

Fiche Id	Title of the action	Description of the action	Fund	Amount in FD	Objectives and results	Implementation mode	Type of action	Co-financing rate
22CPR009	Pool of cross-border experts to provide assistance to Cooperation Programmes at risk	Provide assistance to cooperation programmes at risk (lack of administrative capacity, weak management, burdensome procedures).	ERDF	50.000	The objective of this action is to provide expert advice to overcome specific issues to help speed up the implementation of the cooperation programmes at risk.	AMI List	Expert contract	
22CPR010	REGIO Contribution to Commission Corporate Communication	Mandatory REGIO transfer to DG COMM as per 2022 budget circular for 2022: For ERDF: EUR 6 million For CF: EUR 1,38 million (CEF included as agreed with BUDG during hearing 2021) For REACT EU: EUR 55.000 Total for 2022 CPR: EUR 7.435.000	ERDF	5.737.770	To communicate on the implementation of Commission political priorities, via REGIO's mandatory contribution to Corporate Communication.	Procurement	Communication and publication	
22CPR010-B	REGIO Contribution to Commission Corporate Communication	Mandatory REGIO transfer to DG COMM as per 2022 budget circular for 2022: For ERDF: EUR 6 million For CF: EUR 1,38 million (CEF included as agreed with BUDG during hearing 2021) For REACT EU: EUR 55.000 Total for 2022 CPR: EUR 7.435.000	CF	1.319.616	To communicate on the implementation of Commission political priorities, via REGIO's mandatory contribution to Corporate Communication.	Procurement	Communication and publication	
22CPR010-C	REGIO Contribution to Commission Corporate Communication	Mandatory REGIO transfer to DG COMM as per 2022 budget circular for 2022: For ERDF: EUR 6 million For CF: EUR 1,38 million (CEF included as agreed with BUDG during hearing 2021) For REACT EU: EUR 55.000 Total for 2022 CPR: EUR 7.435.000	REACT-EU	52.614	To communicate on the implementation of Commission political priorities, via REGIO's mandatory contribution to Corporate Communication.	Procurement	Communication and publication	
22CPR011	REGIO Core and Recurrent Communication Actions	The amount includes the yearly provision for the following recurrent items and activities: EURegionsWEEK Week media programme YOUTH4REGIONS young media programme Macro-regional Strategies Media programmes REGIOSTARS (competition, promotion and awards) Organisation of 2 INFORM EU meetings & regular technical workshops Paid Social Media promotion (Mainly electronic) Publications (including e-Panorama, translations, press clippings, press packs and other units' publications) Other AUDIOVISUAL and DISSEMINATION products WEB and Cohesion Open Data Platform development & licenses NB1: the request includes the budget for 2 permanent and 2 temporary external service providers, excluding the cost of their IT equipment, covered centrally as per the latest communicated information NB2: 200K to transfer to AGRI B1 for the organisation of the launching conference (using the FWC SCIC) of the LTVRA to be entered by unit 03, lead for REGIO on the topic.	ERDF	8.808.750	Our external communication activities support DG REGIO's efforts to contribute to 4 in 6 headline ambitions of the Von der Leyen Commission: a European Green Deal, a Europe fit for the digital age, an economy that works for people and a stronger Europe in the world. To achieve this, our communication activities strive to reach out to local citizens, in their own language. Furthermore, this contribution feeds into DG COMM's corporate external communication plan for 2022, following guidance from the Corporate Communication Steering Committee (CCSC).	Procurement	Communication and publication	

22CPR012	Commission Knowledge Management - REGIO strand (RegioWiki and Kohesio)	Knowledge management activities including KOHESIO, project database extension from pilot to project and RegioWiki maintenance, support to users and trainings For Kohesio the idea is to pursue and develop Kohesio from pilot to project, and from 6 to 27 + Member States, as well as to adapt it for 2021-2027 projects. NB: the requested includes the budget for 2 permanent and 2 temporary external service providers, excluding the cost of their IT equipment, covered centrally as per the latest communicated information.	ERDF	552.500	KOHESIO : Transparency and communication is the objective, but the initiative also contributes to knowledge management and data driven policy development. Huge potential to aggregate different sources of information to provide at long last a clear and user-friendly view of where EU money goes. Other KM including RegioWiki activities: the objective is to update the tools with the new programs and ensure KM activities continuity. RegioWiki is opened to the whole European Commission.	Procurement	Communication and publication	
22CPR012-B	Commission Knowledge Management - REGIO strand (RegioWiki and Kohesio)	Knowledge management activities including KOHESIO, project database extension from pilot to project and RegioWiki maintenance, support to users and trainings For Kohesio the idea is to pursue and develop Kohesio from pilot to project, and from 6 to 27 + Member States, as well as to adapt it for 2021-2027 projects. NB: the requested includes the budget for 2 permanent and 2 temporary external service providers, excluding the cost of their IT equipment, covered centrally as per the latest communicated information.	CF	97.500	KOHESIO : Transparency and communication is the objective, but the initiative also contributes to knowledge management and data driven policy development. Huge potential to aggregate different sources of information to provide at long last a clear and user-friendly view of where EU money goes. Other KM including RegioWiki activities: the objective is to update the tools with the new programs and ensure KM activities continuity. RegioWiki is opened to the whole European Commission.	Procurement	Communication and publication	
22CPR013	Commission Data Strategy - geolocating cohesion policy projects (Kohesio) - CNECT strand	In April 2021, the ITCB approved the scaling-up of the Kohesio pilot to project. During the pilot phase, DG CNECT ensured the technical coordination and development of the project 'pro bono'. In the full fledged project phase, DG CNECT R3 unit will keep ensuring the technical coordination and development of Kohesio. € 555 000 is the amount covering Kohesio technical development, the finalisation of the scale-up from 6 to 27 member states, the adaptation to the 2021-2027 programming period and the feasibility study to integrate Interreg and additional ESIF funds (e.g. EMFF)	ERDF	471.750	KOHESIO: Transparency and communication is the objective, but the initiative also contributes to knowledge management and data driven policy development Huge potential to aggregate different sources of information to provide at long last a clear and user-friendly view of where EU money goes.	Procurement	Communication and publication	
22CPR013-B	Commission Data Strategy - geolocating cohesion policy projects (Kohesio) - CNECT strand	In April 2021, the ITCB approved the scaling-up of the Kohesio pilot to project. During the pilot phase, DG CNECT ensured the technical coordination and development of the project 'pro bono'. In the full fledged project phase, DG CNECT R3 unit will keep ensuring the technical coordination and development of Kohesio. € 555 000 is the amount covering Kohesio technical development, the finalisation of the scale-up from 6 to 27 member states, the adaptation to the 2021-2027 programming period and the feasibility study to integrate Interreg and additional ESIF funds (e.g. EMFF)	CF	83.250	KOHESIO: Transparency and communication is the objective, but the initiative also contributes to knowledge management and data driven policy development Huge potential to aggregate different sources of information to provide at long last a clear and user-friendly view of where EU money goes.	Procurement	Communication and publication	
22CPR014	Contribution to Media Pluralism: call for partnerships with media	Provide support to media and other entities willing to implement actions promoting EU cohesion policy.	ERDF	5.950.000	Promote EU cohesion policy and media pluralism at the local level, in the language of citizens (as the grant beneficiaries of previous similar calls traditionally cover at least 18 EU Member States).	Grant: open call for proposals	Communication and publication	80
22CPR014-B	Contribution to Media Pluralism: call for partnerships with media	Provide support to media and other entities willing to implement actions promoting EU cohesion policy.	CF	1.050.000	Promote EU cohesion policy and media pluralism at the local level, in the language of citizens (as the grant beneficiaries of previous similar calls traditionally cover at least 18 EU Member States).	Grant: open call for proposals	Communication and publication	80

22CPR016	Contribution to Media Pluralism: EU and cohesion policy course for journalism schools	Support to strengthen the network of institutions providing courses on the EU and cohesion policy for journalism students.	ERDF	170.000	The action will support the group of educational institutions that won the Call for proposals to ensure that the network of journalism schools dedicated to advancing EU and Cohesion policy studies in journalism that they will set up will have the resources to function and continue for a medium to long period of time. By investing in the education of future journalists from across multiple DG REGIO will contribute to a more cohesive Union, provide training opportunities for a better prepared workforce in the media sector, as well as increase visibility of EU funds and thus their uptake.	Procurement	Communication and publication	
22CPR016-B	Contribution to Media Pluralism: EU and cohesion policy course for journalism schools	Support to strengthen the network of institutions providing courses on the EU and cohesion policy for journalism students.	CF	30.000	The action will support the group of educational institutions that won the Call for proposals to ensure that the network of journalism schools dedicated to advancing EU and Cohesion policy studies in journalism that they will set up will have the resources to function and continue for a medium to long period of time. By investing in the education of future journalists from across multiple DG REGIO will contribute to a more cohesive Union, provide training opportunities for a better prepared workforce in the media sector, as well as increase visibility of EU funds and thus their uptake.	Procurement	Communication and publication	
22CPR017	Enhanced visibility and localisation for Cohesion Policy results on the ground: translations	Additional resources for the co-delegated budget line REGIO-DGT to support quick and urgent translations of non-legislative nature (i.e. brochures, infographics, factsheets).	ERDF	170.000	The action contributes to the enhanced visibility at local level of Cohesion Policy.	Procurement	Translations	
22CPR017-B	Enhanced visibility and localisation for Cohesion Policy results on the ground: translations	Additional resources for the co-delegated budget line REGIO-DGT to support quick and urgent translations of non-legislative nature (i.e. brochures, infographics, factsheets).	CF	30.000	The action contributes to the enhanced visibility at local level of Cohesion Policy.	Procurement	Translations	
22CPR018	Workshops to help Outermost Regions benefit from EU Programmes	This action aims at providing tailored information to help the outermost regions (OR) benefit from the specific provisions for these regions under various EU Programmes (2021-2027). 7 virtual workshops will be organised on the competitive programmes most relevant for the outermost regions, including CEF (Transport+Digital), the Programme for the Environment and Climate Action LIFE, Digital Europe, Erasmus+, possibly Horizon. This action is part of REGIO commitment to help the outermost regions benefit from EU programmes in line with art 349 TFEU and the Communication on a strategic partnership with the outermost regions. It is envisaged as a deliverable of the future OR strategy and builds on the presentations of EU programmes to the OR - in dedicated workshops and at the OR working group - arranged by A1 in 2018-21. At each workshop, colleagues from the relevant Directorate-Generals and executive agencies will explain how the OR can make the most of each EU programme.	ERDF	130.000	This action aimed at helping the outermost regions develop new tailored actions - supported by EU programmes - contributes to the Commission's priorities "an economy that works for people" and "fit for the digital age." In this context, this action contributes in particular to pursuing objective 3.5. - territorial development strategies - of REGIO Strategic Plan, whereby REGIO will foster the implementation of the Communication 'A stronger and renewed strategic partnership with the outermost regions', and of Article 349 TFEU which provides for tailor made support to these regions, including in the application of EU law and access to EU programmes. The actions that could be developed by the OR under EU programmes can in addition contribute to the implementation of the European Green Deal and the EU Strategies on Adaptation to Climate change, Biodiversity and Blue economy as well as the Circular Economy Action Plan amongst other EU strategies.	Procurement	Meetings and Conferences	

