2020 CALL FOR PROPOSALS

ISFP-2020-AG-TERFIN

CALL FOR PROPOSALS FOR PROJECTS ON COUNTER TERRORIST FINANCING

1. INTRODUCTION

Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) declares as the European Union's objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States' competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union.

The Internal Security Strategy for the European Union (Internal Security Strategy), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe's resilience in the face of crises and disasters.

To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, the Internal Security Fund (ISF Police) was set up.

In April 2015 the European Commission adopted the European Agenda on Security¹ for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The European Agenda on Security represents an effective and coordinated response at European level to new and complex threats and sets out how the European Union can bring added value to support the Member States in ensuring security. It has identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the European Agenda on Security, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union's actions.

Legal basis of ISF Police are the following regulations

¹ COM(2015) 185 final of 28 April 2015.

- Regulation (EU) No 513/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014);
- Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014).

The ISF Police Regulation sets out two specific objectives, respectively:

(i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;

(ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission has adopted, on **27 July 2020**², the 2020 Annual Work Programme for Union actions and emergency assistance, which includes this call for proposals.

Background on counter terrorist financing

The 2015 European Agenda on Security highlighted the importance of financial intelligence in "identifying terrorist networks, as terrorists rely on finance for travel, training and equipment." Information about the financial activities of suspects can be crucial for law enforcement investigations. With this in mind, in 2016 the Commission adopted an Action Plan to strengthen the fight against terrorist financing³ which highlighted the need "to ensure that financial movements can wherever possible help law enforcement to trace terrorists and stop them from committing crimes".

The Action Plan's measures have since largely been implemented, improving the EU legal framework that gives law enforcement access to, and capacity to exploit, financial information for counter-terrorism purposes, including cross-border.

In parallel, innovative projects in several EU Member States and third countries have shown the capacity of partnerships between the private sector and relevant public bodies in combatting terrorism financing, by sharing information and collaborating in a direct manner. Such partnerships can contribute to bridge the gap between financial and criminal intelligence, both at national and European level.

Throughout the past five years, the Commission has actively engaged with partners at a global level, through the Financial Action Task Force, the Egmont Group and the Council of Europe's Moneyval. In the No Money For Terror conferences of 2018 and 2019, the Commission undertook and reaffirmed its commitment to, inter alia, further reinforcing the domestic legal and operational frameworks to collect, analyse and share financial information, monitoring the evolving terrorist threat, enhancing public-private partnerships, and addressing the terrorist financing risks posed by emerging technologies.

Despite much progress in reinforcing the legal framework, building the capacity of public authorities and private partners, and renewing international commitments, there remain important uncertainties and challenges to address urgently.

Most notably, the FinTech industry is rapidly growing and evolving. New and emerging technologies, such as the quickly diversifying range of crypto assets and crowd-funding

³ COM(2016) 50 final of 2 February 2016.

platforms, offer potential new opportunities for terrorists to raise and transfer funds in increasingly complex and obscure ways.

In addition, terrorist modus operandi are constantly evolving. Terrorist financing-related transactions remain difficult to detect, owing to their low value, the development of new payment service providers, the emergence of other money transfer products, the continued use of existing informal methods, such as *hawala* and cash, and the growing awareness by terrorists of counter measures. Authorities combatting terrorist financing face obstacles to adapt quickly to the evolving methods.

However, new technology also has the potential to help authorities combatting terrorism financing to identify trends, patterns, or relationships among large data sets, and thus increase efficiencies. The use of new technology may allow for a more effective resource allocation but also require the development of new expertise and skill sets.

Therefore, the Commission aims to strengthen the EU's capacity to understand and counter terrorist financing by ensuring that existing tools are exploited to their full potential, improving the efficiency of law enforcement access, including cross-border, to transaction data, and developing capacity to deal with emerging financial products and services. The Commission also aims to support the use of new technology for investigations of terrorism financing.

2. PRIORITIES OF THIS CALL FOR PROPOSALS

The present Call for Proposals aims at funding projects in the area of reinforcing efforts to counter terrorist financing.

Project applications submitted under the present Call for Proposals must address at least one of the following priorities:

1. Facilitating cross-border exchange of financial information and promoting public-private cooperation. Projects should aim to enhance the quality and timeliness of the financial information shared at EU level, increase the involvement of regulated sectors other than retail banking, and/or develop technology that supports real-time sharing and analysis. Projects may build on existing mechanisms that enable supra-national public-private cooperation.
2. Developing expertise in emerging terrorist financing risks related to crypto-assets, new payments systems, social media and/or crowd-funding.
3. Developing innovative investigative techniques in Member State law enforcement authorities responsible for counter-terrorism financial investigations, including for conducting parallel investigations, exploiting associated "non-financial" information, examining terrorist links to other criminal activity and on use of Artificial Intelligence, machine learning or robotics for investigations.

Proposals which match most closely these priorities will be evaluated as particularly relevant and will have a higher chance of being selected. Applicants are therefore invited to consider very carefully the links between their proposal and the priorities of the call.

