Table 1: Graz

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	202.363
Total number of sample units used (i.e., telephone numbers used)	46.040
Total number of contacts made (i.e., telephone numbers reached)	8.592
Average number of contact attempts per sample unit	4,0
Total number of confirmed eligible respondents (count + percentage of contacts)	1.179 (2,3%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	209 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	9,1%
Total number of partial (interrupted) interviews	110
Response rate: AAPOR RR1	1,5%
Response rate: AAPOR RR3	1,8%
Response rate: AAPOR RR4	2,8%
Average length of complete interviews	12:38
Total number of interviews removed due to low quality	3

Table 2: Wien

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	213.711
Total number of sample units used (i.e., telephone numbers used)	49.494
Total number of contacts made (i.e., telephone numbers reached)	9.647
Average number of contact attempts per sample unit	4,0
Total number of confirmed eligible respondents (count + percentage of contacts)	889 (1,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	119 (0,2%)
Total number of refusals, as percentage of the total number of contacts made	10,3%
Total number of partial (interrupted) interviews	73
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,6%
Response rate: AAPOR RR4	1,7%
Average length of complete interviews	13:43
Total number of interviews removed due to low quality	0

Table 3: Antwerpen

Target sample size	700
--------------------	-----

Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	197.053
Total number of sample units used (i.e., telephone numbers used)	45.812
Total number of contacts made (i.e., telephone numbers reached)	9.349
Average number of contact attempts per sample unit	3,9
Total number of confirmed eligible respondents (count + percentage of contacts)	1.543 (3%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	655 (1,3%)
Total number of refusals, as percentage of the total number of contacts made	8,9%
Total number of partial (interrupted) interviews	150
Response rate: AAPOR RR1	1,6%
Response rate: AAPOR RR3	2,1%
Response rate: AAPOR RR4	3,7%
Average length of complete interviews	13:38
Total number of interviews removed due to low quality	0

Table 4: Bruxelles / Brussel

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	4 (0,6%)
Total number of contact attempts made (over all sample units)	208.315
Total number of sample units used (i.e., telephone numbers used)	48.990
Total number of contacts made (i.e., telephone numbers reached)	14.979
Average number of contact attempts per sample unit	3,7
Total number of confirmed eligible respondents (count + percentage of contacts)	1.488 (2,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	243 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	15,8%
Total number of partial (interrupted) interviews	149
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,6%
Response rate: AAPOR RR4	3,1%
Average length of complete interviews	11:41
Total number of interviews removed due to low quality	0

Table 5: Liège

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	172.658
Total number of sample units used (i.e., telephone numbers used)	42.375
Total number of contacts made (i.e., telephone numbers reached)	12.611
Average number of contact attempts per sample unit	3,6
Total number of confirmed eligible respondents (count + percentage of contacts)	956 (2%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	451 (0,9%)
Total number of refusals, as percentage of the total number of contacts made	16,1%
Total number of partial (interrupted) interviews	19
Response rate: AAPOR RR1	1,7%
Response rate: AAPOR RR3	2,2%
Response rate: AAPOR RR4	2,9%
Average length of complete interviews	12:18
Total number of interviews removed due to low quality	0

Table 6: Burgas

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	204.046
Total number of sample units used (i.e., telephone numbers used)	43.566
Total number of contacts made (i.e., telephone numbers reached)	8.042
Average number of contact attempts per sample unit	3,6
Total number of confirmed eligible respondents (count + percentage of contacts)	1.001 (1,8%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	218 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	5,2%
Total number of partial (interrupted) interviews	66
Response rate: AAPOR RR1	1,6%
Response rate: AAPOR RR3	1,9%
Response rate: AAPOR RR4	2,8%
Average length of complete interviews	12:31
Total number of interviews removed due to low quality	0

Table 7: Sofia

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	236.796
Total number of sample units used (i.e., telephone numbers used)	50.280
Total number of contacts made (i.e., telephone numbers reached)	7.704
Average number of contact attempts per sample unit	4,2
Total number of confirmed eligible respondents (count + percentage of contacts)	976 (1,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	205 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	3,6%
Total number of partial (interrupted) interviews	105
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,7%
Response rate: AAPOR RR4	2,3%
Average length of complete interviews	12:01
Total number of interviews removed due to low quality	0