22CPR020	Conference Cross-Border Employment	Following on COM(2017)534 and COM(2021)373, this action will support the organisation of a major conference on cross-border employment in all its facets. It will demonstrate the potential of cross-border commuting as a promoter of socio-economic development for border regions, while addressing the challenges faced by cross-border commuters and their employers (from recognition of skills and qualifications to social insurance rights and access to reliable information on rights and obligations).	ERDF	300.000	By showcasing success stories in supporting cross-border employment and vibrant cross-border labour markets, this conference will contribute to the implementation of successful solutions for cross-border employment. The event is to be seen as part of the activities of the Border Focal Point.	Procurement	Meetings and Conferences	
22CPR022	Support for Border Focal Point outreach	Border Focal Point publications and external outreach	ERDF	25.000	The implementation of the Border Focal Point work program leads to the creation of diverse types of publications targeting different audiences (e.g. academia; local administrations; EGTCs, euroregions, etc) and of different types (from EU official publications to articles in academic journals). Given their heterogeneity, implementation requires punctual specific types of assistance, for example to ensure public accessibility (open-access fees) or directly related to the production (graphic design; video editing; etc). External outreach occasionally implies participation in events organised by third parties (eg. academic conferences). This action would also support direct cost related with those events.	Procurement	Communication and publication	
22CPR023	Guidelines for Cross-Border energy communities	Production of guidelines for cross-border energy communities	ERDF	240.000	The EC report "EU Border Regions: Living labs of European integration" introduces European Green Deal as a focus cluster of the Border Focal Point. That element was not yet present in COM(2017)534. Important changes in European legislation have consequences for cross-border regions. The Electricity Market Directive (Directive (EU) 2019/944) already allows national regulatory frameworks to open up citizen energy communities to cross-border participation. Likewise the Renewable Energy Directive does the same in renewable energy communities. However, these energy communities are a relatively recent phenomenon and their implementation in a cross-border context is still limited and patchy. The related challenges are not fully understood or assessed. This action will allow for a deep analysis of the specific context faced by such communities in a border context. This will lead to the production of guidelines for the implementation of those communities.	Procurement	Technical and other administrative assistance to MS	

22CPR024	Promotion of the B-solutions initiative	The action will showcase the most emblematic projects supported under the B-solutions initiative, with the aim to promote the achievements so far and possible solutions to removing cross-border legal and administrative obstacles. This communication activity will include the production of a series of videos.	ERDF	100.000	Following the 2017 Communication "Boosting Growth and Cohesion in EU Border Regions" the Commission implemented the b-solutions initiative to assess the root causes of border obstacles and to provide pathways for possible solutions to those obstacles. The EC report "EU Border regions: living labs of European integration" reinforced the need to intervene in solving such obstacles. In a similar vein the "Single Market Enforcement Taskforce" set up by DG GROW is also working to address cross-border barriers to the implementation of the Single Market. The experience so far with the 90 obstacles assessed by the b-solutions initiative is that, in many cases, going from identifying the solution to actually implementing the solution requires more dedicated action. This action will promote a series of emblematic projects assessed by the b-solutions initiative.	Procurement	Technical and other administrative assistance to MS	
22CPR026-C	Assistance for programme implementation (interpretation)	Low value public procurement for purchasing interpretation services / rental of interpretation equipment.	REACT-EU	10.000	The purpose of the action is to facilitate future organisation of missions and meetings (both physical meetings and meetings organised via videoconference) where interpretation services are needed.	Procurement	Meetings and Conferences	
22CPR027	fi-compass	fi-compass is the EC-EIB platform for advisory services addressing TA needs for FIs under shared management by means of a broad range of assistance, i.e. advisory services applicable to all MS and types of financial instruments, mainly to managing authorities. Such activities typically include providing practical know-how and learning tools on financial instruments (studies, case studies, factsheets, e-learning modules, face-to-face training seminars, networking events) and disseminating good practices among MS, including training seminars and targeted events responding to managing authorities' needs. fi-compass deliverables are publicly available under www.fi-compass.eu , which is the knowledge hub for shared management financial instruments. The action will be financed by DG REGIO, EMPL, AGRI, AMRE and HOME through co-delegations to REGIO. fi-compass, as an independent team within EIB Advisory Services, has acquired the necessary expertise in the 2014-2020 period.	ERDF	9.000.000	The objective is to improve the knowledge of the managing authorities on the set-up and implementation of financial instruments in 2021-2027 with regard to issues common to all MS and regions (including less developed regions) and to ensure a wider and smoother uptake of these instruments. In terms of outputs, fi-compass will be expected to deliver a certain (to be defined in detail in the contribution agreement with the EIB) number of products, like events, trainings, webinars, studies, publications. They are expected to bring the following results on the ground: <ul style="list-style-type: none"> • Facilitate FIs across all Policy Objectives; • Streamline the establishment and management of FIs in MS. • Increase the leverage potential of FIs. • Facilitate investment of programme contributions to FIs and at final recipient level. • Increase awareness on the role of FIs • Ensure basic TA support for FIs to relevant implementation partners during all phases of the FI life cycle. • Build stakeholders capacity 	Indirect Management	Technical and other administrative assistance to MS	
22CPR028-B	JASPERS assistance	JASPERS (Joint Assistance to Support Projects in European Regions) is a joint TA initiative of the Commission and EIB providing an independent and free-off-charge project pipeline advisory services to Member States to ensure projects are mature and of high-quality.	CF	3.750.000	The action contributes to the Commission priority 'an economy that works for people' and in particular the Specific objective 3.1 - Full, effective and compliant use of funds to strengthen economic, social and territorial cohesion by ensuring quick start of the period with the pipeline of mature and high-quality projects. Some Member States complement JASPERS assistance financed by the Commission with their own TA in the OPs via PASU contracts with JASPERS. Although the assistance is available to all Member States, most of the assistance is provided to Cohesion countries.	Indirect Management	Technical and other administrative assistance to MS	

22CPR028-C	JASPERS assistance	JASPERS (Joint Assistance to Support Projects in European Regions) is a joint TA initiative of the Commission and EIB providing an independent and free-off-charge project pipeline advisory services to Member States to ensure projects are mature and of high-quality.	REACT-EU	21.250.000	The action contributes to the Commission priority 'an economy that works for people' and in particular the Specific objective 3.1 - Full, effective and compliant use of funds to strengthen economic, social and territorial cohesion by ensuring quick start of the period with the pipeline of mature and high-quality projects. Some Member States complement JASPERS assistance financed by the Commission with their own TA in the OPs via PASU contracts with JASPERS. Although the assistance is available to all Member States, most of the assistance is provided to Cohesion countries.	Indirect Management	Technical and other administrative assistance to MS	
22CPR029	IT Activities on Operational budget	Development of IT systems, assets, maintenance and support to users	ERDF	5.742.894	Development of IT systems, assets, maintenance and support to users	Procurement	IT	
22CPR029-B	IT Activities on Operational budget	Development of IT systems, assets, maintenance and support to users	CF	1.405.552	Development of IT systems, assets, maintenance and support to users	Procurement	IT	
22CPR029-C	IT Activities on Operational budget	Development of IT systems, assets, maintenance and support to users	REACT-EU	1.919.550	Development of IT systems, assets, maintenance and support to users	Procurement	IT	
22CPR030	Subdelegation to DIGIT - charge back	Subdelegation to DIGIT under ERDF funds	ERDF	660.000	Subdelegation to DIGIT under ERDF funds for delivery of services not covered by the corporate baseline services	Procurement	IT	
22CPR031	Subdelegation to EMPL (Mapar and SFC front office)	Subdelegation to EMPL on ERDF funds for MAPAR and SFC front office)	ERDF	516.000	Subdelegation to EMPL on ERDF funds for MAPAR	Procurement	IT	
22CPR032	Subdelegation to BUDG	Subdelegation to BUDG on ERDF funds. Contribution to ABAC Database-Link interface for SysFin, WFS, SFC2007, SFC2014 and WAVE	ERDF	20.000	Subdelegation to BUDG on ERDF funds for ABAC DBD Links	Procurement	IT	
22CPR033	Partnership and the adequacy of the code of conduct	-assess the effective take up of updated legal requirements on programming - assess the adequacy of the current code of conduct on partnership -gather good practices examples and explore avenues for improvement -identify difficulties and success stories when it comes to programme implementation including monitoring committee functioning	ERDF	369.643	Assess the effectiveness of the partnership principle in the preparation and implementation of 2021-2027 programmes and issue accordingly recommendation for the update of the code of conduct and, possible, on legal provisions on partnership for the post 2027 legal framework	Procurement	Study	
22CPR033-B	Partnership and the adequacy of the code of conduct	-assess the effective take up of updated legal requirements on programming - assess the adequacy of the current code of conduct on partnership -gather good practices examples and explore avenues for improvement -identify difficulties and success stories when it comes to programme implementation including monitoring committee functioning	CF	65.231	Assess the effectiveness of the partnership principle in the preparation and implementation of 2021-2027 programmes and issue accordingly recommendation for the update of the code of conduct and, possible, on legal provisions on partnership for the post 2027 legal framework	Procurement	Study	
22CPR035	Eurostat data acquisitions	Support the purchase of key data set including road networks and regional boundaries	ERDF	250.000	Supports analysis and mapping	Procurement	Statistics and Data Collection	
22CPR037	Challenges for cohesion at the horizon 2035	Identification and analysis of emerging challenges for social, economic and territorial cohesion by 2035, including: - depopulation trends - vulnerability of regional economic fabrics - impact on Green Deal and climate transition on regional industrial fabrics	ERDF	994.500	Identification and analysis of emerging challenges for social, economic and territorial cohesion by 2035, including: - depopulation trends - vulnerability of regional economic fabrics - impact on Green Deal and climate transition on regional industrial fabrics This analysis will complement the planned OECD study on depopulation	Procurement	Study	

22CPR037-B	Challenges for cohesion at the horizon 2035	Identification and analysis of emerging challenges for social, economic and territorial cohesion by 2035, including: - depopulation trends - vulnerability of regional economic fabrics - impact on Green Deal and climate transition on regional industrial fabrics	CF	175.500	Identification and analysis of emerging challenges for social, economic and territorial cohesion by 2035, including: - depopulation trends - vulnerability of regional economic fabrics - impact on Green Deal and climate transition on regional industrial fabrics This analysis will complement the planned OECD study on depopulation	Procurement	Study	
22CPR038	Eurostat Geospatial data collections	This grant will support the production of more harmonised geospatial data	ERDF	1.000.000	The goal is to obtain harmonised geospatial data for key issues linked to cohesion policy (transport, health, education...)	Grant: open call for proposals	Statistics and Data Collection	100
22CPR039	OECD study on depopulation	This study will analyse the risk and consequences of depopulation. It will propose a policy framework to manage a shrinking and ageing population.	ERDF	1.105.000	This will lead to a report and a database on demographic changes in OECD countries.	Indirect management	Study	
22CPR039-B	OECD study on depopulation	This study will analyse the risk and consequences of depopulation. It will propose a policy framework to manage a shrinking and ageing population.	CF	195.000	This will lead to a report and a database on demographic changes in OECD countries.	Indirect management	Study	
22CPR040	JRC Regional databases and Rural observatory	This action will update and maintain the ARDECO database, the other regional and city data collections and improve the data visualisations. It will also contribute to the joint Rural Observatory.	ERDF	2.700.000	The action will produce consistent long time series of key economic and demographic indicators, produce new indicators and create, new and innovative data visualisations including the urban data platform. It will also contribute to a rural data platform and targeted rural analysis and data collections.	Administrative Agreement	Statistics and Data Collection	
22CPR040-B	JRC Regional databases and Rural observatory	This action will update and maintain the ARDECO database, the other regional and city data collections and improve the data visualisations. It will also contribute to the joint Rural Observatory.	CF	300.000	The action will produce consistent long time series of key economic and demographic indicators, produce new indicators and create, new and innovative data visualisations including the urban data platform. It will also contribute to a rural data platform and targeted rural analysis and data collections.	Administrative Agreement	Statistics and Data Collection	
22CPR041	JRC on gender, city survey and discontent	This action will provide support for updating of the regional gender monitor, the analysis of the next city survey and further analysis of the geography of discontent.	ERDF	552.500	This action will provide technical and statistical support for the three topics listed.	Administrative Agreement	Statistics and Data Collection	
22CPR041-B	JRC on gender, city survey and discontent	This action will provide support for updating of the regional gender monitor, the analysis of the next city survey and further analysis of the geography of discontent.	CF	97.500	This action will provide technical and statistical support for the three topics listed.	Administrative Agreement	Statistics and Data Collection	
22CPR042	JRC Measuring European and global urbanisation	This action would support the production of global time series and projection of population and built-up areas. It would also improve the assessment of built-up areas in Europe.	ERDF	1.785.000	This action would continue our work on measuring changes in built-up area and producing population grids for Europe and the world.	Administrative Agreement	Statistics and Data Collection	
22CPR042-B	JRC Measuring European and global urbanisation	This action would support the production of global time series and projection of population and built-up areas. It would also improve the assessment of built-up areas in Europe.	CF	315.000	This action would continue our work on measuring changes in built-up area and producing population grids for Europe and the world.	Administrative Agreement	Statistics and Data Collection	
22CPR043	European Quality of Government index	This action would found two updates of the European regional Quality of Government index	ERDF	3.230.000	The quality of government is a key issue for cohesion policy. Low quality limits the impact of cohesion policy and reduces overall economic performance. This is specifically an issue for several of the less developed regions.	Procurement	Statistics and Data Collection	
22CPR043-B	European Quality of Government index	This action would found two updates of the European regional Quality of Government index	CF	570.000	The quality of government is a key issue for cohesion policy. Low quality limits the impact of cohesion policy and reduces overall economic performance. This is specifically an issue for several of the less developed regions.	Procurement	Statistics and Data Collection	
22CPR045-B	Short papers and data acquisitions	This actions allows to purchase data and short papers on emerging topics.	CF	30.000	This action ensure that we can quickly respond to new topics.	Procurement	Communication and publication	

