

[Joining forces: a multi-stakeholder dialogue on initiatives fostering local refugee integration](#)  
[ONSITE - 11WS22237 \(swapcard.com\)](#)

Thank you for your interest in this workshop.

To support experience sharing and peer learning at this workshop, the **OECD**, **Eurochambres** and the **European Committee of the Regions** have joined forces to conduct surveys among their stakeholders with the following aim:

- identify **the needs** of sub-national governments and chambers of commerce to support **refugees' reception and potential integration** and help provide solutions to meet them;
- identify workable solutions that can improve the long-term **reception and integration systems**;
- inform partners of SNGs and businesses, in particular the national governments and the European Commission about the **challenges and good practices** in supporting local reception of refugees and their integration through work.

The results of this survey and its outcomes will inform the discussion and will be gathered in a paper with concrete observations and recommendations.

Thank you for sharing your experience with us!