Table 8: Zagreb

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	2 (0,3%)
Total number of contact attempts made (over all sample units)	377.849
Total number of sample units used (i.e., telephone numbers used)	78.334
Total number of contacts made (i.e., telephone numbers reached)	12.694
Average number of contact attempts per sample unit	4,5
Total number of confirmed eligible respondents (count + percentage of contacts)	1.248 (1,5%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	143 (0,2%)
Total number of refusals, as percentage of the total number of contacts made	2,9%
Total number of partial (interrupted) interviews	144
Response rate: AAPOR RR1	0,9%
Response rate: AAPOR RR3	1,0%
Response rate: AAPOR RR4	1,8%
Average length of complete interviews	11:57
Total number of interviews removed due to low quality	0

Table 9: Lefkosia

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	3 (0,4%)
Total number of contact attempts made (over all sample units)	214.018
Total number of sample units used (i.e., telephone numbers used)	48.763
Total number of contacts made (i.e., telephone numbers reached)	11.796
Average number of contact attempts per sample unit	4,2
Total number of confirmed eligible respondents (count + percentage of contacts)	1.145 (2,2%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	182 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	8,0%
Total number of partial (interrupted) interviews	164
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,6%
Response rate: AAPOR RR4	2,5%
Average length of complete interviews	12:28
Total number of interviews removed due to low quality	0

Table 10: Ostrava

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	173.617
Total number of sample units used (i.e., telephone numbers used)	39.128
Total number of contacts made (i.e., telephone numbers reached)	10.484
Average number of contact attempts per sample unit	4,2
Total number of confirmed eligible respondents (count + percentage of contacts)	1.122 (2,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	194 (0,5%)
Total number of refusals, as percentage of the total number of contacts made	6,1%
Total number of partial (interrupted) interviews	138
Response rate: AAPOR RR1	1,8%
Response rate: AAPOR RR3	2,1%
Response rate: AAPOR RR4	3,2%
Average length of complete interviews	11:10
Total number of interviews removed due to low quality	0

Table 11: Praha

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	3 (0,4%)
Total number of contact attempts made (over all sample units)	167.970
Total number of sample units used (i.e., telephone numbers used)	37.285
Total number of contacts made (i.e., telephone numbers reached)	11.011
Average number of contact attempts per sample unit	4,2
Total number of confirmed eligible respondents (count + percentage of contacts)	1.239 (3,1%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	177 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	6,6%
Total number of partial (interrupted) interviews	209
Response rate: AAPOR RR1	1,9%
Response rate: AAPOR RR3	2,1%
Response rate: AAPOR RR4	3,5%
Average length of complete interviews	10:48
Total number of interviews removed due to low quality	1

Table 12: Aalborg

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	269.323
Total number of sample units used (i.e., telephone numbers used)	59.696
Total number of contacts made (i.e., telephone numbers reached)	8.641
Average number of contact attempts per sample unit	4,3
Total number of confirmed eligible respondents (count + percentage of contacts)	1.264 (2%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	271 (0,4%)
Total number of refusals, as percentage of the total number of contacts made	4,6%
Total number of partial (interrupted) interviews	140
Response rate: AAPOR RR1	1,2%
Response rate: AAPOR RR3	1,4%
Response rate: AAPOR RR4	2,3%
Average length of complete interviews	10:43
Total number of interviews removed due to low quality	3

Table 13: København

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	1 (0,1%)
Total number of contact attempts made (over all sample units)	226.851
Total number of sample units used (i.e., telephone numbers used)	50.401
Total number of contacts made (i.e., telephone numbers reached)	10.022
Average number of contact attempts per sample unit	4,3
Total number of confirmed eligible respondents (count + percentage of contacts)	1.168 (2,2%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	184 (0,3%)
Total number of refusals, as percentage of the total number of contacts made	5,7%
Total number of partial (interrupted) interviews	110
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,6%
Response rate: AAPOR RR4	2,4%
Average length of complete interviews	10:31
Total number of interviews removed due to low quality	0