22CPR045-C	Short papers and data acquisitions	This actions allows to purchase data and short papers on emerging topics.	REACT-EU	170.000	This action ensure that we can quickly respond to new topics.	Procurement	Communication and publication	
22CPR046-B	Cohesion report	This action will cover the editing, lay-outing and translation of the 9th cohesion report.	CF	135.000	The goal to ensure a high quality and attractive cohesion report	Procurement	Communication and publication	
22CPR046-C	Cohesion report	This action will cover the editing, lay-outing and translation of the 9th cohesion report.	REACT-EU	765.000	The goal to ensure a high quality and attractive cohesion report	Procurement	Communication and publication	
22CPR047	Support the mainstreaming of New European Bauhaus principles (Bulgaria, Hungary and Slovenia)	The action aims to support the Bulgarian, Hungarian and Slovenian authorities to mainstream the New European Bauhaus principles (NEB) (sustainability, inclusion and aesthetics) to improve the quality of infrastructure projects. Expert support for the Managing Authorities should take the form of the development of a new approach towards investment in the built environment in the fields of housing, culture and cultural heritage, and educational infrastructure, and identify how the NEB principles can be promoted in the Member States both in specific terms (through the development of country- and sector-specific selection criteria) and general terms (through incorporation into mainstream programming and national strategies).	ERDF	100.000	Given the complexity involved in applying the NEB framework for such a wide variety of programmes, expert support is requested to help determine what 'mainstreaming' of the NEB will look like in concrete terms, given the specific priorities and challenges in Bulgaria, Hungary and Slovenia. The AMI expert(s) will support the BG, HU and SI authorities to adapt and translate the principles and ideas for action from relevant EC communications and policy documents into guidelines and criteria for the selection of projects for investment across the sectors of affordable housing, culture and cultural heritage, and educational infrastructure. In addition, the experts shall review relevant regional development plans and propose a methodology or measures to support mainstreaming of the above-mentioned principles into the programming and selection procedures for future investments. The TA action will be coordinated with other on going REGIO actions managed by Unit 03 and any other DG	AMI List	Expert contract	
22CPR049	OECD support to the development of national ACB roadmap in Bulgaria	Provide support to the BG authorities to develop a national level ACB roadmap making use of the lessons learned and experience gained under the pilot action "Strengthening administrative capacities of managing authorities for effective use of EU Regional Policy Investment Funds for/in the post 2020 programming period". OECD will assist/work with the BG authorities to launch and manage the process of data collection, analysis and draft national level capacity building strategy/roadmap including monitoring and evaluation arrangements.	ERDF	212.500	The main objective is to work together with the responsible BG authorities (CCU, the managing authorities and other key national authorities) to identify issues hindering the effective and efficient implementation of EU-funded regional policy in Bulgaria and actions to address them. Special attention will be given to the development of a methodology and tools to collect information related to weaknesses/constraints/obstacles at the level of enabling framework conditions. OECD will implement the action jointly with CCU and other departments/institutions responsible for public administration reform/modernisation in Bulgaria.	Indirect Management	Technical and other administrative assistance to MS	
22CPR049-B	OECD support to the development of national ACB roadmap in Bulgaria	Provide support to the BG authorities to develop a national level ACB roadmap making use of the lessons learned and experience gained under the pilot action "Strengthening administrative capacities of managing authorities for effective use of EU Regional Policy Investment Funds for/in the post 2020 programming period". OECD will assist/work with the BG authorities to launch and manage the process of data collection, analysis and draft national level capacity building strategy/roadmap including monitoring and evaluation arrangements.	CF	37.500	The main objective is to work together with the responsible BG authorities (CCU, the managing authorities and other key national authorities) to identify issues hindering the effective and efficient implementation of EU-funded regional policy in Bulgaria and actions to address them. Special attention will be given to the development of a methodology and tools to collect information related to weaknesses/constraints/obstacles at the level of enabling framework conditions. OECD will implement the action jointly with CCU and other departments/institutions responsible for public administration reform/modernisation in Bulgaria.	Indirect Management	Technical and other administrative assistance to MS	
22CPR050	UN Habitat URBAN 2030 part 2	This action will fund the organisation of several workshops on Sustainable Development Goal indicators.	ERDF	425.000	This action will improve the SDG indicator methodology and data collection. It will also increase the awareness and visibility of the REGIO and JRC work on SDG indicators.	Indirect Management	Statistics and Data Collection	

22CPR050-B	UN Habitat URBAN 2030 part 2	This action will fund the organisation of several workshops on Sustainable Development Goal indicators.	CF	75.000	This action will improve the SDG indicator methodology and data collection. It will also increase the awareness and visibility of the REGIO and JRC work on SDG indicators.	Indirect Management	Statistics and Data Collection	
22CPR051	Population and SDG indicators by Degree of Urbanisation	This action will support the production of population and Sustainable Development Goals indicators by Degree of Urbanisation. It will also assist countries applying this methodology for the first time.	ERDF	467.500	The goal is to support the application of the Degree of Urbanisation to allow us to report back to the UN Statistical Commission on a successful implementation.	Grant: open call for proposals	Statistics and Data Collection	100
22CPR051-B	Population and SDG indicators by Degree of Urbanisation	This action will support the production of population and Sustainable Development Goals indicators by Degree of Urbanisation. It will also assist countries applying this methodology for the first time.	CF	82.500	The goal is to support the application of the Degree of Urbanisation to allow us to report back to the UN Statistical Commission on a successful implementation.	Grant: open call for proposals	Statistics and Data Collection	100
22CPR052	WB Report on subnational disparities	This action will support a project to draft a report on how income differences between cities, towns and rural areas change as a country develops and how policy can facilitate a balanced development process while maximizing national growth.	ERDF	5.000.000	The goal is to continue the discussion launched by the WB Economic geography report from 2009 by highlighting that as countries develop income disparities tend to shrink.	Indirect Management	Statistics and Data Collection	
22CPR053	Third joint cohesion policy conference	The Conference will bring together a limited number of participants from academia, the EU Institutions and Member State authorities to debate where cohesion policy is going, the evidence for its performance to date, and how its contribution to sustainable growth and jobs can be maximised. The conference will take place in Zagreb (Croatia) In Autumn 2022.	ERDF	178.500	The Third Joint EU Cohesion Policy Conference – organised by the European Commission, Directorate-General for Regional and Urban Policy and Regional Studies Association Europe together with Croatia – aims to take stock of the challenges and opportunities for Cohesion Policy. The timing of the Conference will allow critical assessment of research evidence and policy thinking on how cities and regions could best determine their strategic funding priorities for the next programming period, in order to address development needs and opportunities effectively with the support of the Funds and in synergy with other EU instruments.	Procurement	Meetings and Conferences	
22CPR053-B	Third joint cohesion policy conference	The Conference will bring together a limited number of participants from academia, the EU Institutions and Member State authorities to debate where cohesion policy is going, the evidence for its performance to date, and how its contribution to sustainable growth and jobs can be maximised. The conference will take place in Zagreb (Croatia) In Autumn 2022.	CF	31.500	The Third Joint EU Cohesion Policy Conference – organised by the European Commission, Directorate-General for Regional and Urban Policy and Regional Studies Association Europe together with Croatia – aims to take stock of the challenges and opportunities for Cohesion Policy. The timing of the Conference will allow critical assessment of research evidence and policy thinking on how cities and regions could best determine their strategic funding priorities for the next programming period, in order to address development needs and opportunities effectively with the support of the Funds and in synergy with other EU instruments.	Procurement	Meetings and Conferences	
22CPR054	Support to the implementation of Integrity Pacts in Bulgaria	Activities for supporting and accompanying national actors (managing authorities and civil society organisations) in their preparations for the post-2020 implementation of Integrity Pacts and other civil society monitoring tools.	ERDF	55.250	Mainstreaming IP in the programmes to encourage more transparency and scrutiny by civil society organisations. Support to setting up a centralised mechanism by the Managing Authority of the TA Programme to support the use of Integrity Pacts by different EU funded programmes in Bulgaria.	AMI List	Expert contract	
22CPR054-B	Support to the implementation of Integrity Pacts in Bulgaria	Activities for supporting and accompanying national actors (managing authorities and civil society organisations) in their preparations for the post-2020 implementation of Integrity Pacts and other civil society monitoring tools.	CF	9.750	Mainstreaming IP in the programmes to encourage more transparency and scrutiny by civil society organisations. Support to setting up a centralised mechanism by the Managing Authority of the TA Programme to support the use of Integrity Pacts by different EU funded programmes in Bulgaria.	AMI List	Expert contract	

22CPR057	Broadband Competence Offices Support Facility	Support to new contract for BCO Support Facility post-2021. Contract run by AGRI with CNECT and REGIO contributing. See Service Level Agreement signed by DGs on 13 August 2021 - Ares(2021)5100516	ERDF	333.000	DG AGRI, DG REGIO and DG CNECT jointly ran the Brussels based Facility for supporting the network of Broadband Competence Offices (BCO) from 2017-2020. This structure was established in Brussels in early 2017 and coordinates and supports a network of national and/or regional BCOs in order to promote the introduction of fast and ultra-fast broadband all over the EU territory, including in rural areas. The current action is the continuation of this support. The action is aimed at increasing capacities of in Broadband Competence Offices through assistance provided by the Support Facility. This will result in better broadband planning and project implementation in MS. In this context, the SF shall support the development of national/regional broadband plans and advice regional and local authorities in the preparation of broadband projects (for cohesion policy support).	Procurement	Technical and other administrative assistance to MS
22CPR060	Ad-hoc expert assistance and advice for audit issues	Advice, guidance notes, participation in meetings concerning audit issues	ERDF	42.500	SINGLE AUDIT STRATEGY FOR FUNDS MANAGED BY REGIO, EMPL AND MARE UNDER SHARED MANAGEMENT MODE , ref. Ares(2020)1142140 - 24/02/2020	AMI List	Expert contract
22CPR060-B	Ad-hoc expert assistance and advice for audit issues	Advice, guidance notes, participation in meetings concerning audit issues	CF	7.500	SINGLE AUDIT STRATEGY FOR FUNDS MANAGED BY REGIO, EMPL AND MARE UNDER SHARED MANAGEMENT MODE , ref. Ares(2020)1142140 - 24/02/2020	AMI List	Expert contract
22CPR061	Support to development of capacity for interregional innovation investments	The action will focus on the support for financial and business planning for mature partnerships, and support for coordination of capacity building actions under strand 2 (support to less developed Member States). It would take the form of a procurement of services for a three year period renewable for one year.	ERDF	1.920.000	Its key objective would be to accelerate the development of mature project pipelines both among mature partnerships and in less developed regions. It would build on our experience in managing the interregional pilot projects and replace the existing use of AMI list experts by a central facility.	Procurement	Technical and other administrative assistance to MS
22CPR066	Expert advice on actions in relation to the principle of non-discrimination and equality II	Partnership Agreement includes obligation for the MAs to conduct undertakings intended to prevent discrimination on the grounds of sex, racial or ethnic origin, religion or beliefs, disability, age or sexual orientation. The actions to prevent discrimination reported by the MAs currently are narrowed down to measures focused at people with disabilities and equality between men and women. The EC encourages Polish MAs to strengthen in 2021-2027 measures to prevent discrimination based on other aspects including the sexual orientation.	ERDF	42.500	The principle of equal opportunities and non-discrimination is a horizontal principle of the cohesion policy, which means that it has to be applied both under ESF and ERDF and CF. Within the framework of implementation of the principle of non-discrimination particular emphasis shall be placed on actions related to ensuring access to all services, goods and infrastructure covered with ESIF intervention for all persons. This measure will stimulate the pro-active approach towards ensuring non-discrimination when implementing the ESIF in Poland. The actions proposed are aimed at 13 less developed regions and 3 more developed regions in Poland. The action will be a continuation of Phase I: 21CPR049	AMI List	Expert contract

