2017 CALL FOR PROPOSALS

ISFP-2017-AG-CORRUPT

CALL FOR PROPOSALS FOR PROJECTS ON CORRUPTION

1. **INTRODUCTION**

Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) declares as the European Union’s objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States’ competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union.

The Internal Security Strategy for the European Union (Internal Security Strategy), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe’s resilience in the face of crises and disasters.

To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, the Internal Security Fund (ISF Police) was set up.

In April 2015 the European Commission adopted the European Agenda on Security (EAS) for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The EAS represents an effective and coordinated response at European level to new and complex threats and sets out how the European Union can bring added value to support the Member States in ensuring security. It has identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the EAS, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union’s actions.

Legal basis of ISF Police are the following regulations:

The ISF Police Regulation (EU) No 513/2014 sets out the following two specific objectives:

i. crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;

ii. enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission has adopted, on 27 September 2017, the 2017 Annual Work Programme for Union actions1, which includes this Call for Proposals.

**Background:**

Corruption continues to be a challenge for the European Union and its Member States. The first EU Anti-Corruption Report, adopted on 3 February 20142, provided a picture of the situation in each Member State: measures in place, outstanding issues, policies that are working and areas that could be improved. The report showed that the nature and scope of corruption vary from one Member State to another and that the effectiveness of anti-corruption policies is quite different. It also showed that corruption deserves greater attention in all EU Member States.

Corruption is a complex phenomenon with economic, social, political and cultural dimensions. Although the exact economic cost of corruption cannot be easily calculated, the estimated figures are around 120 billion euros per year. An effective policy response needs to be based on evidence about its prevalence and forms in a given country, the conditions that enable it and the institutional and other incentives that can be used against it. The fight against corruption cannot be reduced to a standard 'one-size-fits-all' set of measures. Nevertheless, for a response to be successful, there have to be tools in place to prevent, detect, repress and sanction corruption.

EU Member States have taken many initiatives in recent years, but further efforts are needed to improve the performance of justice systems and to prevent and fight corruption3. These are key issues in a number of Member States, hampering investment, efficient resource allocation, economic performance and growth. Addressing these challenges is essential for improving business confidence and the investment climate, enhancing the efficiency of public spending, promoting fairness and supporting economic, social and territorial cohesion.

The Commission analyses and supports anti-corruption efforts in Member States in the framework of the European Semester of economic governance.4 The 2018 Annual Growth Survey (AGS) identifies three overarching priorities – relaunching investment, pursuing structural reforms and responsible fiscal policies – all of which require strong anti-corruption policies. The AGS highlights corruption as a "barrier to investment in some Member States, creating uncertainty in the business environment, slowing processes and potentially imposing additional costs".5

Since 2015, the Commission is also organizing an anti-corruption experience-sharing...
programme\(^6\) and regularly publishes Eurobarometer attitudes and experiences related to corruption across the EU. An exploratory collection of official criminal statistics on corruption offences across the EU Member States has also been started.\(^7\)

## 2. PRIORITIES OF THIS CALL FOR PROPOSALS

The present Call for Proposals aims at funding projects in the area of corruption. The overall objective of the Call for Proposals is to develop tools for the fight against corruption. In particular, the following areas are targeted: corruption in budgeting and public procurement at local levels; risk assessment and prevention of corruption in sectors with high corruption risks; prevention of the use of financial and professional services for corruption and for laundering proceeds of corruption; support for civil society and citizens to expose corrupt practices; activities supporting and providing legal aid and technical assistance for whistle-blowers; research on methodology aiming at exposing corruption in law making and law enforcement.

Project applications submitted under the present Call for Proposals must address at least one of the following priorities:

1. **Preventing corruption in high risk sectors, including by promoting tools for risk assessment and risk management and tools for civil oversight and investigative journalism and for assisting whistle-blowers with technical and legal aid;**

2. **Assessing the impact of implemented anti-corruption measures;**

3. **Enhancing the effectiveness of corruption prosecution, particularly as regards complex cross-border cases;**

4. **Implementing best practices across the EU.**

Proposals focusing exclusively on purchasing equipment, updating existing tools, training or studies will not be considered for funding under this Call for Proposals.

