

## **Smart City Citizens**

-Resilience of medium sized cities during global environmental change and the digital revolution

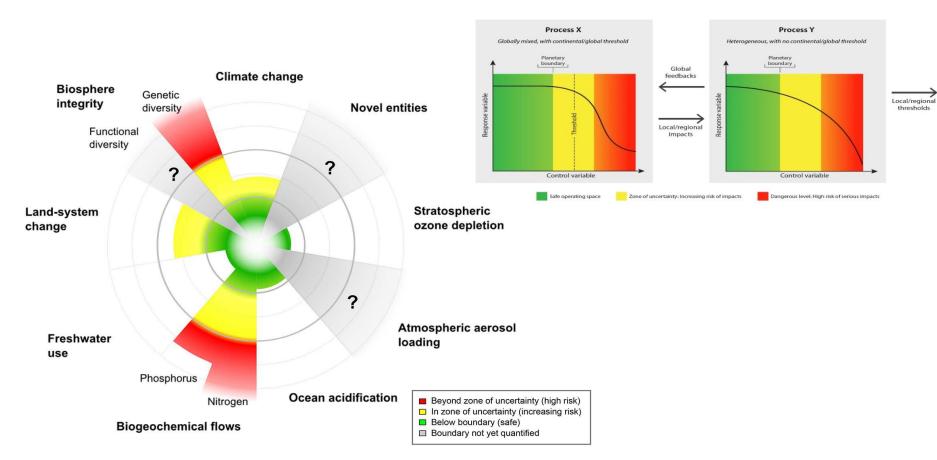

Associate Professor Stephan Barthel, University of Gävle, Sweden

(https://hig.se/urbanstudio)

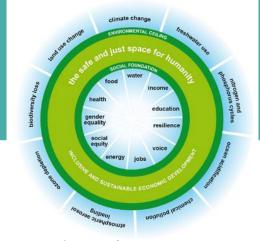

# Shifting Planetary Boundaries – Time ripe for adaptation

Källa: Steffen et al. (2015). Planetary boundaries – Guiding human development on a changing planet

### **Urban Resilience**

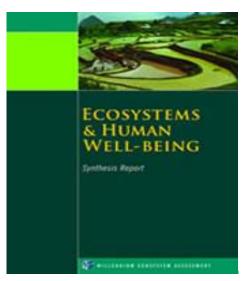

-The buffer capacity to absorb disturbance and continue develop

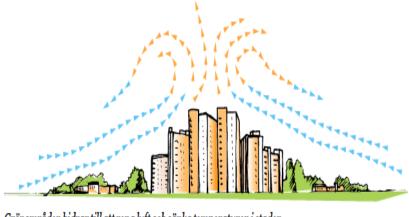

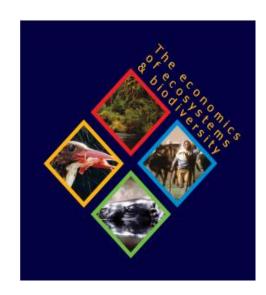

### Urban Nature and Climate Resilience

#### -Ecosystem services

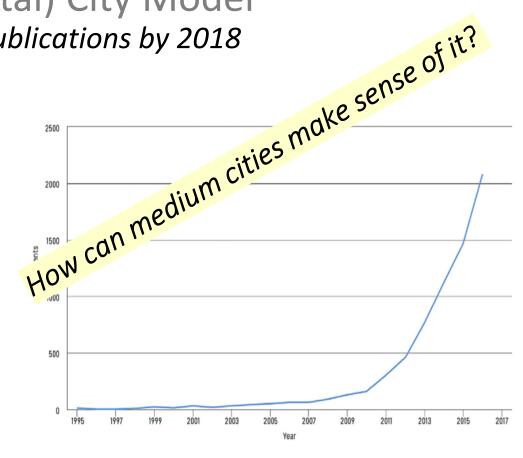

### The Smart (digital) City Model

- c. 8000 scientific publications by 2018

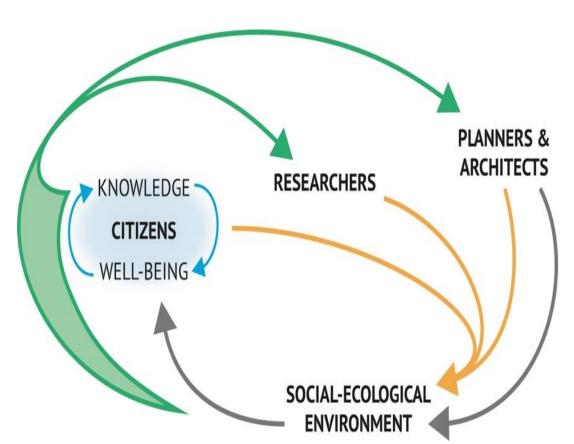

over the development of publications on "smart city"/"smart cities" as provided from the Scopus database. Source: modified from Scop

### Civic participation in design

-Can digital tools be used to foster urban resilience?

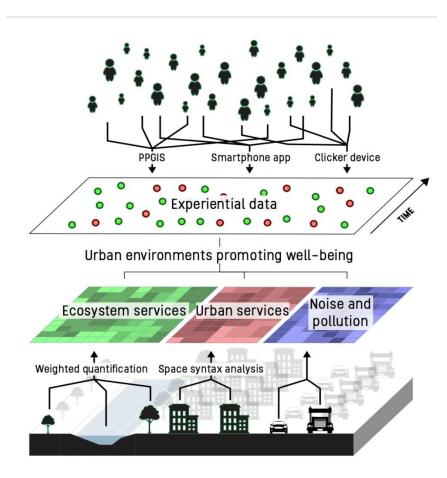

### Navigating the Smart City Tsunami

-Innovation in digital methods for improving health

### **Conflicting Spatial Paradigm**

-experiential knowledge may bridge the divide

Landscape and Urban Planning 171 (2018) 7-17

Research Paper

#### Impact of environment on people's everyday experiences in Stockholm

Karl Samuelsson<sup>a,\*</sup>, Matteo Giusti<sup>b</sup>, Garry D. Peterson<sup>b</sup>, Ann Legeby<sup>c</sup>, S. Anders Brandt<sup>a</sup>, Stephan Barthel<sup>a,b</sup>

#### Resilient City-Scapes centered on Human Wellbeing

-Advantage of medium sized cities

- Healthcare costs are spiralling upwards
  - 95% of healthcare costs are in treating disease
  - Only 5% are in preventative healthcare!
  - Can we design for long term positive impact of social-ecological landscape on wellbeing?