22CPR091	Support to the functioning of the European Community of Practice on Partnership 2021-2027 (ECOPP)	The partnership principle is one of fundamental principles enshrined in the CPR. It underpins the subsidiarity principle by engaging different partners be it social, economic or local authorities. The partnership principle applies to all CPR Funds alike. It should be applied at all stages of the funds' implementation process, from programming to implementation, monitoring and evaluation, in line with the European Code of Conduct on Partnership (ECCP) established in the Commission Delegated Regulation no 240/2014 and that continues to apply to 2021-2027. All CPR DGs (and AGRI) agreed to set up a CPR-wide European Community of Practice on Partnership, involving MAs, economic and social partners, civil society organisations and other relevant stakeholders relevant to all funds. In order to reduce the burden for all involved DGs, it is proposed to use AMI experts to run the secretariat of this Community to support the Commission.	ERDF	110.500	Objectives are derived from European Code of Conduct: it is to facilitate exchange of practices on partnership during the programming and implementation of EU funds. In addition, the Community will work on possible update of European Code of Conduct for 2021-2027 as there is a delegation in the CPR to adopt Delegated Act on Code of Conduct.	AMI List	Expert contract

22CPR092	Analysis data summaries Financial Instruments	To analyse information on financial instruments co-financed by cohesion policy under the 2014-2020 perspective submitted by managing authorities and check internal consistency of the information submitted, as well as consistency with other information provided by the Member States on financial instruments in order to identify potentially inconsistent, incoherent and implausible information. On the basis of corrected information, draft annual summaries of data will be prepared.	ERDF	89.352	The objective is to assist the Commission in identification of possible data quality issues in information submitted by the managing authorities and to prepare draft annual summary, which would address where possible such shortcomings and provide summary of progress of financial instruments by the end of the preceding year. The Commission will use the draft as the basis for the annual summaries, possibly modifying it or supplementing it with additional information. It contributes to Specific objective 3.1 "Full and effective use of funds" of the draft REGIO Strategic Plan 2020-2024 and its result indicator 3.1.2: "Amount invested into financial instruments, including Invest EU". As the data is broken down by thematic objective, the report will capture useful information on contribution of financial instruments to climate action (TO4) as well as actions under REACT-EU which are linked to COVID-19 crisis.	Procurement	Statistics and Data Collection	
22CPR093-C	Effect of the FIs on SMEs competitiveness and the eco-system	The scope of the action is to support the implementation of financial instruments in the Member States and to prepare evidence for the use of FIs in post-2027 period.	REACT-EU	500.000	Support to revenue-generating or costs saving investments should be mainly done through financial instruments. This action aims to support Member States in this respect and to obtain evidence on the efficiency of the use of FIs to support SMEs competitiveness.	Indirect Management	Study	
22CPR094	Assistance to closure of 2007-2013 IPA I Component III programmes in Turkey	Assistance to closure of 2007-2013 IPA I Component III programmes in Turkey	ERDF	88.000	Supporting AOSD management declaration	Procurement	Technical and other administrative assistance to MS	
22CPR095	Strategic coordination of the EUSAIR	To provide technical support to REGIO, acting as the strategic coordinator of the EUSAIR	ERDF	250.000	To help delivering on 'A Stronger Europe in the World' objective through the EUSAIR, in particular with regard to important political files like the EU Enlargement Agenda, the Investment Plan for the Western Balkans (in particular the Green and Connectivity Agenda for the WB) or the post-recovery process. The Commission and the EUSAIR stakeholders should receive assistance to modernise the Strategy and to strengthen its visibility.	Procurement	Technical and other administrative assistance to MS	
22CPR097	Study: organisational model of managing authorities 2000-2020	The study will provide an analysis on the evolution of the organisational model of managing authorities (excluding authorities in charge of cooperation programmes) between 2000 and 2020. In the last three programming periods, i.e. 2000-2006, 2007-2013 and 2014-2020, regulatory requirements changed and also the context, in which programmes are implemented, has evolved. Authorities have to design and implement investments taking into account synergies with other instruments and the link with others EU policies, including the EU semester. Therefore, workload and mission of a managing authority needed to be adapted. Through this study we aim to measure the impact of those changes in regional and sectoral authorities (e.g. number of staff, their competence/skill profile, use of ICT, governance models, simplification efforts, approaches to co-operation and partnership, etc).	ERDF	386.835	the action will contribute to improve understanding of strengths and weaknesses in managing authorities and to plan support measures in 2021-2027.	Procurement	Study	

22CPR097-B	Study: organisational model of managing authorities 2000-2020	The study will provide an analysis on the evolution of the organisational model of managing authorities (excluding authorities in charge of cooperation programmes) between 2000 and 2020. In the last three programming periods, i.e. 2000-2006, 2007-2013 and 2014-2020, regulatory requirements changed and also the context, in which programmes are implemented, has evolved. Authorities have to design and implement investments taking into account synergies with other instruments and the link with others EU policies, including the EU semester. Therefore, workload and mission of a managing authority needed to be adapted. Through this study we aim to measure the impact of those changes in regional and sectoral authorities (e.g. number of staff, their competence/skill profile, use of ICT, governance models, simplification efforts, approaches to co-operation and partnership, etc).	CF	68.265	the action will contribute to improve understanding of strengths and weaknesses in managing authorities and to plan support measures in 2021-2027.	Procurement	Study	
22CPR098	Support to the GU with the analysis of the functioning and impact orientation of the ITI DD	Support to the GU with the analysis, advisory, event/forum organisation and other activities in relation to the functioning and impact orientation of the Integrated Territorial Investment in the Danube Delta (ITI DD).	ERDF	76.500	This action will provide technical support to REGIO Unit E2 with the above mentioned activities. it will be based on an action of the 2021 Technical Assistance initiative that Unit E2 is foreseeing under the ToR "Support the Romanian unit in evaluating the governance and the progress in the implementation and performance orientation of the Danube Delta ITI during the period of 2014-2021" (ToR in preparation). It will directly contribute to the REGIO Strategic Planning 2014-2020, SO 3.1: "Full, effective and compliant use of funds to strengthen economic and territorial cohesion" and the strengthening of REGIO's approach of performance oriented cohesion policy. The action is primarily aimed at a less developed region, the Danube Delta is located in the South East Region of Romania (NUTS II). Other less developed regions will also have the possibility to benefit from the results.	AMI List	Expert contract	
22CPR098-B	Support to the GU with the analysis of the functioning and impact orientation of the ITI DD	Support to the GU with the analysis, advisory, event/forum organisation and other activities in relation to the functioning and impact orientation of the Integrated Territorial Investment in the Danube Delta (ITI DD).	CF	13.500	This action will provide technical support to REGIO Unit E2 with the above mentioned activities. it will be based on an action of the 2021 Technical Assistance initiative that Unit E2 is foreseeing under the ToR "Support the Romanian unit in evaluating the governance and the progress in the implementation and performance orientation of the Danube Delta ITI during the period of 2014-2021" (ToR in preparation). It will directly contribute to the REGIO Strategic Planning 2014-2020, SO 3.1: "Full, effective and compliant use of funds to strengthen economic and territorial cohesion" and the strengthening of REGIO's approach of performance oriented cohesion policy. The action is primarily aimed at a less developed region, the Danube Delta is located in the South East Region of Romania (NUTS II). Other less developed regions will also have the possibility to benefit from the results.	AMI List	Expert contract	

22CPR101	Support the unit in programming of the upcoming instruments	During 2022, Unit E2 would like to use the expertise of AMI experts for different deliverables for RO to support the GU in the 21-27 programming and implementation. The types of deliverables would - for example - include: supporting Romania to make use and set up financial instruments, analysis and expert advice on the design of methodologies for Simplified Cost Options and State Aid. Precise timing will depend on the overall workload and human resource constraints.	ERDF	85.000	It is expected that the proposed deliverables will contribute to improved programming and implementation of the RO programmes under E2 responsibility, as well as to mainstream the use of financial instruments in the next programming period. They will include analysis, mapping, data collection, best practices from other MS, support in setting financial instruments, etc. The support will address less developed regions in significant proportion.	AMI List	Expert contract	
22CPR101-B	Support the unit in programming of the upcoming instruments	During 2022, Unit E2 would like to use the expertise of AMI experts for different deliverables for RO to support the GU in the 21-27 programming and implementation. The types of deliverables would - for example - include: supporting Romania to make use and set up financial instruments, analysis and expert advice on the design of methodologies for Simplified Cost Options and State Aid. Precise timing will depend on the overall workload and human resource constraints.	CF	15.000	It is expected that the proposed deliverables will contribute to improved programming and implementation of the RO programmes under E2 responsibility, as well as to mainstream the use of financial instruments in the next programming period. They will include analysis, mapping, data collection, best practices from other MS, support in setting financial instruments, etc. The support will address less developed regions in significant proportion.	AMI List	Expert contract	
22CPR104	Procurement methodological challenges & opportunities for Interreg IPA Programmes	In complement of Interact's general guidance, identification of practical challenges for the post 2020 Interreg IPA programmes, in particular with regard to public procurement (chapter 5 & PRAG mainly), simplified financial instruments and irregularities.	ERDF	88.000	Procurement by the beneficiaries should follow the Financial Regulation for the whole programme area (i.e both on the Member State and IPA beneficiary). In this context, the use of PRAG may be envisaged but remains optional. In practice, only Romania (RO-RS MA) and Hungary (HU-RS MA) have opted for a single set of procurement rules for the entire eligible area. For the post 2020, Romania even envisages a single set of rules applying to all ETC and IPA CBC programmes. The RO MA sees three main advantages: building trust between beneficiaries, ensuring equal treatment and favouring the same pace of project implementation. The solution proposed by the Romanians presents some clear advantages but might not fit to all situations. The study should help to identify the practical challenges and the areas of simplification and streamlining, and proposes mitigation measures for both primary and secondary public procurement procedures.	Procurement	Technical and other administrative assistance to MS	
22CPR105	SCOs and FNLTC in practice in the IPA countries	Get prepared for the use of SCO and FLNLT in IPA countries	ERDF	75.000	Simplified Costs Options (SCOs) and Financing Not Linked to Costs models (FNLTC) have not been used in the IPA countries yet. In the perspective of the accession negotiations and the implementation of the future Cohesion Policy, work on the calculation methodology should be initiated, sometimes with the involvement of Audit Authorities (for the validation). This work will be also important for the future use of Small Project Funds and the management of micro projects for Interreg IPA programmes.	Procurement	Study	
22CPR106	Annual Macroregional Strategies Fora for EUSAIR	Supporting Bosnian Presidency of the EUSAIR (1st June 2022 – 31st May 2023) through an operating grant: Organizing the 8th EUSAIR Forum and other vents in the context of the BiH Presidency	ERDF	250.000	The main objective of this action will be to raise visibility of the EUSAIR, taking stock of the progress and the achievement since the 7th Forum to be held in Tirana in May 2022. Moreover, taking into account the consequences of the pandemic COVID-19, it will aim at providing political guidelines for future, related work within the AII / EUSAIR region.	Grant: direct award	Meetings and Conferences	100

