# Rationale for the modifications

- *to simplify reporting procedures,*
  - *improve legal certainty and*
  - *ensure that in the context of the performance framework the achievement of the milestone and target for the output indicator can be assessed on the basis of data reflecting most accurately the progress of implementation on the ground*
- *Art. 50(2) of CPR - the data transmitted in the AIR for the ESIF\* are to relate to values for indicators for fully implemented operations and also, where possible, having regard to the stage of implementation, for selected operations.*
  - *Art. 5(3) of CIR 215/2014 – different requirements for the determination of milestones and targets for output indicators in the PF for different ESIF*
