3. The beneficiary shall inform the researcher of the REA's decision.
4. In the event of suspension of the research activity agreed by the REA during the implementation of the project, the reporting period(s) as laid down in Article 3 in which the suspension starts, shall be automatically deferred for the length of the duration of the suspension.

PART B – FINANCIAL PROVISIONS

III. 9 – Eligible Costs

Costs may be charged to the *grant agreement* provided that they comply with the provisions set forth in Part B of Annex II.

In particular, costs related to the *research activities* carried out under the *project* may be reimbursed by the *REA* as follows:

1. Eligible expenses for the activities carried out by the researcher

A flat rate is set out in Annex I exclusively for the benefit of the researcher appointed under the project according to the applicable reference rates indicated in the Work Programme, notwithstanding any additional contribution which might be paid to the researcher by the beneficiary or any other body referred to in Annex I.

The applicable reference rates of the Work programme are set on the basis of a full-time appointment of the researcher under the project. In case of a part-time appointment, the allowances shall be adapted pro-rata to the time actually spent on the project.

The flat rate set out in Annex I for the benefit of the researcher is distributed as follows:

- a) A monthly living allowance, according to Annex I.

For longer stays the beneficiary shall recruit the researcher under an employment contract except in adequately documented cases or where national regulation would prohibit this possibility. For shorter stays the beneficiary can opt between recruiting him/her under an employment contract or under a fixed amount fellowship.

The reference rates indicated in the Work programme for researchers recruited under an employment contract include all compulsory deductions under national legislation in the context of this grant agreement. When an employment contract can not be provided, the beneficiary shall recruit the researcher under a status equivalent to a fixed amount fellowship and providing that it is compatible with the applicable legislation of the beneficiary and ensuring that social security coverage including at least the branches foreseen in Article 3(1) a), b), c) and f) of Regulation (EC) No 883/2004 of the European Parliament and of the Council of 29 April 2004, has been provided to the researcher, but not necessarily paid from the fellowship. Monthly living allowances applicable are those established in the Work Programme.

- b) A contribution to the mobility costs, consisting of:

- A monthly mobility allowance, according to Annex I, which takes into account the family situation of the researcher at the time of the relevant deadline for the submission of the proposal. The researcher must undertake a physical transnational mobility at the start of the research activities or within less than 12 months before the relevant deadline for submission of the proposal to be entitled to a mobility allowance.

In order to take into account the cost of living and the national salary structure in the country/ies where the researcher is carrying out the research activities, the correction coefficients indicated in the Work Programme shall be applied to the above mentioned monthly living and mobility allowances.

The REA reserves the right to apply to the ongoing grant agreements revisions of the correction coefficients published in the Work Programme in case of an increase of the coefficient equal or superior to 10%. The necessary financial adjustments of the financial contribution of the Union will be made with the final payment.

- In addition, the researcher entitled to the monthly mobility allowance, shall also receive a travel allowance calculated on the distance between his/her location of origin and the beneficiary's premises where s(he) is carrying out the research activities for every period of 12 months or less when the last period is less than

12 months. The first travel allowance should be paid first upon taking up appointment and yearly after.

- c) A contribution, according to Annex I, to cover the other costs related to the involvement of the researcher in the project based on the nature of the activities to be carried out under the project. This allowance will be administered by the beneficiary and used for costs directly related to the researcher.

Costs related to the other activities carried out under the project may be reimbursed by the REA as follows:

2. Eligible expenses for the activities carried out by the beneficiary and indirect costs

The management costs and indirect costs will be reimbursed in accordance with the conditions set out in Annex I, according to the Work Programme.

By derogation from Article 4.2, transfers of budget from the allowances allocated for the activities carried out by the researcher to the amounts allocated for the activities carried out by the beneficiary are not allowed.

PART C – INTELLECTUAL PROPERTY RIGHTS

III. 10 – Access rights

In addition to the provisions of Articles II.29 and II.30 the *beneficiary* shall ensure that the *researcher* enjoys, on a royalty-free basis, *access rights* to the *background* and to the *foreground*, if that *background* or *foreground* is needed for his/her *research activities* under the *project*.

III. 11 – Incompatible or restrictive commitments

The *beneficiary* shall inform, as soon as possible, the *researcher* of any restriction which might substantially affect the granting of *access rights*, as the case may be.