22CPR107	SLA with DGT	charge-back type of translations to be provided by DGT	ERDF	178.500	this action is in support of the delivery on Commission priorities	Procurement	Translations	
22CPR107-B	SLA with DGT	charge-back type of translations to be provided by DGT	CF	31.500	this action is in support of the delivery on Commission priorities	Procurement	Translations	
22CPR108	Organisation of the annual event: EU Macro-regional strategies Week	Organisation of the annual EU macro-regional strategy week in Brussels in 2023: "MRS Week" organised by DG REGIO has developed into an annual event that gathers all key MRS implementers and stakeholders from across the four EU MRS in Brussels. It is the prime annual event in the "MRS world" where everyone with a role in the process participates.	ERDF	200.000	The objective of this TA initiative is to create a platform for MRS stakeholders, contributing to Specific objective 3.5: Effective sustainable urban and territorial development strategies involving local stakeholders and citizens of the REGIO Strategic Plan 2020-2024. It helps to support territorial, economic and social cohesion in Europe through the implementation of the four macro regional strategies (MRS), i.e. the EU Strategies for the Baltic Sea Region, for the Danube Region, for the Adriatic and Ionian Regions and for the Alpine Region. These strategies provide integrated frameworks to address together across borders common challenges faced by a defined geographical area. The strategies cover a wide range of different EU policies and aim to coordinate the efforts of various actors at all governance levels to promote a more balanced development of the macro region.	Procurement	Meetings and Conferences	
22CPR109	Simplified financial instruments for the Interreg IPA programmes	The study should identify and summarise the financial instruments most tailored to Interreg IPA programmes through mapping the ones developed by the MS in implementing the ERDF and the CF in the 2007-2013 and 2014-2020 programming periods.	ERDF	75.000	For the 2021-2027 period, programmes have been encouraged to envisage the use of financial instruments in specific areas (support to businesses, energy efficiency, etc.), possibly in combination with a grant component. Potential barriers include: the need for a critical mass, insufficient capacity of the MA, state aids rules, selection of fund of funds managers and financial intermediaries. The study should identify and summarise the financial instruments most tailored to Interreg IPA programmes through mapping the ones developed by the MS in implementing the ERDF and the CF in the 2007-2013 and 2014-2020 programming periods. The contractor should also provide IPA programme-specific recommendations and discussion elements for REGIO.D1 in the context of the implementation of Programmes for the 2021-2027 programming period. This action will complement TA and ISO1 (where available) activities of the Interreg IPA programmes, and Interact programme's general guidance.	Procurement	Study	

22CPR110	Fraud prevention actions for Interreg IPA programmes	In line with the Joint Anti-Fraud Strategy for 2020 – 2025, the action should help all Interreg IPA programmes to strengthen their fraud prevention actions, such as support to update of risk assessment, anti-fraud policies and systematic use of IT tools.	ERDF	60.000	REGIO together with EMPL and MARE adopted in December 2019 an updated Joint Anti-Fraud Strategy for the period 2020 – 2025 (Ares(2019)7845154). It sets out a series of capacity building measures including fraud prevention actions, such as support to update of risk assessment, anti-fraud policies and more systematic use of IT, to be implemented in cooperation with the programme authorities, and internally, in close cooperation with OLAF. Considering that Interreg IPA programmes involve IPA countries, which might present sometimes some set-up fragility, which do not meet accession negotiation chapter 32 requirements yet and which have to apply a combination of ERDF and IPA requirements, REGIO.D1 considers that all the Interreg IPA programmes should be considered for further action on capacity building, risk analysis and proportionate anti-fraud policies. This action aims at "operationalising" available general guidance in an IPA legal context.	Procurement	Technical and other administrative assistance to MS
22CPR111	Assessing stakeholders' engagement and the partnership principles in the IPA countries for future ES	Administrative capacity has been identified as a fundamental factor behind the performance of EU funds, especially those under Cohesion Policy. Successfully managing and administering these funds rests on the effective governance of the investment process, on the administrative capacity of Managing Authorities, and on the capacities of a diverse range of stakeholders. The management of ESIF involves a complex ecosystem of actors – from multiple levels of government, to private firms and non-profit entities. Clear, evidence-based strategies are essential to intelligently direct ESIF to where they are most needed and likely to have a positive impact; effective co-ordination and communication among actors, including beneficiaries, is necessary to ensure the maximum impact from the use of the Funds; and having the right skills and capacities is core to good project management. This can prove challenging and the action should help alleviating related obstacles.	ERDF	125.000	The contractor should focus on the existing IPA management and control systems, and identify the administrative capacity needs and capacity-building actions necessary for each IPA country to bring their systems to a higher level of management performance within the Indirect Management system by Beneficiary Country (IMBC) and to align these systems with the broader post-accession Management and Control ecosystems, designed to support full and effective use of funds to strengthen economic, social and territorial cohesion.	Procurement	Study
22CPR112	Local governance mapping in the IPA countries	Local governance mapping in the IPA countries. These countries need particularly to strengthen regional and local institutions and overcome local governance gaps.	ERDF	125.000	The local level is the place where direct democracy and civic representation are exercised, where services are provided, and where social and economic development takes place. Local governments play a critical role in shaping and developing the social and economic life of their territories, bringing communities together, and providing local solutions to local problems. The performance of local government, and how it interacts with citizens, affects the latter's behaviour as well as cohesion and trust within and among communities; this legitimises the local government's efforts and drives sustainable development. Inadequate local governance affects all citizens, but especially the vulnerable, often enhancing exclusion. Enhancing governance, popular engagement, transparency and accountability at regional and local levels should be a fundamental policy priority for the IPA countries' governments.	Procurement	Technical and other administrative assistance to MS

22CPR113	New strategic positioning for the EUSAIR	New strategic positioning should allow to better embrace new EC priorities. It might also allow to develop partnerships and synergies with regional competitors in the Adriatic-Ionian Region like the Berlin Process, the Italian Central European Initiative, WB6, etc.	ERDF	88.000	In line with the increased IPA allocation to the post 2020 Adrion programme, the Strategy will focus more and more on the EU enlargement agenda. At the same time, the Strategy must be modernised and synchronised with the new EU priorities, in particular the green and digital transitions, and the post COVID-19 recovery process. The Strategy should also better consider the "Youth" dimension, which is its future, and should accordingly be at the core of its modernised priorities. Further to this, key ingredients of the new brand have been identified. But they need now to be transposed into a new narrative and a new brand personality.	Procurement	Communication and publication	
22CPR114	Develop EUSAIR's and Interreg IPA cultural dimensions	To communicate to citizens and EUSAIR stakeholders the results of EUSAIR and Interreg IPA programmes and their contribution to the delivery of Commission political priorities, through cultural events	ERDF	88.000	To increase awareness, interest and attractiveness of the EUSAIR and Interreg IPA programmes among internal and external stakeholders and citizens through cultural activities in Brussels and in the Western Balkans.	Procurement	Communication and publication	
22CPR115	D1/D2 Digital Communication Strategy	The action consists in promoting Interreg and MRS on social media according to the digital campaign around the novelties of the 2021-2027 period.	ERDF	147.075	The objective of the action is to reach out to European and non European citizens about ETC Interreg / Macro Regional Strategies actions through sponsored publication on social media. This contributes to raise awareness about cohesion policy and cooperation actions across the borders.	Procurement	Communication and publication	
22CPR116-C	AMI list expert support	Short term expertise for the inclusive growth and urban and territorial fields related to implementation of programmes	REACT-EU	300.000	3-6 AMI list experts to support the 2021-2027 programming period as well as possible studies on how to address the impact of covid-19 in the following fields: - inclusive growth (e.g. health, education, deinstitutionalization, tackling segregation in education and housing, accessibility, collection of good practices). - urban and territorial development, NEB, Urban Agenda, Territorial Agenda. This would also include assistance for the preparation of Urban Development Network activities (e.g. shaping the programme and preparing (web)events, identifying pertinent topics, good practices and speakers, moderating sessions etc.).	AMI List	Expert contract	
22CPR117	Introduction and setting up of an Integrity Pacts in ITI Danube Delta	This action will assist the Unit E2 in a wider introduction of the Integrity Pacts (IPs) into ITI mechanisms in Romania (eg. ITI Danube Delta) in order to monitor the implementation of Integrated Territorial Investments (ITI) by supervising procurement and project selection processes hence reducing the potential risks of irregularities and corruption. It is our intention to pilot the IP into the currently difficult implementation of ITI DD while negotiating with the RO authorities on a wider use of IPs across the 2021-2027 programmes.	ERDF	170.000	The objectives of this action will be to increase transparency, accountability and good governance in public contracting, to enhance citizens' engagement and trust in public authorities and contribute to their better reputation, to improve administrative capacity and skills, increase competition and promote cost efficiency and savings through better procurement. These objectives would contribute to the REGIO Strategic Plan 2020-2024, Part 2, Points B and C: Sound Financial Management and Fraud Risk Management.	Grant: direct award	Technical and other administrative assistance to MS	100

22CPR117-B	Introduction and setting up of an Integrity Pacts in ITI Danube Delta	This action will assist the Unit E2 in a wider introduction of the Integrity Pacts (IPs) into ITI mechanisms in Romania (eg. ITI Danube Delta) in order to monitor the implementation of Integrated Territorial Investments (ITI) by supervising procurement and project selection processes hence reducing the potential risks of irregularities and corruption. It is our intention to pilot the IP into the currently difficult implementation of ITI DD while negotiating with the RO authorities on a wider use of IPs across the 2021-2027 programmes.	CF	30.000	The objectives of this action will be to increase transparency, accountability and good governance in public contracting, to enhance citizens' engagement and trust in public authorities and contribute to their better reputation, to improve administrative capacity and skills, increase competition and promote cost efficiency and savings through better procurement. These objectives would contribute to the REGIO Strategic Plan 2020-2024, Part 2, Points B and C: Sound Financial Management and Fraud Risk Management.	Grant: direct award	Technical and other administrative assistance to MS	100
22CPR118	The use of CLLDs and LAGs in territorial cooperation programmes	The Interreg units would like to promote more direct involvement of local stakeholders/communities in cooperation programmes and activities. In order to do this effectively, D2/D1 would need to have a report on (1) involvement of Local Action Groups in cooperation in the past and current Interreg programmes, (2) the type of activities supported for these LAGs and (3) an analysis of the 4 cross border CLLDs implemented by the CBC programme Italy-Austria to extract good practices.	ERDF	59.700	Contract expertise to examine the involvement of Local Action Groups or similar community-based organisations in territorial cooperation activities (CBC/TN). Understand how the current CLLDs operate on the Italian-Austrian border and extract from that good practices that can be shared with the wider Interreg community in the short-term and how it can lead to more uptake of local community activities within Interreg in the future. Prepare proposals for the post 2027 Interreg legal framework.	AMI List	Expert contract	
22CPR119	Promote stakeholders' participation in Border Focal Point activities	Assistance to Unit D2 and the Border Focal Point to engage more widely with border stakeholders, notably through the use of the existing futurium platform and social media campaigns. Procure the help from a communications team to animate the "Border Focal Point Network" platform and to promote events and publications. The statistics show that engagement with the platform increases significantly when events are organised/promoted, or through social media activity. Current human resources within the unit do not allow this to happen systematically and regularly. An external team can support this process more effectively, as is obvious from a similar contract which is currently running (due to end September 2022). Unit D2 would like a seamless transition between the two contracts.	ERDF	200.000	To keep the level of support currently received by the external contractor to boost the use of the 'BFP Network' platform on Futurium. To improve communication efforts in the context of the implementation of the BFP action plan, especially following the publication of the Commission report "EU border regions: living labs of European integration".	Procurement	Communication and publication	
22CPR121	Catching-up region initiative (CuRI) in Slovakia	Catching-up Regions Initiative (CuRI) in Slovakia identifies constraints to growth in the three least developed regions and provides hands-on technical assistance for unlocking their development potential. It provides a tailor-made support for the investments related to Cohesion Policy funds.	ERDF	2.400.000	The Initiative contributes REGIO's Strategic Plan 2020-2024, in particular to objective 3: An economy that works for people. It supports Member State in the efforts by providing technical support and measures aimed at administrative capacity building as well as measures for strengthening economic, social and territorial cohesion. It covers the three least developed regions - Prešov, Banská Bystrica and Košice.	Indirect Management	Technical and other administrative assistance to MS	
22CPR123	Organisation of second meeting of the European Community of Practice on Partnership	The European Community of Practice on Partnership was included in the Commission Delegated Regulation no 240/2014 - this regulation continues to apply for 2021-27 period. All CPR DGs and DG AGRI agree to revive this forum for 2021-27 period.	ERDF	144.500	This action aims to support organisational costs for the 2nd meeting of the ECOPP	Procurement	Meetings and Conferences	