Projects must be aiming to achieve one or more of the following specific objectives:

- to develop data and risk management tools that enable civil oversight in areas with high corruption risks and significant economic and social impact (public procurement, healthcare corruption, interaction between business and politics);
- to develop tools promoting an integrated approach to measuring progress in preventing, detecting, prosecuting and sanctioning corruption and to assessing impact of corruption and of anti-corruption measures;
- to develop practical tools that enable the prevention and prosecution of the use of financial and professional services for corruption and for laundering proceeds of complex corruption crimes with a cross-border dimension;
- to enhance communication, coordination and cooperation between enforcement authorities in Member States with other relevant authorities at national (inter alia audit institutions, tax and competition authorities, FIUs, financial institutions) and international level (e.g. Europol);
- to promote the implementation of best practices and data exchange at EU level.

Any action under this Call for Proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this Call for Proposals should comply with all relevant ethical principles and all

applicable international, EU and national law on ethical issues while carrying out the project.

**Evaluation Step 1:**

- Relevance: applications will be assessed on the extent to which they match the priorities [and expected outcomes (if applicable)] as identified in this Call for Proposals (section 2 above) and in the relevant EU strategic documents and/or action plans (section 1 above), and on whether the expected impact will be significant on the selected priority(ies) (30 points).

Applications receiving less than 21 points for the "relevance" criterion will not be evaluated further, i.e. will not go to Evaluation Step 2.

**Evaluation Step 2:**

- Quality: applications will be assessed with regards to the appropriateness of their design and planned implementation, taking into account the envisaged activities, methodology, organisation of work and strategy for project management, evaluation and dissemination (20 points);
- Cost-effectiveness: applications will be assessed with regards to whether the costs of the proposed action are adequate to the activities and proportionate to the expected results (20 points);

- Expected results, dissemination, sustainability and long-term impact (10 points).

Applications that pass the threshold of minimum 65 points will be considered for funding within the limits of the available budget.
10. **LEGAL COMMITMENTS**

The award of each grant is subject to the conclusion of a Grant Agreement in writing. The coordinators of projects proposed for funding will be invited to engage in a grant agreement preparation process, which will be carried out via an online IT system (SYGMA). If successful, it will conclude with the signature of a Grant Agreement, drawn up in euro and detailing the conditions and level of funding.

The Grant Agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the Grant Agreement by signing electronically the accession form to the grant.

Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model Grant Agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

11. **FINANCIAL PROVISIONS**

11.1. **General Principles**

a) **Non-cumulative award**

An action may only receive one grant from the EU budget. In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

b) **Non-retroactivity**

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the Applicant can demonstrate the need to start the action before the Grant Agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) **Co-financing**

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:
- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) **Balanced budget**

The Budget Estimate of the action is to be included in the Application Form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of Official Journal of the European Union, determined over the corresponding reporting period.\(^{15}\) Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be

\(^{15}\) For further guidance on exchange rate please consult the Guide for Applicants.
made at the average of the monthly accounting rates established by the Commission and published on its website, determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for Applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

11.2. Maximum amount requested

The EU grant is limited to a co-funding rate of 90% of the total eligible costs of the action. Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 11.1.c).

11.3. Payment arrangements

A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the Coordinator after the signature of the Grant Agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the Coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the Beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.

12. Procedure for the Submission of Applications

12.1. How to apply

Proposals must be submitted by the deadline indicated in section 3 via the Electronic Submission System. The list of available calls can be found at the calls for proposals page. Before submitting a proposal both the Applicant and Co-applicants must be registered via the Beneficiary Register and obtain the 9-digit Participant Identification Code (PIC) (one for each applicant).

In submitting a proposal, the Applicant accepts the procedures and conditions as described in this Call for Proposals and in the documents to which it refers.

No modification of the application is allowed once the deadline for submission has elapsed. However, if there is a need to clarify certain aspects or for the correction of clerical mistakes, the Commission may contact the Applicant for this purpose during the evaluation process 16.
