20/09/2017

You will find below a list of questions received for this call for proposals. Please note that the present document aims to complement and clarify the call for proposals and does not replace it. A Q&As document will be periodically published; applicants are invited to check this website regularly.

Q1. The first question relates to the potential project duration, the call text mentions indicative duration as 12 months, can we submit a proposal for a project lasting 18 months?

A1. The duration of proposed projects should ideally be 12 months (as indicated in the call). However, projects with a duration of more than 12 months are also eligible. It should be noted that the proposed projects should demonstrate their ability to achieve results and therefore contribute to the objectives of the call in an optimal way both in terms of resources and timing.

Q2. The second question is about the length of the overall application form, in particular Section III and its subsections 1a), b), c), d), e), f). Can you provide indications in the number of pages or characters?

A2. No minimum or maximum number of pages is foreseen.
