## INTERNAL SECURITY FUND POLICE (2014-2020)

### 2020 CALL FOR PROPOSALS: ISFP-2020-AG-RAD

## CALL FOR PROPOSALS ON PREVENTION OF RADICALISATION

### 1. INTRODUCTION

Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) declares as the European Union's objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States' competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union.

The Internal Security Strategy for the European Union (Internal Security Strategy), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe's resilience in the face of crises and disasters.

To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, the Internal Security Fund (ISF Police) was set up.

In April 2015 the European Commission adopted the European Agenda on Security for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The European Agenda on Security represents an effective and coordinated response at European level to new and complex threats and sets out how the European Union can bring added value to support the Member States in ensuring security. It has identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the European Agenda on Security, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union's actions.

Legal basis of ISF Police are the following regulations:

- Regulation (EU) No 513/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014);
- Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014).

The ISF Police Regulation sets out two specific objectives, respectively:

- (i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;
- (ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission shall adopt a work programme. The 2020 annual work programme for Union actions and emergency assistance, which includes this call for proposals, is under finalisation. Therefore, **this call is published subject to the adoption of the 2020 ISF-Police annual work programme including this call as foreseen** and this call would be cancelled if this would not materialise. As soon as adopted, the 2020 ISF-Police annual work programme will be published online on [the Migration and Home Affairs Europa website](#) and on [the Funding & tender opportunities website](#).

The rehabilitation of violent extremists and their reintegration into society has been a priority since the High Level Commission Expert Group on radicalisation presented its final report in May 2018.<sup>1</sup> The report recognised that considering the increased number of terrorist convicts, including returning Foreign Terrorist Fighters (FTFs) and in view of their eventual release, there is a need to further enhance Member States' capacity to develop, implement and evaluate risk assessment tools and disengagement programmes to allow for targeted and effective rehabilitation and reintegration of terrorist offenders.

The Group recommended to develop exit programmes, rehabilitation activities and job training of prisoners and reintegration of (young) offenders. It further recommended training for judges and prosecutors as well as for prison and probation staff.

Against this background, the Steering Board on Radicalisation identified probation and rehabilitation as one of the strategic priorities for 2019 and 2020. Managing terrorist offenders and radicalised individuals, motivated by violent Islamist or right-wing ideology, confronts Member States with important challenges related to rehabilitation and reintegration and, in some cases, risk management. Such efforts require a multi-agency approach between prison and probation administrations, judicial authorities, police forces, local governments, social workers and other local actors, including local communities.

In this context, the work of the [Radicalisation Awareness Network \(RAN\)](#) is of particular importance. The RAN brings together various activities sharing practices, recommendations and lessons learned among practitioners in dedicated expert meetings. One of the results of this work is the RAN Manual on "Rehabilitation of radicalised and terrorist offenders for first line practitioners" published in June 2020: [https://ec.europa.eu/home-affairs/what-we-do/networks/radicalisation\\_awareness\\_network/ran-papers/rehabilitation-manual\\_en](https://ec.europa.eu/home-affairs/what-we-do/networks/radicalisation_awareness_network/ran-papers/rehabilitation-manual_en).

The Manual offers guidance to practitioners and considers the specific challenges for rehabilitation, by radicalised and terrorist offender profiles, including returned male jihadist foreign terrorist fighters (FTFs), returned female jihadist FTFs, 'regular' offenders who become radicalised to Islamist extremism in prison as well as 'home-grown' violent right-wing extremists originating from a dominantly extremist community in a Member State.

Over the past years, several activities have been conducted concerning returning FTFs and their family members. "Returnees" has been identified as a **priority by the EU MSs in**

**the 2020** Strategic Orientations for prevent work<sup>2</sup> and “Returning children and women” has been identified as one of the four “RAN Roadmaps” for 2020.

In recent years, **RAN** has actively discussed the challenges related to returnees through different Working Groups. Even after 2017, when the RAN Manual on Returnees was published, RAN has been asked to continue to work on the topic, given that still a high number of EU citizens who had left for Syria and Iraq, sooner or later would have returned.

In 2018 the High Level Commission Expert Group on Radicalisation identified **child returnees** and refugees from conflict zones, as well as detainees convicted for terrorism-related offences, as vulnerable categories who require appropriate preventive measures. In line with this indication, EU has brought together in the last two years practitioners and policy makers to exchange their views and experiences.

Several activities have been conducted also on **returnees and convicted terrorist offenders**. Key elements have been explored in the above mentioned different frameworks, like the challenges related to their release; the information management systems; the role of families and of local communities for their reintegration; the role of police on dealing with returnees in general, and with convicted returnees after their release more specifically.

The EU will continue to support in 2020 – and likely beyond – Member States in dealing with people who, either spontaneously or through repatriations, have already returned or will return from conflict zones. The EU support will mainly focus on facilitating exchanges among policy makers and practitioners, as well as supporting them in identifying best practices in order to allow them to reflect on the measures that need to be put in place in view of future returns.

In the Annual Work Programme, an important effort is foreseen to provide financial support to projects tackling radicalisation and developing effective responses and tools to prevent and counter all forms of radicalisation in priority areas highlighted in the annual Strategic Orientations on a coordinated EU approach to prevention of radicalisation, focusing on approaches for disengagement and reintegration of extremist offenders and radicalised individuals, including on returning foreign terrorist.

## **2. PRIORITIES OF THIS CALL FOR PROPOSALS**

The present call for proposals aims at funding projects providing approaches for disengagement and reintegration of extremist offenders and radicalised individuals related to violent right wing and Islamist extremism, including returning foreign terrorist fighters and their families.

