INTERNAL SECURITY FUND POLICE (2014-2020) 2019 CALL FOR PROPOSALS: ISFP-2019-AG-DRUGS

Better law enforcement in the area of illicit drug trafficking

1. INTRODUCTION

Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) declares as the European Union's objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States' competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union. The Internal Security Strategy for the European Union (Internal Security Strategy), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe's resilience in the face of crises and disasters.

To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, the Internal Security Fund (ISF Police) was set up.

In April 2015 the European Commission adopted the European Agenda on Security (EAS) for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The EAS represents an effective and coordinated response at European level to new and complex threats and sets out how the European Union can bring added value to support the Member States in ensuring security. It has identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the European Agenda on Security, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union's actions.

The legal basis of ISF Police are the following regulations:

- Regulation (EU) No 513/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Instrument for financial support for police cooperation, preventing

and combating crime, and crisis management (OJ L 150 of 20 May 2014) (“the ISF Police Regulation”);

- Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014) (“the horizontal Regulation”).

The ISF Police Regulation sets out two specific objectives, respectively:

(i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;

(ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents. In accordance with Article 6.2 of the horizontal Regulation, in order to implement a work programme for the ISF Police, the Commission has adopted, on 6 June 2019, the 2019 work programme for Union actions and emergency assistance, which includes a reference to this call for proposals.

Overview of the policy context

The market for illicit drugs remains the most dynamic of criminal markets, with a trend being the proliferation of new psychoactive substances (NPS). The EU Drugs Strategy 2013-2020 provides a common and evidence-based framework for joint and complementary actions in the area of drugs. Its aim is to contribute to a reduction in drugs demand and supply in the EU which is to be achieved through an integrated, balanced and evidence-based approach. A second EU Action Plan on Drugs under the Strategy, for the period 2017-2020, was adopted on 20 June 2017. The current Action Plan identifies new priority areas for action, including the monitoring of new psychoactive substances (NPS) as well as the use of new communication technologies for prevention of drug abuse. Projects under this call should support the implementation of this Action Plan.

2. PRIORITIES OF THIS CALL FOR PROPOSALS

The present Call for Proposals aims at funding projects on better law enforcement in the area of illicit drug trafficking.

Project applications submitted under the present Call for Proposals must address at least one of the following priorities:

1. Joint training programmes for law enforcement to enhance the EU's capacity to target drug trafficking.
2. Activities aimed at facilitating the exchange of operational information for capacity building in order to prevent drug-related crime.
3. Investigations and other activities aimed at dismantling storage and production facilities for illicit drugs.

Proposals which match most closely these priorities will be evaluated as particularly relevant and will have a higher chance of being selected. Applicants are therefore invited to consider very carefully the links between their proposal and the priorities of the call.

In addition to the regular dissemination activities of the projects' outcomes, the Directorate-General for Migration and Home Affairs (DG HOME) would like to encourage

more dialogue among the individual project beneficiaries and between the community of project beneficiaries, stakeholders and the Commission services. The aim is in particular to promote more interaction about innovation in project outputs and to increase visibility, learning effects and synergies. Moreover, DG HOME invites applicants to reflect on how to reinforce the communication, dissemination and visibility of the contents of their projects (outputs and outcomes). Applicants are therefore encouraged to earmark budget for networking activities in Brussels, as well as dissemination products supporting DG HOME's communications efforts, such as factsheets, and to plan accordingly.

Any action under this call for proposals should respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this call for proposals should comply with all relevant ethical principles and all applicable international, EU and national law on ethical issues while carrying out the project.

3. Cost effectiveness	20	-
4. European added value	20	-

- Relevance: applications will be assessed on the extent to which they match the priorities as identified in this call for proposals (section 2 above) and in the relevant EU strategic documents and/or action plans (section 1 above), and on the extent to which the proposal address a real/actual need at European level in the prioritised areas. (30 points).

Applications receiving less than 21 points for the "relevance" criterion will not be evaluated further, i.e. will not go to the second evaluation step.

Evaluation Step 2:

9. LEGAL COMMITMENTS

The award of each grant is subject to the conclusion of a grant agreement in writing.

The coordinators of projects selected for funding will be invited to engage in a grant agreement preparation process, which will be carried out via an online IT system (SYGMA). If successful, it will conclude with the signature of a grant agreement, drawn up in euro and detailing the conditions and level of funding.

The grant agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the grant agreement by signing electronically the accession form to the grant.

Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model grant agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

10. FINANCIAL PROVISIONS

10.1. General Principles

a) Non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances can the same costs be financed twice by the Union budget. To ensure this, applicants must indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Co-financing

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) Balanced budget

The budget estimate of the action is to be included in the application form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of the Official Journal of the European Union, determined over the corresponding reporting period.⁸ Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its [website](#), determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

10.2. Maximum amount requested

The EU grant is limited to a maximum co-funding rate of 90% of the total eligible costs of the action.

Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 10.1.c).

⁸ For further guidance on exchange rate please consult the Guide for Applicants.

10.3. Payment arrangements

A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the coordinator after the signature of the grant agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.
