

# Kohesio

Amaury Bisiaux, Alain Vanden Borre, Roberto Musmeci &  
Mario Casonato

DG REGIO – Communication Unit A2

*28/09/2023*

# Agenda

- **What, Why and Who ?**
- **Data sources and development phases**
- **Live demo**
- **Communication campaign**
- **Next steps**
- **How to get the best out of Kohesio**

# What is Kohesio?

A web platform collecting and visualising information on projects supported by the EU Cohesion policy

# Why do we need it?

Promotion

Accessibility

Transparency

Reuse

# Who is it for?

## European Commission

- Managing Kohesio
- Using for project visits, interviews, briefings...

## Public and media

- Finding out more about regional policy
- Transparency

## Researchers

- Access to standardised open data

## Managing Authorities & Member States

- Promoting and communicating
- Re-using Kohesio services

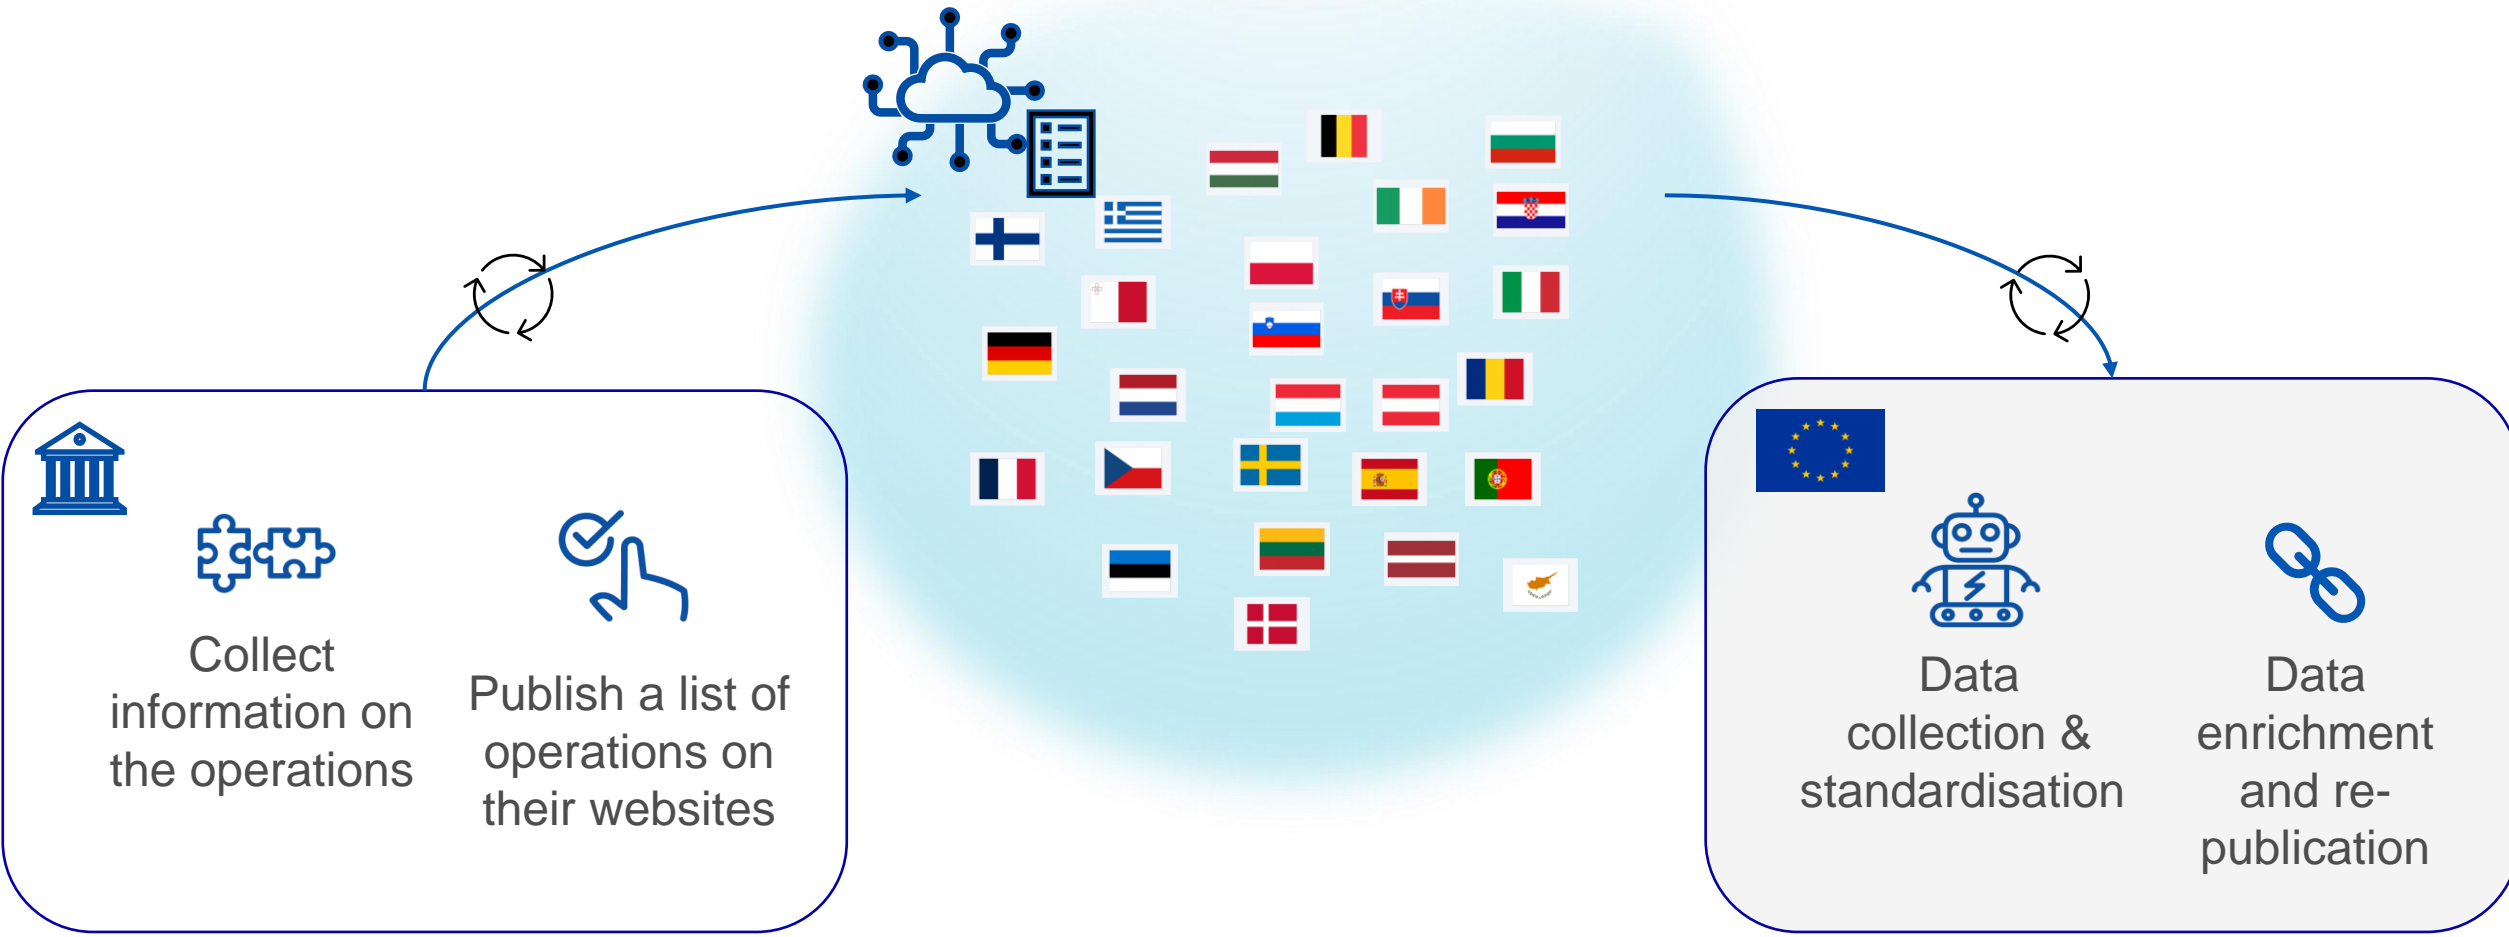

## Project promoters

- Access to real examples of supported projects

# Data sources

- Kohesio uses data published by Member States and managing authorities, i.e. reusing the lists of operations
- The legal basis for MS/MAs publish information about projects selected for support:
  - 2014-2020: [Article 115 & Annex XII of the CPR](#)
  - 2021-2027: [Article 49 of the CPR](#)
- List of operations > the main source of data for Kohesio

# Kohesio Outreach Campaign

An overview

7 Countries targeted

FR/NL

DK

GR

NL

PT

RO

ES

*The targets were chosen on the basis of their rate of awareness about EU funded projects according to Eurobarometer in relation to the amount of funds invested in each country*

Campaign Objective 1: Awareness-raising on EU funding throughout Europe

Campaign Objective 2: referrals to **kohesio.ec.europa.eu**

Duration: 2 to 4 months, depending on the countries

## Social Media Campaign Stats

**3,5M People reached\***

\*How many accounts were exposed to the ad during the campaign

**17,7M Impressions\***

\*How many times the ads appeared on the screen of a given target audience

