

MISSION AND VISION STATEMENT

EIT RawMaterials is an innovation community within the European Institute of Innovation and Technology (EIT). The mission of EIT RawMaterials is to enable the sustainable competitiveness of the European minerals, metals and materials sectors along the value chain by driving innovation, education and entrepreneurship.

EIT RawMaterials is a key European actor in advancing Europe's transition into a sustainable economy. This will be realised by integrating knowledge from industry, higher education and research by engaging stakeholders from the entire raw materials value chain.

EIT RawMaterials builds on the world's largest network of excellent partners in raw materials and advanced materials. EIT RawMaterials' activities contribute to maintaining and increasing Europe's competitiveness whilst securing and creating new jobs.

Raw materials are critically important for society in general, and for the transition to a green economy in particular. They are key for achieving the goals set out in COP21 and the United Nations Sustainable Development Goals, for implementing the European 2030 Agenda for Sustainable Development and for the European Resource Efficiency Initiative. Metals, minerals and raw materials and their sustainable supply and consumption are important in the move towards a circular economy.

EIT RawMaterials' projects are either directly linked to the SDGs by measurable output or indirectly by consequences of the measurable outputs. <https://eitrawmaterials.eu/sustainable-development-goals/>

KEY FACTS AND FIGURES

Horizon Europe Pillar and Cluster: Pillar III – European Institute of Innovation and Technology

Type of Partnership: Institutionalised – EIT KIC

Coordinating entity: EIT RawMaterials e.V and EIT RawMaterials GmbH

Total estimated budget: EUR 58.3 m (2021); EUR 55.21 m* (2022)

Predecessor under Horizon 2020: Started in 2015

* KIC budget is approved on a yearly basis based on the assessment of the KIC's Business Plan by the EIT

PARTNERSHIP SPECIFIC IMPACT PATHWAY (PSIP)

PARTNERSHIP'S KEY PERFORMANCE INDICATORS

KPI NAME	UNIT OF MEASUREMENT	BASELINE	TARGET 2023	TARGET 2025	TARGET 2027	AMBITION >2027
RESOURCES (INPUT), PROCESSES AND ACTIVITIES						
Number of EIT RM partners	Number of partners		145	155	165	
EIT RM RIS Hubs	Number of RIS HUBs		8	10	10	
HEIs involved in EIT and KIC activities	# of HEIs		75	75	75	
Partners from EIT RIS countries	Number of EIT RM RIS Countries		110	130	140	
OUTCOMES						
Marketed innovations	Number of innovations	Unit	29	30	30	
Supported start-ups/scale-ups	Number of start-ups	Unit	50	50	50	
Investment attracted by KIC supported start-ups/scale-ups	Number of investments	Unit	10	10	10	
Securing raw materials supply	Investment attracted in resources	€			€500 m	
Improve gender balance in the RM sector	Women graduating from RM-related courses	%	40%	45%	50%	
IMPACTS						
Integrate and leverage the RM potential in the RIS region	Integration of the RIS region – % funding RIS participants in non-RIS projects	%	20%	20%	20%	
Ensure stable RM workforce	Creating/maintaining/re-skilling jobs in the RM sector (including conversion from brown technologies)	Unit	1300	5800	12 000	
Designing materials solutions	Women graduating from RM courses	%			50%	
Closing materials loops	% CO ₂ emitted savings	%			20%	

EIT RM Impact KPIs target

In keeping with the refinement of its strategic agenda and with changes in the EIT core KPIs, EIT RawMaterials has reviewed its impact KPIs and aligned them with its strategic objectives and overall societal impact.

All the above KPIs are taken from the EIT RawMaterials Strategic Agenda 2021/2027.

SYNERGIES WITH OTHER EUROPEAN AND NATIONAL INITIATIVES

THE EUROPEAN RAW MATERIALS ALLIANCE (ERMA)

EIT RawMaterials has been given the mandate by the European Commission to manage ERMA and its activities. ERMA was announced by the European Commission on 3 September 2020, as part of an Action Plan on Critical Raw Materials, and the publication of the 2020 List of Critical Raw Materials. ERMA's vision is to secure access to critical and strategic raw materials, advanced materials, and processing know-how for the EU's industrial ecosystems. ERMA involves all relevant stakeholders, including industrial actors along the value chain, Member States and regions, trade unions, civil society, research and technology organisations, investors and NGOs. In the first year since its foundation in November 2020, around 600 such partners have joined ERMA.

HIGHER EDUCATION INITIATIVE

The EIT's HEI initiative: **Innovation Capacity Building for Higher Education** is a joint EIT community activity coordinated by EIT RawMaterials. The initiative is a key objective for the European Institute of Innovation and Technology (EIT) as part of its new strategy, the EIT Strategic Innovation Agenda 2021–2027. The initiative aims to support higher education institutions with expertise and coaching, access to the EIT innovation ecosystem, and funding, enabling them to develop innovation action plans complementing the needs of individual higher education institutions.

EIT CIRCULAR ECONOMY

Developed and led by EIT RawMaterials, the EIT Circular Economy Community consists of six Knowledge and Innovation Communities namely EIT RawMaterials, EIT Climate-KIC, EIT Digital, EIT Food, EIT Manufacturing and EIT Urban Mobility.

The EIT Circular Economy Community aims to:

- support KICs in developing a joint circular economy offer;
- strengthen the implementation of a Circular Economy joint strategy;
- support breakthrough initiatives and start-ups through the Environmental Technology Verification (ETV) programme;
- collaborate with the European Commission in the implementation of the European Circular Economy Action Plan;
- collaborate with the European Circular Economy Stakeholder Platform (ECESP);
- facilitate access to markets for innovative KICs solutions.
