy companies** through the increase of the added value provided, in an interregional cooperation perspective
- Explore the **embedding of the social economy sector in the region's S3**
- Improve a **better cooperation among the social economy enterprises** in Europe in order to strengthen the social economy sector. Explore the S3 as a tool to foster that cooperation
- Stimulate **cross-border operations** to enable them to use the full potential of the Internal Market
- Create **European value chains** of social economy enterprises belonging to different regions in Europe and improve the cooperation between them and how can S3 act as a link between social economy enterprises all over Europe
- Develop **social economy clusters**, developing more holistic and cohesive approaches to S3 by fully embracing the (interregional) 'quadruple helix' approach
- Foster the ability to **attract talent** to sector companies
- Promote the **internationalisation** of the business fabric of the Social Economy with size and capacity for management and responsiveness to the market