Where applicable the proposals should demonstrate how they will effectively build on the relevant previous or on-going EU funded projects, including but not limited to, under the Horizon 2020.

In addition to the regular dissemination activities of the projects' outcomes, the Directorate-General for Migration and Home Affairs (DG HOME) would like to encourage more dialogue among the individual project beneficiaries and between the community of project beneficiaries, stakeholders and the Commission services. The aim is in particular to promote more interaction about innovation in project outputs and to increase visibility, learning effects and synergies. Moreover, DG HOME invites applicants to reflect on how to reinforce the communication, dissemination and visibility of the contents of their projects (outputs and outcomes). Applicants are therefore encouraged to earmark budget for networking activities in Brussels, as well as dissemination products supporting DG HOME's communications efforts, such as factsheets, and to plan accordingly.

Any action under this call for proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this call for proposals should comply with all relevant ethical principles and all applicable international, EU and national law on ethical issues while carrying out the project.

Organisations participating in several projects shall have sufficient financial capacity to implement multiple projects.

Financial capacity checks will be performed for all applicants and co-applicants in line with the requirements of Financial Regulation 2018/1046.

The documents that will be requested when assessing the financial capacity include (1) the profit and loss accounts and (2) the balance sheets. For newly created entities a business plan may replace the above documents.

In case of low financial capacity, the Commission may decide the following:

- introduce interim payments based on interim reports;
- modify pre-financing percentage.

In case of insufficient financial capacity, the Commission may decide the following:

- request a change of co-applicant;
- reject the application.

A financial capacity assessment **will not be carried out** if:

- the applicant or co-applicant is a public body or an international organisation;

8. AWARD CRITERIA

Eligible applications and their proposed action will be assessed on the basis of the following award criteria:

Award Criteria	Maximum Points	Threshold
1. Relevance	30	21
2. Quality of the project	20	-
3. Cost effectiveness	20	-
4. European added value	20	-
5. Expected results, dissemination, sustainability and long-term impact	10	-
TOTAL	100	65

Evaluation Step 1:

- Relevance: applications will be assessed on the extent to which they match the priorities [and expected outcomes (if applicable)] as identified in this call for proposals (section 2 above) and in the relevant EU strategic documents and/or action plans (section 1 above), and on the extent to which the proposal address a real/actual need at European level in the prioritised areas. (30 points).

Applications receiving less than 21 points for the "relevance" criterion will not be evaluated further, i.e. will not go to the second evaluation step.

Evaluation Step 2:

- Quality of the project: applications will be assessed with regards to the clarity of their objectives; the appropriateness of their methodology; the quality of their expected outputs, which must be clear, appropriate, realistic and replicable; the quality of the consortium, which must have relevant co-applicants with clear roles and added value; the robustness of the project management, monitoring and evaluation strategy and indicators; and the way risks are identified and mitigated (20 points);
- Cost-effectiveness: applications will be assessed with regards to whether the costs of the proposed action are adequate to the activities and proportionate to the expected results (best value for money) (20 points);
- European added value: the project activities, outcomes and impact should have a broad EU relevance; applications will be assessed on whether a suitable number of countries is involved in the project activities and on whether the expected impact will concern a significant number of countries (20 points);
- Expected results, dissemination, sustainability and long-term impact: the expected results are appropriate for the achievement of the objectives of the action; the dissemination strategy is clear, targeted and appropriate; the project is sustainable; the project's results ensure a long-term impact on the target groups and/or general public (10 points).

Applications that pass the threshold of minimum 65 points will be considered for funding within the limits of the available budget.

9. LEGAL COMMITMENTS

The award of each grant is subject to the conclusion of a grant agreement in writing.

The coordinators of projects selected for funding will be invited to engage in a grant agreement preparation process, which will be carried out via an online IT system (SYGMA). If successful, it will conclude with the signature of a grant agreement, drawn up in euro and detailing the conditions and level of funding.

The grant agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the grant agreement by signing electronically the accession form to the grant.

Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model grant agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

10. FINANCIAL PROVISIONS

10.1. General Principles

a) Non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same

financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Co-financing

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) Balanced budget

The budget estimate of the action is to be included in the application form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of the Official Journal of the European Union, determined over the corresponding reporting period.¹¹ Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its [website](#), determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

g) Purchase of equipment

The costs for the equipment envisaged to be purchased shall only cover the project duration depreciation costs. The latter shall be written off in accordance with international accounting standards and the beneficiary's usual accounting practices.

¹¹ For further guidance on exchange rate please consult the Guide for Applicants.

If necessary to implement the action, the beneficiaries may incur the full cost of some equipment items, infrastructure or other assets (new or second-hand; as recorded in the beneficiary's accounts).

10.2. Maximum amount requested

The EU grant is limited to a co-funding rate of 90% of the total eligible costs of the action.

Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 10.1.c).

10.3. Payment arrangements

A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the coordinator after the signature of the grant agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.