22CPR123-B	Organisation of second meeting of the European Community of Practice on Partnership	The European Community of Practice on Partnership was included in the Commission Delegated Regulation no 240/2014 - this regulation continues to apply for 2021-27 period. All CPR DGs and DG AGRI agree to revive this forum for 2021-27 period.	CF	25.500	This action aims to support organisational costs for the 2nd meeting of the ECoPP	Procurement	Meetings and Conferences	
22CPR124	WB The green transition in less developed regions	This action will develop analytical tools and policy recommendations with regard to opportunities of the green transition in less developed regions.	ERDF	850.000	This action will produce data, tools and one or more reports on the green transition.	Indirect Management	Study	
22CPR124-B	WB The green transition in less developed regions	This action will develop analytical tools and policy recommendations with regard to opportunities of the green transition in less developed regions.	CF	150.000	This action will produce data, tools and one or more reports on the green transition.	Indirect Management	Study	
22CPR125	WB Business environment study	This action will measure the quality of the business environment in EU regions.	ERDF	8.100.000	This action will produce quantitative indicators of the business of environment at the regional or urban level.	Indirect Management	Study	
22CPR125-B	WB Business environment study	This action will measure the quality of the business environment in EU regions.	CF	1.200.000	This action will produce quantitative indicators of the business of environment at the regional or urban level.	Indirect Management	Study	
22CPR126	Onboarding and operations eGrants (I3 + Media call)	REGIO part in development and maintenance of eGrants	ERDF	285.089	REGIO part in development and maintenance of eGrants	Procurement	IT	
22CPR127	Support for Rural Pact	Regular exchanges, information, and networking on the LTVRA, supported by a webpage and series of regular events.	ERDF	248.458	Rural Pact will mobilise public authorities, and stakeholders to act on the needs and aspirations of rural residents. The Pact will take the form of a platform boosting exchanges on policy initiatives implemented at different levels of governance to support rural areas. It will encourage a bottom-up elaboration of synergies and mechanisms that promote place based approaches in terms of rural development. It will allow adaptation of the Commission Rural Action Plan and contribute to the delivery of the LTVRA.	Procurement	Meetings and Conferences	
22CPR128	The tool kit on EU funding opportunities for rural areas	Toolkit aimed at centralising information in one document, providing inspirational solutions and examples to trigger revitalisation complemented by stakeholder engagement and outreach.	ERDF	750.000	Toolkit will facilitate access to, and optimal combination of, EU funding opportunities for rural areas. It will be complementary to handbook on SUD and territorial development currently prepared under AA with JRC.	Administrative Agreement	Communication and publication	
22CPR129	New European Bauhaus - 2022 contest	Place holder for prize money to award to winners of the New European Bauhaus - 2022 contest	ERDF	345.000	Place holder for prize money to award to winners of the New European Bauhaus - 2022 contest	Prize	Technical and other administrative assistance to MS	
22CPR131-B	Innovative implementation of partnership principle	Building on the experiences of the two pilot actions supporting 5 managing authorities and 15 civil society organizations for engaging citizens in the implementation of cohesion policy, this action will promote a truly participatory process in Member States and regions and meaningful implementation of the partnership principle. Support will be provided to innovative initiatives bringing local actors, communities, civil society and citizens together and strengthening their role in the implementation of the investments supported under both cohesion policy and the Just Transition Fund (JTF).	CF	150.000	The Project's primary objectives are to strengthen the partnership between public authorities and CSOs and to support an active participation of citizens in cohesion policy	Indirect Management		

22CPR131-C	Innovative implementation of partnership principle	Building on the experiences of the two pilot actions supporting 5 managing authorities and 15 civil society organizations for engaging citizens in the implementation of cohesion policy, this action will promote a truly participatory process in Member States and regions and meaningful implementation of the partnership principle. Support will be provided to innovative initiatives bringing local actors, communities, civil society and citizens together and strengthening their role in the implementation of the investments supported under both cohesion policy and the Just Transition Fund (JTF).	REACT-EU	850.000	The Project's primary objectives are to strengthen the partnership between public authorities and CSOs and to support an active participation of citizens in cohesion policy	Indirect Management		
22CPR134	New European Bauhaus - festival	Amount to be delegated to RTD for the organisation of the Bauhaus festival	ERDF	1.000.000	Amount to be delegated to RTD for the organisation of the New European Bauhaus Festival.	Procurement	Meetings and Conferences	
22CPR135	New European Bauhaus - organisation of the 2022 contest	To organise the 2022 contest for the New European Bauhaus Prizes.	ERDF	955.000	To organise the 2022 contest for the New European Bauhaus Prizes	Procurement	Meetings and Conferences	
22CPR138	Assesment of framework conditions for the effective delivery of cohesion policy in Hungary	The expert is expected to assist DG REGIO in the negotiations for the 2021-27 cohesion policy programming of Hungary. To this aim, the main objective of the assignment is to support DG REGIO with a strategic assessment and recommendations aimed at improving the planned measures in the cohesion policy programming documents (in particular the IOP Plus and the ACB Roadmap) of Hungary for the 2021-27 period. The secondary objective of the assignment is to support DG REGIO with the preparation of a ready-to-use framework to monitor the implementation of recommendations during the whole programming period.	ERDF	15.000	To get, at the beginning of the 2021-27 programming period, a comprehensive picture of the state-of-play of the framework conditions for the effective delivery of cohesion policy in Hungary. the assistance will concentrate on the administrative capacity related issues for making the programmes a success.	AMI List	Expert contract	
22CPR139-C	Interreg Annual Event	This is the yearly gathering of all Interreg programmes: Interreg CBC, Interreg TN, Interreg inter-regional, Interreg outermost, Interreg IPA and Interreg NEXT (96 programmes for 21-27). Once a year, every year, DG REGIO invites the Managing Authorities and Joint Secretariats of all the programmes for a capacity-building, exchange of view moment.	REACT-EU	299.927	The action aims primarily at improving the management of the Interreg programmes, by providing information and training to programme authorities. It also allows trust to be built between the Commission services and the programme authorities, which in a share management context, is an important ingredient for success.	Procurement	Meetings and Conferences	
22CPR141-C	Youth4Cooperation Village	The Youth4Cooperation Village will be an event organised alongside the Interreg Annual Event to wrap up all the cooperation activities that have taken place in the framework of the European Year of Youth. A series of events and initiatives will be implemented during the year - and the village will bring together key players to showcase opportunities for young people to engage in Interreg and other territorial cooperation programmes and initiatives.	REACT-EU	200.000	The action contributes to the DG REGIO's response to the Commission activities organised in the framework of the European Year of Youth. It complements other activities under the label "Youth4Cooperation" on the one hand, and additional activities such as Green4Teens or engaging young people in the outermost regions or depopulating regions.	Procurement	Meetings and Conferences	

22CPR142-C	Raising awareness on the Youth Manifesto in the Western Balkans	2022 is the European Year of Youth and Tirana is the European Youth Capital. In this framework, DG REGIO intends to raise awareness on the recommendations of the Manifesto for Young People by Young People to Shape the European Cooperation Policy (Youth Manifesto) among the Interreg IPA programme authorities, potential beneficiaries and EUSAIR Stakeholders. The project will be realized by creating the occasion for young people to meet and discuss through workshops, visits and meetings with Interreg IPA authorities and projects, communication actions, video-making, interviews etc.	REACT-EU	94.985	Specific objective 3.5: Effective sustainable urban and territorial development strategies involving local stakeholders and citizens. The objective is to increase the participation of young people in Interreg IPA programmes and EUSAIR governance. The action contributes to the DG REGIO's response to the Commission activities organised in the framework of the European Year of Youth. The Action is complementary with the EUSAIR Annual Forum 2022 (Tirana) and Tirana European Youth Capital.	Procurement	Meetings and Conferences	
22CPR143-C	Grant aimed at promoting youth participation during the European Year of Youth	The EU outermost regions face a number of permanent constraints linked to their remoteness, small size, vulnerability to climate change and insularity. The situation of youth is a cause of serious concern, with alarming levels of youth unemployment, low education or training, high percentage of young people not in employment, education or training, early school leavers and brain drain. To empower and mobilise youth, the selected beneficiary will provide small grants to young people, to empower them to carry out projects that have a positive impact at local level. these young people (teens) are between 15 and 24 years old-that are residents in one of the nine EU outermost regions.	REACT-EU	1.000.000	In the context of the European Year of Youth, the aim of the grant is to empower and mobilise youth. They can become agents of change, entrepreneurs and innovators in their local communities in the aftermath of the COVID-19 crisis. The grant will be aligned with EUTEENS4GREEN.	Grant: open call for proposals		95
22CPR145-C	Platform on brain drain issue within the EU.	This action aims at supporting the creation of a platform for 4 years, from 2023 until 2026 included, in relation to the Commission Communication on brain drain that is expected to be adopted towards the end of 2022. The objective of the platform is to support regions experiencing brain drain, providing all interested authorities and stakeholders with a single access point for advisory support and examples of good practices in designing and implementing strategies tackling brain drain. The platform would encourage exchange of knowledge and experiences and support the organisation of events and communication activities for visibility purposes.	REACT-EU	6.500.000	- providing advisory support to authorities and stakeholders - gathering data, knowledge and practices for the design and the implementation of strategies - organising events - carrying out communication activities for visibility purposes The action contributes to the achievement of the Commission's general objectives: 2) A Europe Fit for the Digital Age and 3) An economy that works for people.	Procurement	Technical and other administrative assistance to MS	
22CPR147-C	URBELAC MEETING	The URBELAC network was created in November 2010 on the basis of the interest held by both DG REGIO and the Inter-American Development Bank (IDB) to promote sustainable development in cities in the two regions – Europe and Latin America – by establishing networks and encouraging the various public players, with their similar problems, to exchange experiences, best practice and lessons learnt in relation to sustainable and integrated urban policies and measures. The current fifth edition of the network focuses on the important theme of inclusion of migrants and refugees. Following three virtual preparatory meetings in 2021, this will be the first in-person meeting.	REACT-EU	120.000	The objective of the meeting are (1) to provide networking opportunities to participating cities to progress in the preparation of joint projects, (2) to pool innovative policy solutions for which participating cities can learn and (3) to exchange knowledge and good practices on the theme of inclusion of migrants and refugees	Procurement	Meetings and Conferences	