**65.500 Link clicks\***

\*Not all link clicks lead to the kohesio page as some users clicked on the advertiser's page

**556.000 Video playthroughs**

# Where did the video ad perform best?

As the **call to action** and the **Kohesio link** appear at the end of the video,

the **playthrough rate** can be considered a **valuable metric** on raising awareness about Kohesio. To accommodate the average Social Media attention span, the video ad was further shortened from 1m 8s to 57s, which yielded a higher rate of playthroughs.

## Ranking per country by video plays at 100%:

# Main takeaways: a qualitative analysis

- **Best clickthrough-rate:** younger audience (25-34) across platforms;
- **Highest engagement:** over 34 y.o. mainly on Facebook;
- DK and the NL showed a low yield compared to other target countries
  - Due in part to the **Meta algorithm** considering the **ads non-compliant** with their political advertisement guidelines;
- With the tag-line “What the EU does for you?”, the campaign was **openly provocative**,
  - Whether negative or positive, the **question draws attention** and drives engagement;
- **Conclusion:** the campaign succeeded in showing public interest for EU-funded projects provided through Kohesio.

# Areas for further improvement

## An ocean of data

Difficult to organise such a huge volume of information

## Discoverability

Finding projects with a good communication can be hard

## Territorial focus

Projects are interesting if put in relation to the areas people are living in

## User centricity

Develop new functionalities allowing users to interact with the platform

# Next steps

- 1 Leverage on location-based searches
- 2 A cleaner and smarter map on the homepage
- 3 Better search results
- 4 More functionalities for the users
- 5 Mobile homepage

# How to re-use Kohesio services ?

- 1 Embed the map of Kohesio in your website – select a country, a region or a program  
Instructions: [link](#)
- 2 Modify the description of a project directly from Kohesio – Professional Space for MAs  
Stay tuned !
- 3 Data export - [link](#)

# Thank you
