Project description:

1. Segway of the Circumetnea "Stesicoro-Aeroporto" railway

The project consists in the extension of the current section of the Circumetnea Railway line operating in the centre of Catania to the south. The 6.8 km line will be built underground and will have 8 stations. It pursues several objectives: reduction of congestion of the road network, reduction of CO₂ emissions and other atmospheric pollutants, reduction of noise pollution, reduction of road accidents, promotion of intermodal transport, and improving the efficiency of the railway network. The project also includes the purchase of rolling stock worth ca. EUR 60 million.