22CPR148	Danube Youth Council Pilot Action	<p>This application for Technical Assistance aims at strengthening the EUSDR core governance through the establishment of a Danube Youth Council, made up of two young people between 18 and 29 years old from each Danube Region country. The establishment of a Danube Youth Council is to support the mainstreaming of youth policies in the EUSDR governance and participating states. The objective of the NYC is to serve as a catalyst for dynamic exchange and learning processes between EUSDR core stakeholders and young people from the Danube Region. The NYC will further support EUSDR communication and serve as a platform for capacity building and cooperation for young people in the Danube Region.</p> <p>In this way, the proposed pilot action will contribute to the EUSDR strategic objective Enhancing Democracy, sound Administration and strong Involvement of Civil Society and Youth, as laid out in the EUSDR Action Plan (2019), p.6.</p>	ERDF	194.569	<p>The main objective of the action is to create and launch Danube Youth Council through:</p> <ol style="list-style-type: none"> 1) Danube Youth Camp; 2) Participation at the 11th EUSDR Annual Forum in Ukraine; 3) NYC participation at European Youth Conference 2022 in Tirana; 4) NYC participation at EUSDR core stakeholder meetings (NC, NC-PAC and PAC meetings); 5) NYC participation at Young Bled Strategic Forum; 6) Participation at international events relevant for the NYC; 7) Danube Youth Camp 2; 8) Optional: NYC participation at the EUSDR Annual Forum 2023, should the EUSDR Annual Forum 2022 not be held. <p>These actions are complementary to TA support to EUSALP Youth Council, TA support for Raising awareness on the Youth Manifesto in the Western Balkans, as well as all the actions of the EUSDR financed by the partner states from the Danube Region. The action includes support to young people from from the Western Balkans: Montenegro, Bosnia and Herzegovina and Serbia, as well as NDICI countries: Ukraine and Moldova.</p>	Grant: direct award	Technical and other administrative assistance to MS	95
22CPR150	REGIO stand at BERL during Europe Day	REGIO participation to the Open Doors on the occasion of Europe Day, by means of a stand dedicated to the New European Bauhaus, as part of the Green Village at BERL (village coordinated by RTD).	ERDF	50.000	Raise awareness among the general public on cohesion policy contribution to the Green Deal, in particular in the context of the New European Bauhaus	Procurement	Communication and publication	
22CPR151	Functional areas in the EU	<p>The action aims to provide tailor made technical support on the ground to selected functional areas (FA) to enhance their capacity to plan, finance and implement across jurisdictional boundaries public investments supported by EU funds. Through this action, the World Bank (WB) in cooperation with national and local authorities will also develop a methodological toolkit that will offer set of tools for other FA in the EU.</p>	ERDF	1.000.000	<p>This action will complement and extend the existing Agreement with the WB to organise a call, select 2 FA and provide technical support to enhance their capacity. The number and quality of the applications received in the call, and the interviews conducted through selection process, demonstrated a strong interest from authorities in FA approaches, and in the project as such.</p> <p>In order to keep the momentum of this interest and to promote further FA approaches for green transition and sustainable development in EU Member States where this is less mature, EUR 1 million budget increase is proposed to the original action, allow the WB to increase the number of selected FA from 2 to 12 and add additional activities for structured knowledge exchange with other FA, in particular those that expressed interested to participate, but were not selected as the final beneficiaries.</p> <p>It will also allow to extend the duration of the project with 1 year.</p>	Indirect Management	Technical and other administrative assistance to MS	

22CPR153-C	Transition activities under PO2	<p>MS have been raising questions on how to integrate the European Green Deal (EGD) into programmes. The needs expressed refer both to managing the overall transition to a climate-neutral and circular economy by 2050, as well as to identifying future-proof investments in specific areas (sustainable energy, circular economy, climate change adaptation, urban greening, etc.). Several issues and bottlenecks are invoked, including a lack of knowledge and capacity.</p> <p>The 2021-2027 cohesion policy will be an enabler of the EGD, by investing in the necessary technological and social innovations, by facilitating their roll-out across Europe while helping to phase-out unsustainable practices, and by making sure that no region is left behind. This means that both PO1 and PO2 will contribute significantly to the achievement of the EGD on the ground. Programming discussions are also expected to stimulate national and regional authorities to reflect concretely on how to implement the goals of the EGD.</p>	REACT-EU	1.500.000	<p>The overall aim of this action is to reinforce MS and regions' capacities to translate the objectives of the EGD into the 2021-2027 programmes, in PO1 and PO2, contributing to specific objectives 1.1 and 1.2 of the REGIO SP.</p> <p>Possible tasks include translating results of existing studies on the transition to a climate-neutral and circular economy (by Commission and others) into cohesion policy investments, tailored support to link PO1 and PO2 for the purpose of contributing to the EGD, preparing training packages for Managing Authorities on specific operational issues (e.g. implementing nature-based solutions, designing circular economy investments), or advising on how to manage long-term transitions in the context of cohesion policy. This can lead to sectorial and geographic state-of-play, options and recommendations, delivered through written documents (reports, fiches, synthesis documents). These outcomes can then feed specific dedicated events.</p>	Procurement	Technical and other administrative assistance to MS	
22CPR154-C	Top up to existing contract 2021CE16BAT073	<p>Request to amend contract for following reasons: (i) the negotiations process both at the national level and with Polish regions being more time-consuming and more complex than initially envisaged, (ii) to incorporate takeaways from assessment of 2021-27 programmes, and (iii) to increase the chance of better implementation of new programs by incorporating some of the identified good practices.</p>	REACT-EU	26.000	<p>in addition to existing elements of contract</p> <p>1.To finalize assessment of PO1 interventions for all 16 regional programmes; a.To participate in a number (up to 8) of negotiations meetings with selected regions, additional follow-ups, comments or suggestions to program designs (up to 4) to strengthen potential impact (...)</p> <p>5.Come up with a toolbox for dissemination of good practice among Polish authorities. a.Identify 2-3 regions for adoption of one identified good practice each b.Work with selected regions on detailed implementation programming of identified good practices c.Design a presentation for all regions highlighting specific implementation mechanisms developed for a set of selected good practices as well as more synthetic description of the remaining good practices d.Prepare a document for the national-level MA with implementation recommendations on good practices for the national level</p>	AMI List	Expert contract	
22CPR156-C	Expert advice on the 4th report on the implementation of Macro-Regional Strategies	<p>To monitor and assess the MRS' state of implementation process and main results, the Council requested the Commission to prepare, every two years, a Report on the Implementation of EU Macro-Regional Strategies which will be addressed to the EP, the Council, the CoR and the EESC. Based on the Council's requirements regarding the fourth Report on MRS, the purpose of this action is to provide REGIO D1 expert advice on the content, on the structure of the Report and its accompanying Staff Working Document (SWD).</p>	REACT-EU	23.000	<p>MRS cover various policy levels impacting all 2020-2024 Commission priorities. However, special focus will be drawn on the EU Green Deal and the Green Deal for the Western Balkans, support to Ukraine for a stronger EU in the world, and the EU enlargement process. The fourth report on the implementation of the MRS and its accompanying SWD and the following Council conclusion will provide important guidance for the way ahead of all MRS to become more resilient, greener and more digital to cope with shared challenges.</p>	AMI List	Expert contract	

22CPR157-C	Good Governance for EU Regional Policy: a series of events for managing authorities	A series of events under the heading 'Good Governance for EU Regional Policy' that brings together managing authorities for exchange and inspiration on topics related to administrative capacity building. One of the events will be organised in Brussels as an in person or hybrid event. This initiative builds on the positive experiences of the series of four virtual events organised in February and March 2022.	REACT-EU	300.000	The action contributes to specific objective 3.1 of the REGIO Strategic Plan 2020-2024, i.e. full, effective and compliant use of funds to strengthen economic, social and territorial cohesion. It is complementary to support provided by Member States through technical assistance at their disposal. The action is partly aimed at less developed regions.	Procurement	Meetings and Conferences	
22CPR158-B	UN Implementing the Degree of Urbanisation	This action will help developing countries to apply the degree of urbanisation and produce SDG indicators by degree of urbanisation.	CF	300.000	This action contributes to a Stronger Europe in the World	Indirect Management	Study	
22CPR158-C	UN Implementing the Degree of Urbanisation	This action will help developing countries to apply the degree of urbanisation and produce SDG indicators by degree of urbanisation.	REACT-EU	1.700.000	This action contributes to a Stronger Europe in the World	Indirect Management	Study	
22CPR159-B	JRC RHOMOLO	This action will finance the development and maintenance of the regional economic model RHOMOLO.	CF	270.000	This action will be used to support the ex-post evaluation, the impact assessment and the cohesion report .	Administrative Agreement	Statistics and Data Collection	
22CPR159-C	JRC RHOMOLO	This action will finance the development and maintenance of the regional economic model RHOMOLO.	REACT-EU	1.530.000	This action will be used to support the ex-post evaluation, the impact assessment and the cohesion report .	Administrative Agreement	Statistics and Data Collection	
22CPR160-C	Assessing administrative capacity at regional and local level in Southern Europe	Administrative capacity in the southern countries of the EU is often a main obstacle to the effective and smooth use of cohesion policy funds. This capacity is particularly weak at the level of the beneficiaries, notably municipalities. The reasons may be linked to the quality and quantity of the personnel, to the procedures which govern the use of the funds, to the coordination with national resources, to the functioning of the tax system, or to the absence of a performance culture. Understanding the key factors explaining such weaknesses is the necessary step for identifying the right measures to address them.	REACT-EU	400.000	The study will examine a series of factors determining the quality of governance of public funds at regional and local level in the countries of southern Europe: from budgetary management, to environmental sustainability, from human resources management to public procurement, from the delivery of public services to the interaction with civil society. The objective is to identify the main variables explaining administrative weaknesses within countries at subnational level.	Procurement	Study	
22CPR161	Support to EUSALP 2022 Italian Presidency	The Autonomous Provinces of Bolzano/Bozen and Trento took over this Presidency in a phase of great uncertainty and urgency. Building on the initiatives of the preceding Presidency, the Italian EUSALP Presidency 2022 will be inspired by the ambition of making the Alpine region the first European carbon neutral macro-region, in line with the EU Climate Action and the European Green Deal in the long term. The Italian EUSALP Presidency 2022, will develop its program around six areas of action: 1. Tackling climate change by promoting energy efficiency and energy transition 2. Fostering smart villages and sustainable local development 3. Youth empowerment within EUSALP 4. Deepening the collaboration with the Actions Groups 5. Guaranteeing continuity of launched initiatives: sustainable tourism and transport; cooperation on natural risk management and spatial planning, multifunctional forests 6. Strengthening EUSALP governance and embedding	ERDF	190.000	The action contributes to specific objective 3.5: Effective sustainable urban and territorial development strategies involving local stakeholders and citizens: It is complementary to the support given to Macro-Regional Strategies in the previous year; gradually phasing out the REGIO contribution. In particular, a citizen's initiative on energy poverty will be supported, highlighting the need to address disparities, even in prosperous regions.	Grant: direct award	Technical and other administrative assistance to MS	85

