I. Information on the major projects adopted on 2 April 2019

	Project Title	Sector	Total Project cost (EUR)	EU funding (EUR)
1	Integrated Road Infrastructure Network for Bucharest Orbital Area	Roads	1,577,943,218	1,062,991,171
2	Protection and rehabilitation of the coastal zone,Phase II	ENV	841,118,737	602,743,199
3	Regional project for the development of water and waste water infrastructure in Timis county	ENV	214,047,656	135,634,273
4	Improvement of urban public transport services by Metro on Metro Line 2. Berceni – Pipera. Phase 2.	Urban transport	135,832,310	97,225,624
		Total	2,768,941,921	1,898,594,267

Project descriptions:

1. Integrated Road Infrastructure Network for the Bucharest Orbital Area

The project addresses the very limited capacity of the existing ring road around Bucharest. It supports upgrading to 2x2 lanes several sections of this road and construction of interchanges Domnesti-DJ602, Oltenita-DN4, Berceni-DJ401, and Mogosoaia-DN1A. It also supports the construction of 51 Km in the southern part of the new Bucharest Orbital Motorway.

Protection and Rehabilitation of the Coastal Areas – Phase II

The project consists of works on the coastal structures connected to the shore, beach stabilisation breakwaters structures, cliff consolidation works, support walls, dredging, and replenishment of sand on the affected beaches. The main objective of the project is to ensure adaptation to climate change, costal erosion risk prevention and management along the coastal line of the Black Sea in Romania, more specifically in the area of Constanța County.

2. Regional project for the development of water and waste water infrastructure in Timis county

The main objective of the project is the development of sustainable water supply and waste water systems in Timis County, in terms of availability, reliability and quality of the provided services, by promoting investments in the environmental sector, in order to comply with the provisions of the European acquis and fulfil the commitments undertaken for the environmental sector. The project area includes 26 drinking water service areas and 28 wastewater agglomerations with more than 380,000 people accessing better quality drinking water.

3. Improvement of urban public transport services by Metro on Metro Line 2. Berceni – Pipera, Phase 2.

The project involves interventions on Metro line 2 the rolling stock and to reconstruct the track substructure and trackside facilities such as electrical and sanitary utilities on the entire 19 km section of the line which runs mostly underground. This will ensure safer, more reliable and faster travel for Romanian commuters and travellers.

II. Information on all major projects approved in Romania in 2014-2020 programming period

Major Projects by sector		Total project cost by sector (EUR)	EU funding by sector (EUR)
Roads	7	3,218,391,085	2,065,257,947