Table 14: Tallinn

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	238.717
Total number of sample units used (i.e., telephone numbers used)	51.817
Total number of contacts made (i.e., telephone numbers reached)	11.774
Average number of contact attempts per sample unit	4,4
Total number of confirmed eligible respondents (count + percentage of contacts)	1.409 (2,6%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	105 (0,2%)
Total number of refusals, as percentage of the total number of contacts made	5,0%
Total number of partial (interrupted) interviews	193
Response rate: AAPOR RR1	1,4%
Response rate: AAPOR RR3	1,4%
Response rate: AAPOR RR4	2,9%
Average length of complete interviews	11:27
Total number of interviews removed due to low quality	0

Table 15: Helsinki / Helsingfors

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	189.262
Total number of sample units used (i.e., telephone numbers used)	44.240
Total number of contacts made (i.e., telephone numbers reached)	10.715
Average number of contact attempts per sample unit	4,1
Total number of confirmed eligible respondents (count + percentage of contacts)	795 (1,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	584 (1,3%)
Total number of refusals, as percentage of the total number of contacts made	7,3%
Total number of partial (interrupted) interviews	0
Response rate: AAPOR RR1	1,6%
Response rate: AAPOR RR3	2,6%
Response rate: AAPOR RR4	2,6%
Average length of complete interviews	13:42
Total number of interviews removed due to low quality	1

Table 16: Oulu / Uleåborg

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	254.665
Total number of sample units used (i.e., telephone numbers used)	60.394
Total number of contacts made (i.e., telephone numbers reached)	14.530
Average number of contact attempts per sample unit	4,0
Total number of confirmed eligible respondents (count + percentage of contacts)	1.171 (1,8%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	1.258 (2%)
Total number of refusals, as percentage of the total number of contacts made	9,2%
Total number of partial (interrupted) interviews	0
Response rate: AAPOR RR1	1,2%
Response rate: AAPOR RR3	2,2%
Response rate: AAPOR RR4	2,6%

Response rate: AAPOR RR4	12,6%
Average length of complete interviews	12:23
Total number of interviews removed due to low quality	0

Table 83: Diyarbakir

Target sample size	700
Total number of complete interviews	700
Total number of complete interviews conducted in English	0 (0%)
Total number of contact attempts made (over all sample units)	63.720
Total number of sample units used (i.e., telephone numbers used)	15.458
Total number of contacts made (i.e., telephone numbers reached)	7.472
Average number of contact attempts per sample unit	2,6
Total number of confirmed eligible respondents (count + percentage of contacts)	1.654 (6,7%)
Total number of confirmed ineligible respondents (due to too low age or residence outside of the targeted city regions), as count and as a percentage of the contacts	452 (1,8%)
Total number of refusals, as percentage of the total number of contacts made	11,4%
Total number of partial (interrupted) interviews	216
Response rate: AAPOR RR1	4,7%
Response rate: AAPOR RR3	5,5%
Response rate: AAPOR RR4	12,6%
Average length of complete interviews	12:56
Total number of interviews removed due to low quality	0

Annex 1 – response rate breakdown

The tables below give a more detailed look into the response rates per city, and what the outcome was from the contact attempts from the start (total sample drawn) until the final completed sample. It allows to monitor where along the way respondents are 'lost' (or never reached), and makes a distinction between 3 concepts:

- **Contact rate:** this is the percentage of respondents that was reached, from the total usable and used sample.
- **Cooperation rate:** this is the percentage of respondents that agreed and was capable to start the interview – that is, excluding refusals – from the total group of respondents that were reached. Note that respondents that agreed on an appointment but were never called back or never responded to a callback were, for the purposes of this response rate calculation, also counted as refusals. While this inflates the refusal rate (group E) somewhat, it is in any case correct to say that they never started the interview and thus do not belong in group G.
- **Completion rate:** this is the percentage of respondents that finished the interview once started. Here too, respondents that had to stop an interview halfway and set an appointment to finish the interview at a later point but never did so were counted as interruptions (group H).

The final response rate corresponds to the AAPOR RR1 given in the main technical report tables above.

Response rate breakdown	Aalborg	Amsterdam	Ankara	Antalya	Antwerpen	Athina	Barcelona
A. Total sample drawn	61985	55024	34412	21958	50612	67690	51460