22CPR162-C	On demand tailored advisory tool to support the outermost regions	The Commission is committed to helping the outermost regions undertake the necessary reforms and investments, seize opportunities and synergies in EU programmes, improve administrative capacity, and is rolling out an advisory tool for this purpose. The tailored advisory tool will help individual outermost regions, on demand, shape regional development plans, reforms and investment agendas; and achieve synergies between opportunities under EU funds and programmes.	REACT-EU	500.000	Provide Outermost regions, on demand, with tailored advisory services to help develop their regional development action plans/strategies in line with the new outermost region strategy of 3 May 2022. This would include creating a website, a sort of one stop shop or "clinic", provide advice, provide experts.	Procurement	Technical and other administrative assistance to MS	
22CPR163-C	The impact of Cohesion Policy 2021-2027 in Romania	By the end of 2022, Romania's Partnership Agreement and programmes of the 2021-2027 Cohesion Policy programming period are expected to be formally adopted. The proposed action is to sponsor the participation of Romanian artists and the organization of a debate with Romanian stakeholders on the positive impact of Cohesion Policy in Romania Q4 in 2022 and Q1-Q2 2023.	REACT-EU	15.000	The objective of the action is to contribute to enhance the visibility of Cohesion Policy in Romania through artistic events and international debates, and raise the awareness of the work of DG REGIO in Romania. This action contributes to REGIO Strategic Plan 2020-2024 as an external communication action by promoting the relevance of Specific objective 3.1: Full, effective and compliant use of funds to strengthen economic, social and territorial cohesion.	Grant: direct award	Meetings and Conferences	100
22CPR165-B	OECD Placed based policies	This action will organise a series of workshop on place-based policies	CF	97.500	This action will contribute to the preparation of cohesion policy post 2027	Indirect Management	Study	
22CPR165-C	OECD Placed based policies	This action will organise a series of workshop on place-based policies	REACT-EU	552.500	This action will contribute to the preparation of cohesion policy post 2027	Indirect Management	Study	
22CPR166	Support to COM Rep in Croatia for production of 2 promotional videos of the Peljesac bridge	Transfer to the Commission Representation in Croatia for the production of two promotional videos of the Peljesac bridge, which will be opened in July.	ERDF	8.995	Communication on the results of regional policy support	Procurement	Communication and publication	
22CPR167-C	YOUSAIR - Young People for EUSAIR	The project proposal takes stock of the best practice experience of the AI Youth Games and enlarges its scope and builds on the Manifesto for Young People by Young People to Shape the European Cooperation Policy (the action replies the Manifesto recommendations n°5 on MRS and n°6 on communication). The action is divided into three activities dedicated to young Adriatic Ionian people (15 to 30 years): 1) Adriatic and Ionian Macroregion Youth Games (Sport and climate change, environmental awareness) 2) EUSAIR Boat Camp (Trainings for young people on sustainability and fostering their participation in the EUSAIR decision-making processes) 3) EUSAIR express - Youth Ambassadors (discovering the region and communicating on the EUSAIR)	REACT-EU	600.000	Increase awareness about the EUSAIR among young people. Include young people in the EUSAIR decision making processes. The action is complementary with the EU Strategy for the Adriatic and Ionian Region and with the Manifesto for Young People by Young People to Shape the European Cooperation Policy.	Grant: direct award	Technical and other administrative assistance to MS	97
22CPR168-C	Evaluation of calls in R&I, in the context of the Catching Up Regions Initiative in Romania	The action continues providing expertise and support in the implementation of measures piloted and designed under Catching-up regions initiative in Romania in the field of research and innovation. More specifically, it will provide support in project evaluation activities for calls specifically designed to tackle some of the challenges and constraints to growth in the least developed regions. It will provides tailor-made support for the investments related to Cohesion policy funds.	REACT-EU	45.000	The action contributes REGIO's Strategic Plan 2020-2024, in particular to objective 3: An economy that works for people. It is complementary to the ongoing CURI activities implemented by World Bank under administrative agreement for project "Supporting Innovation in Catching-up Regions in Romania" (RegioTA). The action is aimed at the entire territory of Romania, covering the 8 development regions, out of which seven are less developed regions.	AMI List	Expert contract	

22CPR169-C	Analysis of labour market data on the border	Analysis of labour market data in cross-border regions. This includes: i) Production of knowledge on how regional labour intelligence can be produced on a cross-border regions perspective ii) Production of specific analysis for a sample group of cross-border regions	REACT-EU	300.000	In order to obtain more and better information on the cross-border labour market (and more specifically the matches of skills and jobs across internal EU borders), the purpose of the action is to produce labour market analysis of regional labor markets in a cross-border perspective. Production of such analysis must include assessment of different sources of regional labour market data and the possibilities to use data sources from different countries in a compatible manner. This action fits into the four clusters of action indicated in the Commission Report "EU Border Regions: Living labs of European Integration" (COM(2021)393) and the 10 priorities identified in the 2017 Communication "Boosting EU Border Regions".	Procurement	Statistics and Data Collection	
22CPR170-C	Support the mainstreaming of New European Bauhaus principles in Croatia	The action aims to support the Croatian authorities to mainstream the New European Bauhaus (NEB) principles (sustainability, inclusion and aesthetics) to improve the quality of infrastructure projects in specific sectors. Expert support for the Managing Authorities should take the form of the development of a new approach towards investment in the built environment in the fields of housing, culture and cultural heritage, and educational infrastructure, and identify how the NEB principles can be promoted in the Member States both in specific terms (through the development of country- and sector-specific selection criteria) and general terms (through incorporation into mainstream programming and national strategies).In addition, the experts shall review relevant regional development plans and propose a methodology or measures to support mainstreaming of the above-mentioned principles into the programming and selection procedures for future investments.	REACT-EU	65.000	Given the complexity involved in applying the NEB framework for such a wide variety of programmes, expert support is requested to help determine what 'mainstreaming' of the NEB will look like in concrete terms, given the specific priorities and challenges in Croatia. The AMI expert(s) will support the Croatian authorities to adapt and translate the principles and ideas for action from relevant EC communications and policy documents into guidelines and criteria for the selection of projects for investment across the sectors of affordable housing, culture and cultural heritage, and educational infrastructure. In addition, the experts shall review relevant regional development plans and propose a methodology or measures to support mainstreaming of the above-mentioned principles into the programming and selection procedures for future investments.	AMI List	Expert contract	
22CPR171-C	Support the mainstreaming of New European Bauhaus principles in Romania and Croatia	The action aims to support the Romanian authorities to mainstream the New European Bauhaus principles (NEB) (sustainability, inclusion and aesthetics) to improve the quality of infrastructure projects. Expert support for the Managing Authorities should focus on the fields of cultural heritage, tourism and education infrastructure, urban regeneration and energy efficiency, identify how the NEB principles can be promoted in the Member States both in specific terms (through the development of country/sector-specific selection criteria) and general terms (through incorporation into mainstream programming and national strategies), and finally, culminate in few NEB projects.	REACT-EU	60.000	Given the complexity involved in applying the NEB framework for such a wide variety of programmes, expert support is requested to help determine what 'mainstreaming' of the NEB will look like in concrete terms, given the specific priorities and challenges in Romania. The AMI expert(s) will support the authorities to adapt and translate the principles and ideas for action from relevant EC communications and policy documents into guidelines and criteria for the selection of projects for investment across sectors. In addition, the experts will help the authorities prepare NEB projects. The TA action will be coordinated with other on going REGIO actions managed by Unit 03, Unit E3, and any other DGs.	AMI List	Expert contract	
22CPR172-C	Expert Advice on the Revision of the EUSAIR Action Plan	Expert Advice on the Revision of the EUSAIR Action Plan	REACT-EU	15.000	The action will allow to revise the EUSAIR Action Plan, in light of the new EC priorities.	AMI List	Expert contract	
22CPR173-C	Accelerated closure Germany and Austria, pre 2014	MSs report every year new cases of irregularities from the programming periods 2000-2006 and 2007-2013. A certain selection needs to be analysed by DG REGIO to decide if the financial consequences should be borne by the EU budget. According to experience we expect up to 30 cases per year. The contract should be launched under the framework contract run by directorate DAC, a provision was made in this framework contract.	REACT-EU	45.000	The contract will improve the timeliness and legal quality of irregularities from the periods before 2014 in Germany and Austria. The assessment of irregularity cases requires specialized knowledge of administrative and insolvency law not available in the geographic unit.	Procurement	Technical and other administrative assistance to MS	

22CPR174-C	Analysing the impact of ERDF financial instruments and their embedment in national and regional fund	<p>Throughout the programme negotiations for the 2021-27 period, DG REGIO has consistently encouraged MS to make use of financial instruments (FIs). Yet, geographical units often lack expertise when it comes to accurately evaluating the embedment of ERDF-funded FIs in the respective national and regional context. Such information is also not requested by the ex-ante assessment requirements deriving from Article 58 CPR.</p> <p>Therefore, this study intends to analyse national and regional FI embedment to determine existing and potential synergies, overlaps and opportunities between EU- and MS-funded financial instruments in Germany. In doing so, the study aims to quantify the actual impact of ERDF financial instruments to assess their added value.</p>	REACT-EU	125.000	<p>The study will contribute to point 3.1 of DG REGIO's Strategic plan (Full, effective and compliant use of funds to strengthen social, economic and territorial cohesion).</p> <p>The study will fill gaps of existing ex ante and ex post evaluations of FIs in Germany. The study will run in parallel with the ex post evaluation 2014-2020 of the funds, but at the level of a selected MS.</p>	Procurement	Study	
22CPR175-C	Study on the development and implementation of framework for monitoring and evaluation of S3, Ph 2	<p>The action would extend the ongoing grant agreement with The World Bank on supporting monitoring and evaluation and impact evaluation for smart specialisation.</p> <p>Under the Pillar 3 of the ongoing project, the WB is supporting a number of regions and Member States to build capacity to design and implement ex-ante impact evaluations of policy instruments in the area of innovation, entrepreneurship, competitiveness of SMEs and managerial skills. The action is targeting less developed regions in the Czech Republic, Croatia, Romania, Bulgaria, Spain, Portugal and Italy. Participation of the regions in the project allows them to better plan calls under their operational programmes in 2021-2027 and contributes to better implementation of the smart specialisation strategies.</p> <p>Additional budget would allow to support 2 more regions/MS in developing full impact evaluations of their future calls under the OPs linked to S3.</p>	REACT-EU	1.060.000	<p>The main objective of the action is to build capacity to successfully implement smart specialisation strategies and related calls in the operational programmes. The action is specifically targeting less developed regions in Bulgaria, Croatia, Czech Republic, Italy, Portugal, Romania and Spain which often do not have sufficient administrative capacity to implement S3 and related activities.</p> <p>The action will contribute to the implementation of the strategic objective 1.2. (Smart specialisation to foster innovation and mobilise research to deliver the European Green Deal) of REGIO Strategic Plan 2020-2024.</p>	Indirect Management	Study	
22CPR176-C	Group of Experts reflecting on the Future of the Cohesion Policy as requested by Csr FERREIRA	Definition of the Post 2027 Cohesion Policy via a reflection group of external experts.	REACT-EU	140.000	To feed into the 9 COHESION REPORT and post 2027 legislative proposals.	Procurement	Other	
22CPR182-C	Transatlantic cooperation on industrial regions in transition	The 2022 action consists in exchange of experience and knowledge capitalization between North America and Europe related to the transition of former industrial areas, political polarization and development of new economic activities.	REACT-EU	80.000	<p>Many countries in Europe and in the USA and Canada have experienced or are experiencing a decline of some of their industrial regions. Low economic opportunities, deprived environment and quality of life feed a growing discontent among citizens and put pressure on democracies. To help support policy development and implementation, the collaboration is envisaged around different workstreams: academic work, exchange of knowledge and experience bringing together regional, state and local actors, facilitate a transatlantic political dialogue.</p> <p>The objectives are to increase our knowledge and understanding, develop better policy responses for industrial regions in transition, provide better development opportunities, avoid the growing feeling of being 'left behind'.</p>	Procurement	Communication and publication	

22CPR183	WB facility for TA to Municipalities: SUD strategies for urban ITIs	The initiative is considered a pilot activity to test hands-on approaches to capacity building in both improving the quality of strategies, plans and projects and accelerating implementation. The focus will be on a limited set of municipalities and support actions will contribute to the preparation or revision of sustainable urban development strategies. According to the specific needs or development priorities of each city further specific thematic support would be provided to include themes such as sustainable urban transport, greening of urban spaces, energy efficiency, digitalisation and smart cities, business environment and SME development.	ERDF	1.000.000	The philosophy of this intervention is to develop activities that address bottlenecks and enable the selected municipalities to draft or review and update the individual components that contribute to their sustainable urban development strategy, which will be implemented through urban ITIs in the current financing period.	Indirect Management	Technical and other administrative assistance to MS	
22CPR184	Analysis of framework agreements in digitalisation (Hungary)	Analysis and assessment of ICT public procurement framework agreements in Hungary which relate to the implementation of the Digital Renewal Operational Program 2021-27 and of the digital components of other programs. The justification for this action is the degree of risk associated with and the problems revealed by earlier audits with public procurement framework agreements in Hungary. The role and overall financial framework of such agreements is high in terms of this specific program and of procurements in the field of digital transformation investments.	ERDF	15.000	The action contributes to the Digital Decade priority and program and more specifically to better implementation, transparency and the rule of law in this particular area supported by Cohesion Policy. The investment concerned by this action largely target less developed regions in Hungary. Unit E4 has one complementary action, aiming at assessing the general framework conditions of implementation in Hungary, however, the present action has a more specific scope than this one, as it relates to a specific area (public procurement framework agreements) which was highlighted in previous audit reports.	AMI List	Expert contract