Project applications submitted under the present call for proposals must develop such approaches addressing both of the following sub-priorities:

1. strengthen the collaboration among stakeholders involved in disengagement and reintegration programmes, and
2. enhance the preparedness of stakeholders involved in disengagement and reintegration programmes

Proposals which match most closely these priorities will be evaluated as particularly relevant and will have a higher chance of being selected. Applicants are therefore invited to consider very carefully the links between their proposal and the priorities of the call.

Proposals focusing on

---

<sup>2</sup> <https://ec.europa.eu/transparency/regexpert/index.cfm?do=groupDetail.groupDetailDoc&id=39835&no=1>

- media campaigns with counter-narrative or alternative narrative;
  - research studies of the motivations of phenomena of polarisation and/or radicalisation;
  - the issue of the online content which can lead to radicalisation;
- will not be considered for funding under this call for proposals.

For each sub-priority, projects must be aiming to achieve one or more of the following outcomes:

**1. Strengthen the collaboration among stakeholders involved in disengagement and reintegration programmes:**

- Designing and implementing **collaboration models and protocols** for disengagement and reintegration work *addressed to violent right wing extremists*,
- Designing and implementing **collaboration models and protocols** for disengagement and reintegration work *addressed to Islamist extremists, including also foreign terrorist fighters and their family members (differentiating between men, women and children)*,
- Designing and implementing methods to **assess the expertise and trustworthiness of non institutional partners** (such as NGOs) in disengagement and reintegration programmes.

**2. Enhance the preparedness of stakeholders involved in disengagement and reintegration programmes:**

- Developing and rolling out **train-the-trainer modules**, - of the different professional profiles involved in disengagement and rehabilitation work within programmes *addressed to violent right wing extremists*,
- Developing and rolling out **train-the-trainer modules** - of the different professional profiles involved in disengagement and reintegration work within programmes *addressed to Islamist extremists, including also foreign terrorist fighters and their family members (differentiating between men, women and children)*,
- Developing and rolling out **risk assessment methods** that could be used both during the implementation of disengagement and reintegration programmes and when these programmes have been concluded, addressing the risks posed by far right extremists and Islamist extremists, including also foreign terrorist fighters and their family members (differentiating between men, women and children).

The methods, models, protocols and modules developed under both the sub priorities above must be implementable in the different contexts of as many as possible EU Member States.

Applications should foresee a quantitative and qualitative evaluation of the reach and impact of actions proposed, accompanied by a set of lessons learned and good practices for future similar actions. Where appropriate the gender dimension of different interventions, approaches and tools should be taken into account.

Applications should demonstrate that proposals do not duplicate existing work, projects and initiatives, including the activities of the EU Radicalisation Awareness Network and that they are built on results, insights and tools of relevant existing projects (EU funded or not). A dissemination of the results of the projects should be proposed in particular through the RAN.

Where applicable the proposals should demonstrate how they will effectively build on the relevant previous or on-going EU funded projects, including but not limited to, under the Horizon 2020.

In addition to the regular dissemination activities of the projects' outcomes, the Directorate-General for Migration and Home Affairs (DG HOME) would like to encourage more dialogue among the individual project beneficiaries and between the community of

project beneficiaries, stakeholders and the Commission services. The aim is in particular to promote more interaction about innovation in project outputs and to increase visibility, learning effects and synergies. Moreover, DG HOME invites applicants to reflect on how to reinforce the communication, dissemination and visibility of the contents of their projects (outputs and outcomes). Applicants are therefore encouraged to earmark budget for networking activities in Brussels, as well as dissemination products supporting DG HOME's communications efforts, such as factsheets, and to plan accordingly.

Any action under this call for proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this call for proposals should comply with all relevant ethical principles and all applicable international, EU and national law on ethical issues while carrying out the project.

4. European added value	20	-
5. Expected results, dissemination, sustainability and long-term impact	10	-
<b>TOTAL</b>	<b>100</b>	<b>65</b>

(30 points).

Applications receiving less than 21 points for the "relevance" criterion will not be evaluated further, i.e. will not go to the second evaluation step.

### **Evaluation Step 2:**

- Quality of the project: applications will be assessed with regards to the clarity of their objectives; the appropriateness of their methodology; the quality of their expected outputs, which must be clear, appropriate, realistic and replicable; the quality of the consortium, which must have relevant co-applicants with clear roles and added value; the robustness of the project management, monitoring and evaluation strategy and indicators; and the way risks are identified and mitigated (20 points);

The coordinators of projects selected for funding will be invited to engage in a grant agreement preparation process, which will be carried out via an online IT system (SYGMA). If successful, it will conclude with the signature of a grant agreement, drawn up in euro and detailing the conditions and level of funding.

The grant agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the grant agreement by signing electronically the accession form to the grant.

Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model grant agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

## **10. FINANCIAL PROVISIONS**

### **10.1. General Principles**

#### **a) Non-cumulative award**

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

#### **b) Non-retroactivity**

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

#### **c) Co-financing**

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

#### **d) Balanced budget**

The budget estimate of the action is to be included in the application form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates

published in the C series of the Official Journal of the European Union, determined over the corresponding reporting period.<sup>11</sup> Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its [website](#), determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

g) Purchase of equipment

The costs for the equipment envisaged to be purchased shall only cover the project duration depreciation costs. The latter shall be written off in accordance with international accounting standards and the beneficiary's usual accounting practices.

## **10.2. Maximum amount requested**

The EU grant is limited to a co-funding rate of 90% of the total eligible costs of the action.

Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 10.1.c).

## **10.3. Payment arrangements**

A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the coordinator after the signature of the grant agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.
